

PRESCOTT.

This work is in a flourishing condition. A new church has been completed, worth \$15,000, and sixty conversions have taken place.

W. G. HUDGINS.

EASTON'S CORNERS.

This mission embraces parts of the townships of Wolford, Montague, and Oxford. We are building two churches—one at the village of Jasper, the other at Newmanville, in the township of Oxford. We have had an increase in the membership of seventy-one since last Conference, and have organised one Sabbath-school. The work has been extended, so that two men will be required next year. Much interest has been added to this work.

E. WOODCOCK.

TAMWORTH.

This field comprises portions of Sheffield and Hungerford. We have six appointments, at two of which—namely, Tamworth and Marbank—we preach every Sabbath. In each village we have a pleasant church, and in the former a comfortable parsonage. These were erected and the debts incurred upon them just before the failure of the lumbering interest, on which this whole region of country was to a great extent dependent. This added to the extreme drouth of the past two years, and consequent failure of crops, has prevented this charge assuming the position which, under more favorable circumstances, it will undoubtedly attain to—that of a first-class circuit. There are noble souls who love the Church and her institutions, and strive to sustain them; and under God they will succeed.

J. A. ROGERS.

DENBIGH.

This Mission comprises parts of the townships of Denbigh, Abinger, Miller, and Clarendon, and may be enlarged. The Macedonian cry is heard from Mattowatchin and Griffith, "Come over and help us." Besides the frame church, there is a good frame parsonage and horse barn, so that the missionary and family are comfortable, and may feel quite at home. The year has been a hard one—failure of crops and scarcity of money; yet we raised \$10 for Manitoba and \$36.57 for home missions. The board of stewards is full, and we have some noble hearted men and women.

F. B. KNOWLTON.
