Ohio Narrowing the Inquiry to Pin Down the Corporation's Head Men.

Cleveland, O., July 17.—Basing his opinion upon the testimony already submitted to the federal grand jury in this district, Attorney-General Moody believes that the Government has at last secured the evidence which will lead to bring the Standard Oil Company to its knees.

The change in plans includes a

complete reversal regarding M. J. Grammer, vice-president of the Lake Shore and Michigan Southern Railway. Grammar will not be indicted. Instead he will be asked to assist the Government in forging a chain of evidence about the necks of some of the biggest Standard Oil officials in the country. Acting upon orders District Attorney Garry late yesterday issued another subpoena for the appearance of Grammar before the grand jury today. Grammer was immediately served with the subpoena.

District Attorney Sullivan wired to have all the employes of the Lake Shore Railway who have testified before the grand jury recalled. These witnesses include James L. Clark, general western freight agent, and C. A. Slauson, freight agent of Chicago; M. C. Tulley, R. H. Huddleston, G. B. Wheeler and H. L. Meyer, all employed in the Cleveland offices.

It is known that the Government officials are eager to obtain one more in the link of evidence already secured against the Standard Oll Company. A most determined effort will be made The Recent Excavations in Gezer Tel to complete the chain through Grammer and Clark.
