

### PIRATES ARE THE CHAMPIONS

#### TIGERS SHUT OUT IN FINAL MATCH

Pittsburg Nationals Score Eight Runs—Adams Wins His Third Game.

Detroit, Oct. 16.—The Pittsburg Pirates are the champion baseball team of the world.

By shutting out the Detroit Tigers in the decisive game in the most closely contested world's series on record by a score of eight to nothing, the Pirates upheld the supremacy of the National League.

It was a cold day for Detroit in more than one sense. It was the saddest day of "Wild Bill" Donovan's life. He had been put in by Manager Jennings as the twirler of the deciding game for Detroit, but he let six men walk and struck Byrne with a pitched ball, and in general went to pieces.

The hero of this great series of championship baseball is "Babe" Adams, the new recruit in the big league, who actually pitched Pittsburg to victory in three of the four games which the Pirates won.

The game was played under bad conditions, snow falling part of the time. This made it hard for the men to keep up to their mark, but there could be no excuses offered for the shut out which was administered to the Tigers.

Pittsburg—Wilson popped to Miller. Bush followed to Wagner. Cobb fled to Clarke. No runs, no hits, no errors.

Pittsburg—Wilson popped to O'Leary. Gibson singled to short. Adams sacrificed to T. Jones. Adams sacrificed to Schmidt. No runs, one hit, no errors.

Pittsburg—Wilson popped to O'Leary. Gibson singled to short. Adams sacrificed to T. Jones. Adams sacrificed to Schmidt. No runs, one hit, no errors.

Pittsburg—Wilson popped to O'Leary. Gibson singled to short. Adams sacrificed to T. Jones. Adams sacrificed to Schmidt. No runs, one hit, no errors.

Pittsburg—Wilson popped to O'Leary. Gibson singled to short. Adams sacrificed to T. Jones. Adams sacrificed to Schmidt. No runs, one hit, no errors.

Pittsburg—Wilson popped to O'Leary. Gibson singled to short. Adams sacrificed to T. Jones. Adams sacrificed to Schmidt. No runs, one hit, no errors.

### DEEP BASIN IN UPPER HARBOR

#### PLENTY OF ROOM FOR LARGE SHIPS

Mudlark Has Removed 140,000 Cubic Yards During Present Year.

A large deep water basin has been excavated in the upper harbor 300 feet long by 250 feet wide, part of which has a depth of 25 feet and the rest 20 feet at low water.

From the above it will easily be seen that the Dominion government is making Victoria a first class port. The work is often not thoroughly appreciated but it is there, and the thinking part of the community realize what it means.

Dredge Mudlark at work in Upper Harbor.

There is always a difficulty in the fact that the tender Princess is unable to take away the mud as fast as it is dug out. It would not pay, however, to put on a second tug so the best possible work under the circumstances is done.

The work will be continued until the whole harbor out to Turpel's ways on one side and the wharves of the Victoria Machinery Depot on the other have been scooped out to a depth of 30 feet.

Dredge Mudlark, with tender Princess towing away scow of mud.

When one more section has been taken of the north side of the basin there will be a depth of 20 feet at the end of the slip of the Victoria Machinery Depot. Already vessels are able to come up there at almost any stage of the tide which formerly found it difficult to proceed even at high tide.

Between the basin above mentioned and the part of the harbor where the ferry steamers dock, there is a passage giving fourteen feet at low water. With a nine foot tide this allows a depth of 23 feet at high water and as soon as the basin is completed this passage will also be deepened to make it 20 feet at low water all the way.

The Mudlark was built about twenty years ago for R. P. Ribbet & Co. of this city, at the time the outer dock

### BRITISH WARSHIPS AT SAN FRANCISCO

#### The Algerine and Shearwater Arrive at the Bay City.

(Times Leased Wire.) San Francisco, Cal., Oct. 16.—The British ship-of-war, the Algerine, passed through the Golden Gate to-day, making the second of the English war vessels to arrive at San Francisco to represent the British nation at the Toia festival, which opens October 19th.

Shortly after midnight, H.M.S. Shearwater slipped into the harbor, after cruising from the North. She was accompanied by the Algerine. The last English war vessel, the cruiser Bedford, is expected to arrive here tomorrow. An aerogram received early to-day stated that the ship is 100 miles off this port.

The last finishing touches for the festival are being put on the streets to-day and by Tuesday evening will be complete for the welcoming of the Gasper de Portola, the discoverer of San Francisco bay, who will sail through the Golden Gate on an old Spanish galleon. After reviewing the fleet of foreign and American warships in the harbor, he will land at the Mission street wharf, where tens of thousands of San Franciscans will wait to welcome him to the rebuilt city.

### FISHING OPERATIONS ABOUT TO COMMENCE

#### Trawler Kingsway Leaves for Paocoi on Monday Next.

(From Saturday's Daily.) Fishing operations are about to commence by the Pacific Coast Fisheries at their station at Paocoi, Queen Charlotte Islands. The cold storage plant will not be ready for operation until December next, but the ology and guano works are ready and will commence as soon as the steam trawler Kingsway takes her first consignment of fish to the station.

The calling of such a convention has been before our minds and under our consideration for nearly four years. The time has now come when this important step should be no longer delayed, and I am glad to announce that during the year 1910 we expect to hold a great convention of the Liberal-Conservative party of Canada, thoroughly representative not only of every province but of every important district within each province.

The new tug Cheminus, being built for the Victoria Lumber & Mfg. Co., will be ready to launch at the last of the month. The engines and boilers are expected to arrive in Victoria by Blue Funnel line steamer early in November.

The Scheidt Steamship Company has withdrawn the steamer Tartar from the run from Vancouver to Ladysmith and Cheminus, but is continuing a freight service, three trips per week, with the steamer New Era.

### COMMONWEALTH TO TAKE OVER TERRITORY

#### Bill Passes Its Second Reading in Federal House.

Melbourne, Oct. 16.—In the federal house of representatives the bill providing for taking over of the northern territory by the Commonwealth was read a second time. Premier Deakin said that if Australians sat down and confessed their incapacity to cope with quiet half of Australia, how could they on broad human lines resist the proposal that some other nation should settle and develop that territory?

### CANADIAN BANK CLEARINGS.

New York, Oct. 16.—Bradstreet's weekly bank clearings: Montreal, \$4,024,000, increase 63 per cent.; Winnipeg, \$2,325,000, increase 38 per cent.; Ottawa, \$3,840,000, increase 13.7 per cent.; Halifax, \$1,855,000, increase 6.8 per cent.; St. John, N. B., \$1,394,000, decrease 6.8 per cent.; London, Ont., \$1,172,000, increase 14.7 per cent.; Edmonton, \$1,152,000, increase 16.3 per cent.; Toronto, \$3,391,000, increase 26.8 per cent.; Vancouver, \$7,457,000, increase 83.1 per cent.; Quebec, \$2,288,000, increase 5.5 per cent.; Hamilton, \$1,812,000, increase 17.5 per cent.; Calgary, \$3,175,000, increase 51.7 per cent.; Victoria, \$1,382,000, increase 31.4 per cent.

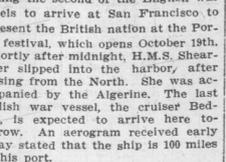

### PASSENGERS LANDED.

Toronto, Ont., Oct. 16.—The Canadian Pacific steamer Athabasca is still on the rocks at Flaming, Pat Island. Fifty men are lightering her so she can be released. They failed to-day to move her. All passengers' effects will follow them to their homes.

### HER DEATH WAS HOURLY EXPECTED

#### Captain Denies Allegation and Will Demand Enquiry.

(Enterprise, Ont., Oct. 1st, 1908.) "For seven years I suffered with what physicians called a 'Water Tumor.' I could neither sit, stand, nor lie down. Hypodermics of morphine had to be given me to ease the pain.

MRS. JAMES FENWICK.

My cure seemed hopeless, and my friends hourly expected my death. I was so bad that I wanted to die, and it was during one of these very bad spells that a family friend brought a box of "Fruit-a-tives" to the house. After much persuasion I commenced to take them, but I was so bad that it was only when I had taken nearly two boxes that I commenced to experience relief.

"I might also say that we do not intend to let this matter stand but will fight it right to the end. "There were present at last night's meeting of the union the president, Dan O'Sullivan, the secretary, A. J. Bruce, and our representative, A. Montford. I do not think their action will stand as the three did not form a quorum. Our representative was over-ruled by the two others and we will certainly have it reopened and a full inquiry made.

### GOLIAH AND BARGE WENT ASHORE

#### Egeria Helped Tug Off, But Tow Still on Reef.

Tug Goliah, with barge Quatsino in tow, went ashore early Friday morning on Green Island. H. M. S. Egeria went to the rescue and towed the tug off, but the barge was left ashore. The tug is on her way south.

### RICART DE SOLER DUE NEXT MONTH

#### Will Load Lumber at Chemainus—New Tug Almost Completed.

Cheminus, Oct. 15.—The Ricart de Soler, chartered to load at the mills here, was delayed on the west coast of South America, and will not arrive until early in November, having sailed from Iquique on August 28th.

### ESTIMATE OF THE WESTERN GRAIN CROP

#### C. P. R. Agent Acheson Believes Yield Has Been Under Estimated.

Winnipeg, Oct. 15.—General Grain Agent Acheson, of the C. P. R., put the final polish to western optimism yesterday morning. If there is one man who knows the grain situation it is he, and his knowledge is based on accurate reports furnished by men all over the western grain fields.

### ATTEMPTED MURDER.

Skagway, via Seattle, Oct. 16.—Enraged with jealous passion, inflamed with drink, Henry H. Boardman entered the lobby of the Fifth Avenue hotel last night, walked up to Reginald Stewart, placed a revolver against his neck and fired. Boardman then ran outside and attempted to commit suicide. Boardman will probably live, but lose the sight of both eyes. Stewart is partially paralyzed but will recover.

—An Orange Lodge was organized at Duncan on Friday evening by J. W. Whiteley, provincial organizer. Following is a list of the officers elected for the ensuing term: W.M., W. J. Hagan; D.M., R. H. Whidden; Chap., Rev. F. G. Christmas; Sec., J. Somerville; Treas., Jas. Murchie; D. of Cer., H. F. Armstrong; Lect., Jos. Mottislaw.

### SOCCER LEAGUE TROUBLE AHEAD

#### DUFFY DISQUALIFIED AS PROFESSIONAL

Captain Denies Allegation and Will Demand Enquiry.

Onwing to the ruling of the local branch of the B. C. A. A. U. at a meeting held on Friday the match between the Victoria West and James Bay soccer teams played last Saturday and won by the Victoria West, will not count, as the union has found that the Victoria West club played Samuel Duffy, who has professional standing. The union has disqualified Duffy from playing again this season either for or against a Victoria club. The football union will be asked for a ruling as to the distribution of points over the match. The union officials are doubtful that Duffy will forfeit his points, but they have some doubt as to the right of the Bays to receive either one or two points on the game.

It is contended that Duffy has never been re-instated as an amateur, after having appeared in the boxing ring with professionals. The union passed a resolution reprimanding the secretary and president of the club for the breach. Stanley Okell, captain of the Victoria West soccer team, this morning said in reference to the action taken last night: "I have been captain of the Victoria West team since its inception four years ago, and during that time we have been a strictly amateur organization, not one cent has ever been paid to any player for his services. The statement that Duffy received payment for his services last Saturday is incorrect. He received nothing."

### GARRISON LOSES STAR PLAYER AND CAPTAIN

#### Corporal Thomas, Captain of Soccer and Cricket Teams, Goes Home.

Corporal Thomas the star forward on the ranks of the Garrison soccer team, of which aggregation he has been captain for two years, a like position he has also occupied on the Garrison cricket team, will leave for England in a few days time, having purchased his discharge from the ranks of the Royal Garrison Artillery.

One of the best known and one of the best liked athletes in Victoria, his departure is regretted by all his team mates who have played under his captaincy and by the members of the league club who have played against him, for every player was sure of a fair and square game against "Tommy."

"Tommy" has been a tower of strength to the cricket team and also to the soccer team of the Garrison club. He has played consistently in the ranks of each and was also a prominent figure in the Victoria team playing against the Islanders and mainlanders in the Pacific Coast soccer league last winter.

"An agreed-upon arrangement with the way Company a line from connection of the Can River Valley subsidy program for the old M.C. of \$5,000 per apply to will entail which would charge of the company a 150 miles of the interest this relative will secure miles of road through F where the will make a purpose until it of Princeton, ward to N. ### IMPROVING VICTORIA HARBOR.

#### There is always a difficulty in the fact that the tender Princess is unable to take away the mud as fast as it is dug out.

It would not pay, however, to put on a second tug so the best possible work under the circumstances is done. In making the basin only one rock was found, and that was in the neighborhood of Turpel's ways. It has over a depth of 19 feet of water at low tide, so that it is no menace to shipping.

The work will be continued until the whole harbor out to Turpel's ways on one side and the wharves of the Victoria Machinery Depot on the other have been scooped out to a depth of 30 feet. In order to do this it will be necessary to move some of the sealing schooners, which have been lying in the harbor so long. A new anchorage will have to be found for them, and then large ships will be able to tie up at any part of the wharves of the machinery depot.

The work in the neighborhood of Sayward's mills has already been almost completed. There is now room for four vessels to tie at the wharf for loading either head or stern on. In

the present government has made the pretence at least of adopting many of its provisions either in whole or in part. As the leader of the party in federal affairs I laid down the programme upon my own initiative after consultation with my many friends throughout Canada, and in default of its formulation by representative convention.

The calling of such a convention has been before our minds and under our consideration for nearly four years. The time has now come when this important step should be no longer delayed, and I am glad to announce that during the year 1910 we expect to hold a great convention of the Liberal-Conservative party of Canada, thoroughly representative not only of every province but of every important district within each province.

The new tug Cheminus, being built for the Victoria Lumber & Mfg. Co., will be ready to launch at the last of the month. The engines and boilers are expected to arrive in Victoria by Blue Funnel line steamer early in November.
