RECENT DEATHS

The Misses Rankine, King street east, yesterday received from their brother in Winnipeg, a telegram conveying news of the death of their brother-in-law, Robert M. Belyea, formerly of St. John. He passed away on Wednesday, and will be buried in Winnipeg today. Mr. Belyea numbered many St. John friends. His wife, who was Miss Gertrude Rankine, died less than a year ago.

The numerous friends of George Currie, of Clarence street, will hear with regret the sad news of his death which occurred yesterday at his home, after a brief illness. Mr. Currie was in the sixty-ninth year of his age and until recently was very active. He is survived by two sons, two daughters and one brother. The sons are, William J. and David, of this city; the daughters, Mrs. Elizabeth Miller and Miss Jane Currie, both of New York and the brother is David Currie, of New Orleans.

ST. STEPHEN MAN WRITES FROM CHINA

Letter From J. H. Crocker, Who is There Engaged in the Work of the Y.M.C.A.

An interesting glimpse into the new conditions in China is given by J. Howard Crocker, formerly of St. Stephen, N. B. in a letter to friends here, which was received this week. Mr. Crocker, who has many friends throughout New Brunswick, left St. Stephen to engage in Y. M. C. A. work and for several years was physical director of the Toronto association. During this period he attained a national reputation as an authority on athletics. Some time ago Mr. Crocker was chosen to fill an important post on the Y. M. C. A. in China and his letter, which follows, gives some idea of the new problems which the awakened China must face and the way the Chinese are meeting them:

Shanghai, April 30—1912—After a great storm at sea, a considerable time elapsed before the water is again calm. So, in China, after the great upheaval, it will take a long time to adjust matters in a kingdom of 400,000,000 of people. On every hand there are signs of unrest; China can never be what she was. A new and mighty nation is being evolved; and in every Chinese whom one meets, the symptoms are clearly seen. Native Shanghai is fighting bitterly every inch of ground; and refusing to allow the foreign powers any further concessions. The young native, who has been so calm and dignified that he apparently would not resent the insults of arrogant foreigners, will today turn with a fire in his eye that bodes ill for those who trespass upon his rights. The coolie in the "ricksha" who heretofore has taken much abuse, will now take an insolent passenger to the curb, and inform him that he will go no further.

These, and many other sights seen every day, are but "the signs of the times." China is rising to claim her own; and her mighty characteristics of patience, thrift, perseverance, endurance, community love, and family love, will count for much as foundation principles to build upon.

The work of the Y. M. C. A. is being recognized by China's new leaders. At Nanking, the government has provided a splendid building site for the association; and has also granted a large area for a model athletic field.

One of the new movements of the Scientific Lecture Department, organized by Prof. C. H. Robertson to reach the educated classes, and doing a marvellous work, is a branch called "Welfare Work," or "Preventive Medicine," whose object is to popularize Personal and Community Hygiene, to clean up the dirt, and to prevent disease. The organization of the physical work—both for men and women—is a great factor in carrying out the departmental schemes. The splendid part of all this departmental work is the dominant note of Evangelism ringing through the message.

We are hopeful of starting a boys' building this year; also a separate building for the national committee offices; and another for the foreign or English-speaking young men. This, added to our present work, will keep us all very busy. A. H. Swan, of Chicago Training School, comes next September to take charge of the Shanghai work; and we hope that Seymour Collins will be able to take over the work for Anglo-Saxons which has been a great success. Just before the summer of conducting ten gymnasium classes a week, getting the athletic field in shape for the summer's work, planning recreation for the seasonal students, lecturing, entertaining and studying.

The unrest of the nation has continued so long, that we have begun to hear of sending a team to Sweden to represent China; but hope to send a few representative men to catch the inspiration of the Fourth Olympiad.

Every day the opportunity to serve our Master, and to help extend His Kingdom, grows on us as we get better acquainted with the people individually. I do not believe that it will be given to us to serve in China many years. The work, as it grows, must move and more, be carried on by the young Chinese of China, who has the traditions and characteristics—the result of centuries of training. His mind grasps situations that we foreigners will never understand.

We need your prayers that we may have grace and strength to project ourselves into every avenue of need.

THE MASHER MUST GO, SAY MONTREAL POLICE

During the last week more than forty men any boys have been arrested for malingering women in the public parks and in the street in Montreal. This type of public nuisance appears to be growing bolder daily and more obnoxious in their actions. Things have reached a stage where the womanhood of the city cannot venture upon the streets without being followed and insulted by the detestable masher.

Chief Campeau has been cognizant of these conditions for some time, and is determined to end such occurrences. With the arrest of twenty-eight men and boys in Lafontaine Park last Thursday, for annoying women, he started a campaign against the masher which he will continue until Montreal's streets become more orderly. Lafontaine Park is a favorite loitering place for the masher on account of its size. Other arrests are being made daily in different parts of the city. Chief Campeau said that the police will keep up their work all summer in cleaning the parks and streets of these pests.

Nearly every person who notices these malingering-dressed men and youths who stand at street corners ogling passersby. The police receive complaints every day from women who have been insulted by these "aports." They leer at young girls and in some instances have had the audacity to follow them to their homes. Their actions have frightened timid women from the parks and public thoroughfares.

LOTTIE GILSON IS DEAD

Lottie Gilson, one of the most prominent of oldtime variety actors, died in New York this week. For many years she was one of the greatest favorites that New York ever knew. She was a star from the start. She appeared at nearly all of the larger theatres in New York and travelled extensively. It was she who aided much in making the Tony Pastor Theatre in New York famous.

Mrs. Gilson was born in Switzerland.

MONTREAL HAS IT, TOO.

Montreal Gazette:—The management of a theatre in St. John, N. B., has requested its patrons to remain seated until the curtain falls and the band begins to play "God Save the King." It is an old fault of Canadian audiences that is being complained of. What ails the theatre-goers? It cannot be a desire to get to the bars before they close, for the fault was noticed when the closing hour was midnight—and later. And the men are not the only disturbers.
