### THE MARKETS.

Revised Every Monday for the Weekly Sun.

COUNTRY MARKET. There is a slight advance in prices of poultry. Potatoes and carrots have advanced a little. Pork is a shade firmer. The rest of the list is generally without change this week. The close of navigation should give a firmer tendency to produce prices.

LUMBER AND LIME. Quotations are nominal and business is quiet. There is a scarcity of tonnage at the present time. There is still a considerable quantity of deals to go forward to British ports and a steamer and number of square rigged vessels are shortly due to take cargo. Opinions differ widely as to the extent of the winter's lumber cut, but it will doubtless be not less than a good average, taking the whole province. There is a feeling that the coastwise trade will open up briskly in the spring, when building contracts for the season have been made U. S. cities. The British lumber
