Nothing Short of Annexation of Crete Will Satisfy Greece.

Little Hope Now Expressed for Prevention of a Conflict.

The Eyes of All Europe are Turned to Thessaly, Where Troops are Assembling.

London, March 30.-The eyes of all Europe are anxiously turned toward Thessaly, where the Greek and Turkish armies are assembling and littile, if any, hope is expressed that a conflict between the two armies can be averted by the powers.

A despatch to the Times from its correspondent in Larissa, the headquarters of the Greek army in Thessaly, says: "The Greek army is now so large that it is absolute arbiter of the situation. I am very much struck by the independence and impatient emper of the troops. They seem only prepared to accept orders to execute the extreme Hellenic programme. The peasantry also is armed as irregulars. Even the school boys there are being armed with rifles, bayonets and ammunition. It ds no uncommon sight to see lads of thirteen or fourteen years fully equipped. If the Island of Crete were now

conceded to Greece it is evident the soldiery will demand an extension of ntinental boundaries over Greece. No permanent peace is otherwise possible in this region. If Europe forces Greece to recall her army from Thessaly a large part of it will become insurgents. It will continue an independent guerilla warand practice brigandage on the frontiers. External peace will be paid for by the internal anarchy and the state of Thessaly may relapse into conditions like those of 1878, or worse. Ten thousand Greeks have been stafoned at the east end of the frontier, with their base at Rapsani on the hillside north of the vale of Tempe. From this point they are watchi

the Turkish positions from Plata-mona to Elassona. The vale of Territory ssona. The vale of Tempe itself is not fortified, as the Greek line is drawn from ten to twenty miles further north. Indeed, the Greek force has no fortified lines in Thessaly. The Greeks seem to consider themselves only in the light of an invading force and not as a force occupying a territory likely to be invaded. As a result of this they could not stop a very numerous army anywhere north of

merous army anywhere north of Thermopylae. They are relying far too little upon material differences.

The Turks hold the coast road with a strong force from their base at Katrina. The Greek commissariat corps is slender, thought the Greek officers have all along insisted that the Turks themselves are miserably supplied in this particular and that there is much insubordination in the Turks themselves are miserably supplied in this particular and that there is much insubordination in the Turks. ish ranks. But it is very rare indeed to find anyone taking a reasonable view of the real strength of the Turks or of the character of the coming

The Times correspondent at Rome says that the view entertained in Italian official circles as to the outcome of the Greco-Cretan affair is passimistic in the extreme. Little, if any, hope is expressed that a conflict between the Greeks and Turks. passimistic in the extreme. Little, if any, hope is expressed that a con-flict between the Greeks and Turks can be averted by the powers.

An Associated Press despatch from Athens says: "All the best judges of

popular feeling here agree that the determination of the Greek people to accept no solution of the Cretan difficulty, but the annexation of Crefe, is creasing steadily. The cry is for surrender. The opposition newspers denounce the government for towing a disposition to abate the nasnowing a disposition to abate the national pretensions and they characterize any tendency to compromise as high treason. All feeling of despondency has vanished, and the multitude is eager for hostilities to begin."

The Daily Chronicle's Athens correspondent Heart Norman and the

respondent, Henry Norman, says that that Emperor William has offered the Sultan the services of General Von Goltz and other officers if the government desires to avail itself of them in the difficulty with Greece. The special correspondent of the

Times at Salonika says today that verything there indicates that the situation is becoming more and more critical. Fifty thousand men are now encamped around Elassons, and there are 300 Krupp guns between Elassons. and Arta.

MONCTON.

Commissioner Wilson Still Looking for Intercolonial Heads.

It is Said Scott Act Violators Will Hereafter go to Jail-The Jubilee Celebration.

Moncton, March 29.—M. G. Teed, Q. C., made application to Judge Hanington, in chambers at Dorchester, on Saturday, for an order specifying what should be printed and form the case on appeal to the supreme court in the equity suits of F. H. Smith, trustee, etc., v. the Consolidated Electric Co., Ltd., et al, and Nathan D. Pratt et al v. Consolidated Electric Co., Ltd., and several other suits in connection with the same matter. L. P. D. Tilley of St. John appeared for the Imperial Trusts Co.

Rev. W. W. Brewer, pastor of the Central Methodist church, who has been in indifferent health for some time, is still rather poorly. Rev. Mr. Ross occupied his pulpit last evening. Rev. A. W. Nicolson, M. A., of New Glasgow, formerly editor of the Wesleyan, occupied the pulpit of Wesley Memorial yesterday, Pastor Crisp taking a country appointment. Rev. Mr. Nicolson's efforts were greatly appreciated.

Commissioner Wilson has been pretty steadily in Moncton for the past three or four weeks, and is still ostensibly enquiring into charges of offensive partizanship against I. C. R. officials. Mr. Pottinger, Mr. Archibald and nearly all other heads and many of the minor officials have been before him. Mr. Wilson has a stenographer employed, and the business must be rather expensive to the country as well as degrading to the service.

Stipendiary Magistrate Wortman, who has

been confined to his bed for about ten days with a complication of diseases, is now rapidly recovering. Justice Wortman is past four score years, but is remarkably active both mentally and physically for his years, and his many friends hope to see his familiar face about town again in a few days. Scott act cases are still being pushed vigorously, coming before Sitting Magistrate Grant while Stipendiary Wortman is ill. The Brunswick paid a first offence fine this morning, and Thos. Forbes, barkeeper for D. Hogan, was convicted of second offence and yesterday was fined \$100, in default sixty days in jail. The Queen hotel was up this morning, but the case was adjourned. There are several other cases pending. It is said to be the policy of the liquor dealers to have those convicted go to jail in future, as it is cheaper than paying fines. Several places have been leased to parties in St. John, and instead of acknowledging, the dealers will now, it is said, fight every inch of the ground.

The committee appointed to prepare for a demonstration on jubilee day will ask the city council for \$1,000. The committee on a permanent memorial will recommend the purchase of two squares, one 400 by 425, the other somewhat smaller, which can be had for \$11,500, the owners agreeing to take in payment 4 per cent. bonds at par. The various matters in this connection have yet to be passed upon by the city council and the adjourned citizens' meeting, but there is a general feeling of celebrating the event in a fitting matter.

THE SCHOOL SETTLEMENT.

Mgr. del Val Comes to Canada at Request of Liberal Senators and Members.

He Does Not Approve of the Greenway-Laurier Agreement-Some Important Statements.

Ottawa, March 29. Senator Landry, who has just returned from Rome, reached Ottawa today. He crossed the Atlantic with Mgr. Merry del Val, and consequently knows something about the mission of the papal delegate. He says forty-five liberal senators and members of parliament, in-cluding five members of the government, petitioned his holiness to send a delegate to Canada to assist in the settlement of the school quesiton, and it is in response to this request that Mgr. Merry del Val had been sent out. The mission of the ablegate had nothing whatever to do with the conduct of the bishops. It was the opinion in Rome and in Catholic circles in England that Laurier and his government had denied to render justice to the minority in Manitoba, and Mgr. Merry del Val's mission was to assist in this. There is a general impression in Europe that the petition contained a pledge to conform to a decision of Rome on this question.

How is the school settlement regarded at Rome? Senator Landy was It is not regarded as acceptable, he replied, as it is based on a system condemned by the holy father. It is

for that reason that the pope wishes to see the settlement conform more to the Catholic views on education. Continuing, he said the action of the bishops was heartly approved at Rome. The best proof of this was seen in the fact that the Sacred Concongregation had delegated the school question to the papal secretary the Canadian bishops in refusing to accept the Laurier-Greenway settleators and members, who had nearly all given formal pledges before the elections, had led the papel authorities to believe that a delegate would assist in the settlement of this question and that in default of an agree-

mon and that in default of an agree-ment acceptible to the Catholics they had to fulfil those pledges; more-over, they expressed themselves as not opposed to the mandamant. Montreal, March 29.—It is officially learned that the papal delegate who arrived yesterday in New York will come straight here from New York, arriving tomorrow afternoon at two come straight here from New York, arriving tomorrow afternoon at two. He will be met by the ecclesiastical authorities and tendered a reception Archbishop (Langevin arrived here last night to await the coming of the papal ablegate. He is accompanied by Fathers La Combe and Le Duc, and is staying at the archbishop's and is staying at the archbishop'

New York, March 29.-The Evening Post publishes an interview with Mon-signor del Val, the ablegate to Can-ada, in part as follows:

ada, in part as follows:

"I shall remain in Canada probably until mext June. My mission is one of peace. That is what I wish especially to achieve, though it is, of course, impossible at this time to say just how it is to be brought about. I am, of course, aware of the action already taken by the Manitoba legislature. I regret, however, that any such action has been taken."

"Was the action of the bishops in refusing sacraments to communicants who voted contrary to the priests' instructions supported at Rome?"

Mgr. del Val—"I would rather not tak about the conduct of the bishops?"

"If it was shown that such had been their conduct, would Rome up-hold them?"

Mgr. del Val—"If the bishops with-held the sacraments they must have had good reason. It is a question of conscience. I cannot speak about the attitude of Rome. I do not know the circumstances. I cannot judge about the conditions. I am not in a position

the conditions. I am not in a position to discuss the subject."

"Mgr. Satolli is reported to have said that the parents sending their children to public schools, though providing adequately for their religious instruction, would not incur the displeasure of the church; is that view still held at Rome?"

Mgr. del Val—"It is; that is right."
