GOOD THINGS COMING TO THEATRES OF ST. JOHN

"SAINTS AND SINNERS"

sarily be a deep-dyed, devoted pupil of Satan to deserve this appellation. You need only be a weakling with no thought of actual sin other than an irresistible impulse toward self-gratification to be impulse toward self-gratification to be a registered under this head by Henry Arthur Jones. This distinguished English dramatist, who has made the world think by the force of his graphic, dramatic lessons, made this absorbing question the theme of what is conceded to be one of his foremost successes, "Saints and Sinners," which, after a triumphant career on the stages of England and America, has now been converted to the screen by the Famous Players Film Co.

Beginning Tuesday the new national registration as proposed for Canada will begin to take definite shape. Will be made by the Pleasant Point ferry, and in addition ample accommodations have been provided for those who will motor to the tea and sale by way of the bridge.

As the object is a most worthy one, amely, to procure funds to provide Christmas cheer for the wives, and more especially the children of soldiers who are daily risking their lives in defense of our homes, the patronage should be large. Preparations for an exceptionally good time have been made.

dividual was fined \$8 or two months in jail for being drunk.

The plight of two sailors came to light in court. They were arrested last week on charge of fighting together in the public street. They were remanded to jail as they were to be taken back to their ship. In the meantime the ship sailed without the men. They say they had some money coming to them. The captain left word that the two were deserters but this the men deny. The court contends that the captain should not have sailed without them. The sailor says that they are union men and can get their money from the agents of the vessel here. However they found comfort in the thought sof enlisting and left the court room to join the Kiltie Battalion.

Several remands, including four females, were brought into court and furnished.

When the building was erected the commissioners of the hospital decided that balconies where the patients | Previously Reported Missing, could enjoy the fresh air were a necessity and they recommended to the municipal council that they be placed on the Killed in Action: western side of the institution. The council approved of the need for balconies and authorized the issue of bonds to the extent of \$4,000 to cover the expenditure but they did not approve

of the location on the western side, as that is the front, and they made the grant with the proviso that the balconies should be placed on the northern and

IS NOW GRAND DEPUTY

FOR ALL NEW BRUNSWICK

Richard J. Walsh is receiving congratulation on his appointment as Grand Deputy of the C. M. B. A. for the Province of New Brunswick. Heretofore there have been several grand deputies, each having authority in his own district, but in future Mr. Walsh will have authority for the whole province. He has been grand deputy for the city and county of St. John.

A new policeman was added to the strength of the local force yesterday afternoon—Lawrence E. Ward of Pennfield, Charlotte county, a powerfully built man. He stands 6 feet 2 inches and weighs in the vicinity of 212 pounds. Chief Simpson told the Times this morning that the question of securing suitable men for the force was becoming a serious problem. With the approach of the winter port season and its demand for men, it would be difficult, he said, to hold on to men that are on the force now. There were so many other lines of labor wherein men can secure better opportunities and more money that it was a problem to induce a man to jcin. With the increase in the cost of living the question of more pay must soon be a live one.

Warmth

(Fredericton Gleaner.) Hon. J. K. Flemming, of Woodstock, arrived here this morning and is among the guests at the Barker House. Hon. Mr. Flemming is being warmly received by his friends in Fredericton and is re-ceiving many congratulations on the sult of the recent bye-election in Carleton The Hon. J. K. Flemming gave up

his position in the provincial govern-ment and his seat in the legislature to meet and to defeat F. B. Carvell, M. P., in his native county, and that he will do, and do splendidly, before seeking additional honors in the public life. Mr. Flemming figured largely in the recent bye-election in Carleton in which Mr. Carvell and his following were ignomiated that the care of the southern ends:

To this the commissioners could not agree and the plans were held up until an agreement could be reached. Finally the commissioners recommended that the balconies be placed on the southern side, alone, and this was before the council yesterday. The proposal was referred to a sub-committee and the committee, which met at noon today, approved the recommendation.

It is understood that a philanthropic lady of this city has expressed her willingness to contribute the amount restricted to a sub-committee and the committee, which met at noon today, approved the recommendation.

THE POLICE

A new policeman was added to the strength of the local force yesterday

Carvell and his following were ignominously defeated. That was the practical beginning of the end of Carvell; and when Mr. Flemming has performed the obsequies, as he will in the first federal election held in Carleton,—If Mr. Carvell does not run away in the meantime—he may then look for the full honors which his commanding ability and his standing in the public life entitle him to. But just now Mr. Flemming is doing in good shape precisely what he set out to do.
