NEW YORK, Aug. 18.—Introduction of headgear for batsmen is being considered by baseball club owners, Secretary-Treasurer McQuade of the New York Giants declared here today in commenting on the fatal injury received by Ray Chapman of the Cleveland Americans last Monday when hit on the head by a pitched ball. Humanitarian impulse, quite Humanitarian impulse, quite as much as anxiety to protect the heavy financial investment in their star performers, had moved club interests to consider headgear as a desirable addition to players' protective apparatus, McQuade asserted. BOSTON, Aug. 18 .- The explanation by Carl Mays of the New York Americans that the killing of Ray Chapman of the Cleveland American League baseball club was due to a rough spot on the ball Mays pitched which caused it to take an unexpected twist, was the subject of a statement today by Umpires Evans and Dineen of the American League. League.
"No pitcher in the American "No pitcher in the American League resorted to trickery more than Carl Mays in attempting to rough a ball in order to get a break on it which would make it more difficult to hit." the statement said. "Until the new pitching rules came into force which put a severe penalty on a pitcher roughing the ball, Mays constantly used to drag the ball across the pitcher's rubber in order to roughen the surface. Hundreds of balls were thrown out every year because of this act."

Morrisette will report to Detroit at once, although he has not been bought by the Tigers from Hamilton, who will not receive any money for him unless he makes good.

A special attraction has been added to the game for today, when "The Mimic World," which is playing at Loew's, will hold an infield practice between the workout of the Red Sox and that of London.
