UNION BLEND TEA PRIZE

I beg to thank my many friends for their support during the last year. Many thousands boys and girls have been rewarded five dollars [\$5.00] for collecting and returning the complete alphabet taken from Union Blend Tea packets.

The success which this mode of advertising has met with has decided me to continue the same method indefinitely, and I hope to distribute ten thousand dollars [\$10,000] this way next year.

You May Need It

Ask your doctor about the wisdom of your keeping Ayer's Cherry Pectoral in the house, ready for colds, coughs, croup, bronchitis. If he says it's all right, then get a bottle of it at once. Why not show a little foresight in such matters? Early treatment, early cure.

Many a boy is called dull and stupid, when the whole trouble is due to a lazy liver. We firmly believe your own doctor will tell you that an occasional dose of Ayer's Pills will do such boys a great deal of good. They keep the liver active.

New Brunswick's Progress.

The St. John Sun is receiving many well-deserved compliments on the excellence of its New Year edition which it gave a very complete and instructive review of the business and industrial operations of the sister Province in 1907.

In addition to its annual reports on the progress of the towns and cities of the Province, reviews of the lumbering, fishing and agricultural industries, it printed a number of timely special articles dealing with the public schools, the need of industrial education, the work of the University of New Brunswick and trade with the West Indies which is now a question of live interest for Canadians.

Premier Robinson contributed exceedingly interesting survey of the events of the year which was one of awakening in New Brunswick.

It was the banner year in the great lumbering industry, and as a result the territorial receipts of the Province have been in excess of \$320,000, as compared with \$132,000 in 1896.

In short the sixteen pages of the Sun tell a pleasing story of progress in the old year and promise of large development in all the great basic industries of the Province in the near future.

The Sun is doing invaluable service for New Brunswick in giving publicity to its achievements and pointing the way to larger success.
