wild, but the northern limit of campestis is yet further south. *Effusa* is a good and a hardy tree but I never saw one of large size. At Petrovskoe, Moscow, Mr. Shroeder showed us a fine specimen of *effusa pendula*, so my notes say, but I have forgotten it. *Montana*, or the so-called Scotch elm, is not so hardy there or at St. Petersburg. Some weeping forms of it of the Camperdown type, seemed quite hardy at Riga, and were very graceful and ornamental. Their pendula should rather be named horizontalis. They have a fine specimen in one of their public gardens, eight inches or more in diameter of trunk. Another is quite pendulous. We are much in need of a tree of this kind a little hardier than camperdown. *U. montana exoniensis* is very erect in growth, has large curled leaves clinging around the stem—both odd and ornamental. *U. m. Damierii* is much like it, but said by Mr. Wagner to be less hardy. *Adantifolia* is like the urticaefolia of the American nurseries, but even more crinkled, and its recurved serrations are very curious. The *U. suborosa* (?) of Turkestan, is a small leaved variety, not hardy at Moscow.

Under the name of Siberica are several varieties unlike one another, and quite unlike that described by me last year.

Notes on Evergreens, I regret I am unable now to prepare.

In conclusion, I would say that I have written these notes when pressed with other work, but felt it was necessary that they may appear at once, that whatever is of value to us, should be imported this coming autumn ; for orders of plants from points North and East of Warsaw must be shipped in the fall.

Seeds can be sent from or to Russia in bags under 8 oz. Scions I have sent safely to Warsaw by mail ; and scions sent by mail from Riga arrived in fair condition. Letters to Central and Eastern Russia (Moscow excepted) should be addressed in Russian.

As an amateur, I cannot continue to give up to this work the time I have given in the past. My part has been an endeavour to show our Governments and our Horticultural Societies what may, what should be done.
