After the meeting President Mitchell was driven through cheering crowds to his hotel, where he will remain until 8 o'clock tomorrow morning when he will return to Hazleton.

President Mitchell's address, so far as outlining any future move on the part of the laborers is concerned, was a disappointment. He intimated strongly last night that he would define the position of the union today on the ten per cent concession. His failure to do so has caused the impression to go out that he is still undecided what should be done.
