SEWAGE QUESTION IS A LIVE ONE IN N. TORONTO

Project Contingent on Water Supply—Live County and Suburban Topics.

NORTH TORONTO, March 16 (Special).—Will North Toronto again take up during the regime of the present town council the important question of the installation of a sewage plant?

This is a question which is agitating the minds of the townspeople, and one that perhaps more than any other appeals most strongly to the average ratepayer.

"I may say frankly in the outset that before the question of sewage is dealt with we must be assured of an abundant supply of water," said Mayor Brown to the World to-night.

"No formal resolution was ever put down to accept water from the company in the event of their acquiring the charter," he said, "but it was agreed in committee of the whole to lend our moral support to the project, and a letter to this effect was sent to the representative."

"I would not go so far as to say that we ought to wait until the water question is settled before we take up the board of works."

Ex-Councillor R. W. E. Burnaby, an enthusiastic horseman, bought another driver yesterday. Friends of the manager of the Imperial Life will enjoy many outings this summer.

Real estate in North Toronto is active. The Warrington farm at York Mills, consisting of about 18 acres, on which is a splendid orchard, has been sold.

The West Toronto Baseball League held a meeting last night in the clubhouse at 1111 Dundas-street.

The Delta Alphas, a young ladies' club in the neighborhood of the Methodist Church, are giving a special St. Patrick's banquet to-morrow evening.

The demand for six-roomed houses in ward seven far exceeds the supply. If you have a house of this description to rent or sell, notify F. B. Harney, 1729 Dundas-street.

Regulate the Bowels

"I have been troubled with constipation for several years, and have tried a great many kinds of pills, as well as medicine from the doctor. Nothing seemed to help me until I began taking Dr. Miles' Nerve and Liver Pills. I found the little pills very effective, and I am thankful that at last I have a reliable remedy."

MRS. F. M. DUNKIN, LeRoy, Ill.

Dr. Miles' Nerve and Liver Pills simply cause the bowels to move in a normal manner, and without the gripping effects of cathartics and purgatives. That's why they are so universally used by women and children. The longer they are taken the less are needed. Natural conditions gradually being restored.
