

# BRITAIN'S NEW ATTORNEY-GENERAL

Mr. H. F. E. Smith

## LAST NIGHT'S WAR CABLES

London, Nov. 5.—The Serbian northern army is being slowly but surely ground down before the combined pressure of the Austro-German and Bulgarian forces. The fate of Nish hangs by a hair, and it is only at the southern end of the battlefield that the Bulgarians are meeting with any reverses. There, according to reports, the British are co-operating with the French, but, as heretofore, these reports are unofficial, and fragmentary and it cannot be said authoritatively whether the British are in touch with their new enemy. If the Bulgars-Turks tide is turned, the best opinion here is that it will be some weeks hence, involving a period of uncertainty such as preceded the stand before Paris and on the Yser. But giving the Entente Powers a month's time, it is argued that they can throw 300,000, and perhaps 500,000 men, into Serbia, not including Russians, and with such a force not only dispute the advance of the Central Powers, but counter-Bulgaria's occupation of Serbian Macedonia. The Germanists on the defensive in the east and west. Neither theatre has developed any large battles, as modern battles are reckoned. The Turks continue sporadically activity in the Dardanelles region, as recorded in tonight's British official communication from Gallipoli peninsula. This says the Turks launched attacks against the British right in the Anatolian region, but that they did not meet the British line.

### French Repulse German Attacks.

Paris, Nov. 5.—The war office communication, made public tonight, says: "Artillery actions have continued during the day in Artois, especially in the Loos sector. "In Champagne fighting is going on with the same violence in the region of the Meuse. During the recent attacks, delivered with the same methods and with heavy effects, the enemy was able to push a few elements into our first line trench at Hill 199. "Everywhere else the enemy was stopped, or completely repulsed by our counter-attacks. "In the Vosges one of our mines has been destroyed, at Le Chapelle (east of Badonviller), a German blockhouse. London, Nov. 5.—Official denial was made today of a report that Earl Kitchener, secretary for war, has resigned. The announcement follows: "During Lord Kitchener's temporary absence on public duty the prime minister is carrying on work at the war office. There is no truth in the statement that Lord Kitchener has resigned. "There has been no intimation that he might resign. In fact, the secretary of war, according to the general understanding in London, is to be made a member of the war cabinet committee which is to be charged with direction of the war. London, Nov. 5.—Official announcement by the war office tonight of the sinking of the British transport Ramsaran by a hostile submarine in the Aegean Sea in the latter part of September, previously reported, shows that more than 200 men were lost when the transport went down.

### GIRLS' CLUB; BOYS' CLUB AND TRAVELERS' AID

At a meeting of the Playgrounds executive in the Y. M. C. A. last evening, encouraging reports were read on the season's work, and satisfactory progress was told of in reports on the Girls' Club and on the Travelers' Aid. Superintendent Howard, in a review of the activities of the summer, told of increased interest and good results. The Girls' Club, it was announced, is now well equipped with furniture and other fittings, a testimony of the generosity of citizens who realize the life of the city. It was decided to open the Boys' Club next Thursday, for the winter. In connection with the Travelers' Aid, it was brought out that action was advisable in the case of girls and women who attempt to journey to the United States from the maritime provinces, on visits, without sufficient funds. It was pointed out that many are turned back at Vancouver and that the Travelers' Aid has to care for these people until they are permitted to proceed, following advice from relatives in the States. Decision was arrived at that an effort should be made to have an extract of the United States immigration laws, covering this point, printed and placed in the various ticket offices throughout the maritime provinces, so that people would understand what was necessary in order properly to travel to the United States without inconvenience.

### BULGARIAN GRAIN GOING INTO GERMANY.

Berlin, Nov. 5, via London.—The Roumanian government has decided to abolish the prohibition on the export of grain in carloads. The measure is interpreted here as an effect of a reopening of negotiations with Danube, which enables Bulgarian grain to compete with Roumanian in Austria and Germany.

## Had Palpitation OF THE HEART ALSO WEAK AND DIZZY SPELLS.

When the heart begins to palpitate it will beat fast for several seconds, then slow, then start to flutter, and a feeling of utter depression will come over your whole system, accompanied by weak, fainting and dizzy spells, and if you should happen to wake up in the night with your heart palpitating, and that "all gone" sinking sensation, you feel as if you were surely going to die. When both your heart and nerves are out of order, and what you require is a real good heart and nerve tonic, you need build up your strength both the heart and nerve system. For this purpose nothing can equal Milburn's Heart and Nerve Pills. Mrs. J. S. Nicholls, Larned, Ont., writes: "I was weak and run down, my heart would palpitate, and I would take weak and dizzy spells. A friend advised me to take your Heart and Nerve Pills, so I started at once, and found that I felt much stronger, and my heart was ever so much better in a short time. I cannot praise your medicine too highly for it has done me a world of good. My husband has also been bothered with heart trouble, ever since childhood, and finds great relief by using your valuable pills."

Milburn's Heart and Nerve Pills are 50 cents per box, 3 boxes for \$1.25, at all dealers or mailed direct by The T. Milburn Co., Limited, Toronto, Ont.

### BANISH BILE!

A bilious condition of the system is the result of inaction of the liver, often causing severe headache through the eyes and temples, culminating sometimes in nausea and vomiting, which is frequently followed by a bilious diarrhoea.

Abbey's Effervescent Salt, when taken as directed, stimulates the peptic glands of the stomach and increases the contraction of its muscles from above downward. This action is communicated to the intestines and increases the flow of the intestinal juices, thus stimulating the ducts of the liver to pour out the bile, when it can be carried downward by the laxative action of the salt, instead of remaining to clog up the liver and flow back into the stomach. Thus, if a person who is subject to Biliousness and Bilious Headache will use Abbey's Effervescent Salt, the natural action of the stomach, liver and intestine will be kept up and no bile can accumulate in the system. Sold everywhere at 25c. and 60c. Sold by E. CLINTON BROWN, 217 Union Street.

### Magical Effect of New Face Peeler

To maintain a clear, white, youthful complexion, there's nothing so simple to use and yet so effective as ordinary face cream. Apply this cream at night as you would your face. The morning wash it off with warm water. If you've never tried it, don't imagine the magical effect of this harmless home treatment. It causes the old worn-out skin to peel off in minutes particles, a little at a time, and the fresh young underneath, now in evidence, is so healthy and bright looking, so free from any complexion blemishes, that you will wonder how you ever got on without it. Equally magical in its action is a simple wrinkle-removing lotion made by dissolving an ounce of powdered azoicite in a half pint of witch hazel. Bathing the face in this for two or three minutes immediately affects every line and wrinkle and improves facial contour wonderfully.

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. So do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find all itching and digging of the scalp will stop instantly, and your hair will be soft, lustrous, glossy, silky and soft, and look and feel a hundred times better.

## SLEEP

THE ancient Greeks revered Hygieia—the Goddess of Sleep—who helped Asclepius, the Health-giver, always invoked in working his miraculous cures.

Fulfill! Not at all. For though twenty-four centuries have passed it is still true that if the God of Slumber will but pour the balm of sound sleep on the eyelids of tired mortals, health is assured.

It is a trouble that modern men and women often treat sleeplessness with a pill or powder. The more you take the more you need—and finally normal sound sleep becomes utterly impossible. Insomnia is an unnatural condition—a symptom of nerve disorder due to lowered vitality. Go to the root of the trouble. Rebuild and tone your nerves, digestion and general health with
