Special Aldermanic Committee on Salaries Will Go Thru Hall, Top to Bottom.

Hamilton, March 31.—(Special.)—The impression was general that the aldermen were only fooling when they appointed a special committee to readjust the salaries of the city hall employes. The committee had its first session this evening, and the four membes who turned up—Ald. Dickson, Wallace, Bailey and Sweeney—talked as the they meant business. Ald. Dickson was chosen chairman, but those present decided not to take any definite action until Ald. Stewart, Main and Nicholson, the other members, were in attendance. In the meantime Ald. Dickson, Wallace and Sweeney will interview the independent board to see if they cannot arrange to employ outsiders as secretaries instead of city half clerks. The four members who attended the meeting this evening declared that they would go right thru the civic building from top to bottom, slashing some of the salaries and raising the pay of deserving officials. Hamilton, March 31 .- (Special.) -The

The jury that investigated the facts connected with the death of Ralph Moore, 90 Earl-street, who was found dead in his bed yesterday, brought in a verdict to-night to the effect that he came to his death thru natural causes. Above all things it is the exquisite quality of the tone that has given the Bell Piano its great reputation. This fine tone effect is the outcome of incessant study of tone production for years, with the result that the scale in the Bell Piano is as near perfection as we think it is possible to go. The Bell tone is truly magnificent. It is powerful and sweet, and pure and singing.

The construction is carried out along lines that make for exactness. The illimitable, quick-repeating action, the strings and the many various mechanical processes are of the highest possible grade. We have tried to make an instrument that would be worthy of our great reputation, and that we have succeeded in a wonderful way is admitted by all musical experts who examine Bell Pianos.

Bell Pianos are made, guaranteed and built to last a lifetime by the largest makers of pianos in Canada.
