

Dernburg Professes Elation Over Situation

The Hague, Nov. 23.—Dr. Bernhard Dernburg, former German Colonial Minister, spoke at a recent meeting of the Progressive party in Baden on Germany's force and unity abroad and at home, giving as an example the Italian victory and saying that England's social structure had been overthrown and that she has been obliged to give her markets over to America and Japan in her desire to drive out the Germans.

Dr. Dernburg spoke of England's merchant fleet, which, he said, shrank daily, and if conditions were bad now, he asserted, they would be worse after the war, when the neutral fleet was no longer at England's disposal and when America's rival merchant fleet and money market would "swamp England."

The Entente's hope of Germany's interior collapse, said Dr. Dernburg, had been dispelled by the new order of things in Germany.

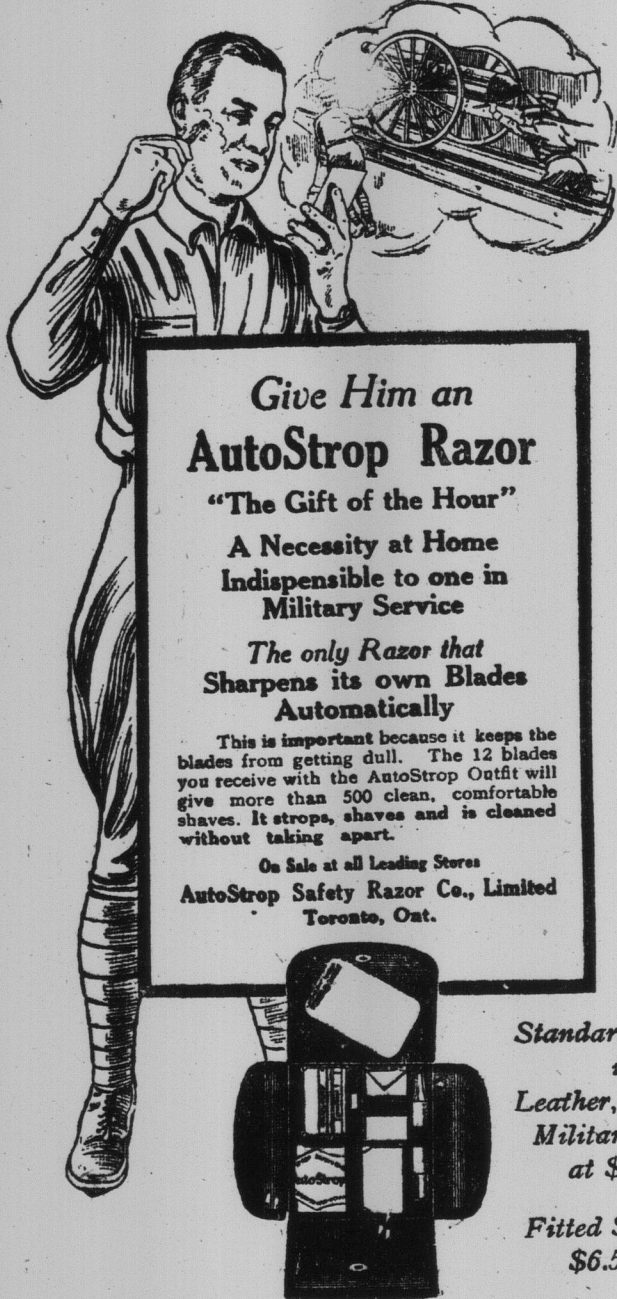

He asserted that in spite of America's great sacrifices for the Entente, she had not been "willing to be made a dupe." Even before declaring war, he said America had supplied great quantities of money and arms to the Entente, but it was questionable whether America was able to send large masses of troops to Europe within a definite period.

Dr. Dernburg said he was opposed to the ruthless submarine warfare, as it increased the danger for Germany, but he recognized that it was a deadly instrument of use on the enemy. He asserted that America's war aims and those of the Entente diverged, America not being an official ally and not having signed the treaty of September, 1914, and "not attending the war councils," she did not insist on Germany's destruction in answer to the Pope's note, he said, and did not agree to an economic "war after the war."

Germany's position, Dr. Dernburg said, was most hopeful, whereas Russia was paralyzed, Italy weakened, England menaced, France bleeding, and America "uncertain in every respect." He professed to see a hopeful sign in "Germany's democratization," and the alleged responsibility of the majority party, asserting that the German people would not collapse because they were united on a democratic basis. Dr. Dernburg also attacked the "patriotic party," which, he said, was endeavoring to discredit the majority party.

First Real Storm

Quebec, Nov. 22.—The first real storm of the winter season struck Quebec and the district today. Down the river and gulf the storm rages with fury and trains are already greatly delayed.

ARE YOU WAR WEARY?

Yes? Well, who is not? We all want the war to end soon. But we know it cannot end until Germany is beaten. Peace without victory would be but a period of preparation for another war.

The only way to end the war is by hard, unflinching blows. The soldiers cannot strike such blows unless non-combatants provide the funds.

What is the use of saying you hope the war will end soon, unless you are willing to help end it? Every dollar that is subscribed to Canada's "Victory Loan" will help to end the war—and win it too.

Canada is prosperous. Exports were never so great; wages were never so high; the producer never before got such returns. The increased value of Canada's products many times exceeds the government needs to carry on the war.

The people have the money. Let them use it to buy victory and permanent peace; to preserve the flow of Canada's exports and the home circulation of money.

The "Victory Loan" is an insurance policy on prosperity. It is organized thrift. It means more power to the men who are fighting. It will help to arrange the sons who have fallen. It provides a sure return to the investor!

Reasonable war profits are sane and just. The government offers you your legitimate share. Help your country to help you. Subscribe today.

BEST WRECKING SHIP GOES INTO WAR SERVICE.

Cleveland, Ohio, Nov. 22.—The wrecking steamer Favorite, the most modern wrecker on the great lakes, has been taken over by the United States navy. The steamer was owned by the Great Lakes Towing Company, and is the most complete salvage ship afloat, according to experts. It is understood the Favorite will be sent abroad at once to work on wrecked vessels.
