NO BRITISH AGENTS AMONG ARMENIANS

Lord Robert Cecil Refutes Suggestion Made in the United States.

DELIBERATE MURDERS

Turk Committee of Union and Progress Desired to Exterminate Race.

LONDON, Nov. 17, 1.40 a.m.—In the n in the house of commons last night of the Armenian massacres, Lord Robert Cecil, underrefuted the suggestion made, he said, in the United States, that British agents had intrigued and stirred up the Armenians to revolt and that Great Britain therefore was responsible for the massacres.

"There was no provocation what-ever," said Lord Robert. "The mas-sacres were premeditated with the in-tention on the part of their instigators, the committee of union and progress, not to punish the insurrectionists, but to exterminate the Armenian race. It is no exaggeration to describe the is no exaggeration to describe the crime as the most horrible in the world's history. The only mitigation of the horror was that it was in no sense a religious movement due to a fanatical outburst of Moslem feeling. On the contrary, there is every reason to believe that pious Moslems thruout the world reprobated the horrors

and to that end all of our efforts must be bent. But I am quite sure if any opportunity should occur to assist the Armenians, by the efforts of our consuls or of our forces that is any way practicable the government would feel that it would be a very noble use of the resources of the

Referring to the lrish Nationals. leaders, that the government should make representations to neutral countries, like the United States and Switzerland, on behalf of the Armen-ians, Lord Robert Cecil said the government would rejoice if those countries intervened, but that it was, not for Great Britain to dictate or even suggest to the governments of independent neutral states their duty in such a case. He agreed with Mr. O'Connor that it was useless to make any representations to Germany, the he declared it was Germany alone who was able to stop the massacres, and that Germany's complicity in them had been proved beyond doubt.

Ontario Association Thinks It Would Solve Legislation

INQUIRY IS DISCUSSED

Queries Relating to Evidence Before Hodgins Commission Are Considered.

At a meeting of the Ontario Association of Osteopathy, held last night in Toronto, it was the consensus of opinion that the only satisfactory solution of the medical legislation problem would be to establish an independent osteopathic board. board.

During the discussion on the inquiry under the direction of Mr. Justice Hodgins, recently appointed by the Ontario Government to investigate the allopaths homeonaths, birtopraguers, osteopaths

under the direction of Mr. Justice Hodgins, recently appointed by the Ontario Government to investigate the allopaths, homeopaths, chiropractors, osteopaths and others, in view of suggesting a broader Medical Act for the province, the following queries were considered:

1. What were the preliminary educational 'qualifications of Dr. McCullough and Dr. Hastings, both excellent public officers, before entering the Medical College? Also, how long they were in securing their degree of M.D.? which at that time was a much shorter course than they wish to set today, 5 years of 9 months each. There is no medical school in Canada, or America, today giving such a course, the longest being 5 years of 8 months, inaugurated only one year ago.

2. How many five-year men have been serving under them in securing the results they claim?

Osteopathic Course.

3. Is it generally known that no regular osteopathic college gives a course of less than 3 years of 9 months each, and that at least two of these colleges give 4-year courses of 8 months each as the minimum, which latter, without major surgery or drugs, is the minimum standard requested of the Ontario Legislature by the qualified osteopathy than in drugs?

5. Who were the pioneers in "Pure Milk Campaign." the board of health or the City Dairy?

6. Who are the most "injured by the practice of osteopathy" in Ontario today, the people or the allopath?

7. Is it not generally conceded that col. Nasmith, who is not a medical doctor, is the man who received the credit for advanced sanitary conditions in Toronto today, and also our Canadian troops in France?

Elsewhere All Quiet on Russian Front-Von Hindenburg Faces Disaster.

PETROGRAD (via London), Nov. 16. 9.20 p.m.—The official communication issued by the war office today "Along the whole of the front from Riga to the Pripet River nothing of importance has taken place. In the region of the Villages of Tzminy and Khriask, at the crossings of the Styr

River, the fighting continues." Allied Victory Protection.

Lord Robert declined an invitation to give the pledge of the government to employ all the resources of the army and navy in order to save the Armenians.

"Germany's silence concerning velopments on its northern front in the Riga and Dvinsk region, in the face of Russian claims of important gains, led to the opinion here today that Field Marshal Von Hindenburg faces a decidedly serious situation. After all," the speaker added, "the greatest possible protection for the Armenians is our victory in this war, Russians are pushing a strong offensive and that the Germans are slowly falling back. The best judgment here is that Hindenburg's forces have been depleted by withdrawals of men to other fighting zones."

Autumn Wheat Acreage in Ontario Greatly Under Last Year.

By a Staff Reporter.

OTTAWA, Nov. 16.—Root and fodder crops in Canada consisting of potatoes, turnips, mangolds, etc., hay and clover, alfalfa, fodder corn, and sugar beets, occupied this year a total area of about 8,977,000 acres, as compared with 9.067,000 acres in 1914, and the estimated value subject to revision is \$230,379,000, as compared with \$226,27,000 last year, says the census and statistics office. The decrease in area is principally in respect to hay and clover, and the increase in total value is due to the larger yield of the same crop.

Help to Keep from Want the Wives and Families of the Men at the Front by Joining

The 50,000 Club

On Friday morning a campaign will be launched to secure at least 50,000 men and women, each of whom will contribute a definite amount weekly or monthly to the funds of the Toronto and York Patriotic Fund Association during the duration of the war, which money will be used for the support of needy families of men who have enlisted.

The Amount Which Anyone Can Contribute is Limited to 25c Per Week, 50c Semi-monthly, or \$1.00 Monthly-No More, No Less.

It will hurt no man or woman to give \$1.00 per month to such a worthy purpose. The men who have enlisted are away fighting YOUR fight, and it is, therefore, only common justice and right that those they have left behind shall not suffer from want or privation. In union there is strength, and fifty thousand people combining to provide \$50,000 per month for this purpose makes a formidable organization to meet this condition. Through no other source will your money be better administered or more effectively applied. It is fully anticipated that every man and woman asked to do so in the city will respond quickly and enthusiastically.

Fifty district captains have charge of the campaigns in the different districts, with the assistance of sub-captains and can-
