DRAMA AND COMEDY; ROMANCE AND WAR

All Well Varied in Next Week's Bill at Gem Theatre—Last Showing 8th Episode of "Perils of Pauline"

A week of choice and entertaining picture features is in store for patrons of the Gem Theatre beginning on Monday. For the opening there will be presented the three part drama "The Severed Hand" in which Cleo Maddison and George Lenkin both well known in St. John will be starred. The Pathé Weekly to be shown on Monday and Tuesday contains many more views from the war zone including scenes from England, France and the Dardanelles. For Wednesday and Thursday the two part western feature "The Ghost of Smiling Jim" which was delayed this week, will be shown with Grace Cunard and Francis Ford in the leading roles. It is an exceptionally enthralling story of the plains. The ninth episode in "The Perils of Pauline" will be shown on Friday and Saturday, when the popular heroine will be seen in many further thrills in her eventful career, from the innocent making of a play-act to being carried off from a lonely island in an aeroplane which catches fire. At each change there will be comedy subjects and also sections by the Gem orchestra.

John Stanfield, chief Conservative whip at Ottawa, says that at the time his present secretary, W. P. Mackay was buying horses in Nova Scotia for the war he was not in Stanfield's employ and the latter did not know that Mackay was buying horses.

The members of the Wagonette Club had a splendid time last night at the Brown Betty. About seventy ladies and gentlemen were present and enjoyed a long programme of dances.

"Thank Heavens, I'm Rid Of That Truss!"

The Days of Truss Slavery Are Over. Rupture Can Now Be Held Perfectly and With Absolute Comfort Without a Truss, Steel Springs, Elastic Bands or Leg Strap Harness

LOCK Your Rupture So It CAN'T Come Down

Think of it, you rupture sufferers who are burdened with an ill-fitting, flesh-gouging, ever-slipping, always pinching truss or makeshift harness. You can now be free from all your torture, all your worry, pain and misery. Your rupture can be easily and securely LOCKED in the abdomen where it belongs and HELD there in such a way that it CAN'T come down. It can be held PERFECTLY and COMFORTABLY at all times and under all conditions and WITHOUT A TRUSS.

IT HAS EFFECTED COMPLETE CURES. THE SCHULING RUPTURE LOCK is entirely different in principle and construction from the old-fashioned instruments of torture you have been wearing. It holds the rupture with wonderful firmness and yet with all the comfort that could be obtained with soft and gentle pressure of the hand. Wearers say they forget all about their rup-

WORK OF THE PLAYGROUNDS ASSOCIATION

Statement From the Executive in Expansion of its Work All the Year Round — Next Saturday Violet Day — Appeal To the Citizens

In connection with the Violet Day campaign next Saturday to raise funds for work among the boys and girls of the city, the executive of the Playgrounds Association makes the following explanation and appeal: The Playgrounds Association, having the assurance from members of the city council that it would receive a larger grant than that of last year, laid its plans for a much larger and more valuable work to be continued throughout the year. It took over the Boys' Club, the Girls' Club, and the Travelers' Aid. It had already engaged a director for a term of one year. As all of last year's funds were expended last year, the executive financed its work, with the exception of a few contributions which were received, upon the expectation or rather the assurance of a grant of \$5,000 from the city council, although it had also planned to raise another \$1,500 to enable it to carry on its work still more effectively. The city grant of \$5,000 was actually made by the council, but afterwards, with all the other grants, it was cancelled.

This left the association not only with a very considerable debt, but with the position of the association is thus very much worse than that of any other organization hitherto receiving civic grants. It had undertaken large obligations and planned for a greatly enlarged work in perfectly good faith, and with not the slightest suspicion that it would be left to shoulder so great a burden. As the grant stands now, even with the largest measure of public support, the work of the summer playgrounds must be very greatly curtailed, if not entirely abandoned, and indeed the latter course seems most probable.

A NEGLECTED COLD WILL VERY OFTEN TURN TO CONSUMPTION.

Never neglect what at first seems to be only a slight cold. Perhaps you start to cough, a little irritation in the throat comes, then it gets lower down, settles on the lungs and bronchitis sets in, and you start to raise plagues of a greenish, yellowish color, and you cough persistently.

DR. WOOD'S NORWAY PINE SYRUP.

A few doses will convince you that it is the only remedy you require. Mrs. J. W. Pearson, Amherst, N.S., writes: "Some time ago my daughter had a very bad cough which settled on her chest. She had no rest day or night. I gave her everything I could think of, but without doing her the least bit of good. At last I thought of Dr. Wood's Norway Pine Syrup, so I got a bottle for her. She had not taken half of it before she got relief, and with the remainder she was completely cured. Now when any of the family have a cough we always know what to get for."

and Mrs. McGowan as they brought with them the body of their oldest daughter, a little girl of seven, and since coming to Havelock the youngest child died. Both children were buried in the Catholic burying ground at White's Mountain.

The death of Mrs. W. D. Perley, widow of Senator Perley of Wolsley, Sack, occurred on Thursday after an illness of several months. She was a daughter of the late James Slipp, Sr., of Hamppstead, Queen's county. Mrs. Perley is survived by one son, Ernest, and two daughters, Mrs. Banbury and Mrs. Thompson, of Wolsley, also two brothers, E. W. Slipp of this city, and Alfred E. of Hamppstead, Queen's county.

In the death of their youngest son, J. Donald Armstrong, Mr. and Mrs. R. E. Armstrong were yesterday keenly bereaved and the sympathy of all citizens will be theirs in the great trial which they have been called upon to suffer. A bright boy, just in the prime of youth, he gave rare promise of a splendid, vigorous career and he will be greatly missed by his schoolfellows to whom he was always a willing, ready playmate and classmate, and by his parents and brothers and sisters. The young lad was taken ill four weeks ago and gradually a fatal sickness wore out his full strength of youth; he passed away yesterday afternoon at the residence of his parents, 211 Queen street.
