Ottawa Session May Soon Adjourn

HODGINS CHARGES REPORT

MINORITY OF COMMISSION DE-CLARE THAT MANY MATTERS ARE EVIDENTLY WORTHY OF A BETTER INVESTIGATION-PRE-EMPTION BILL.

(Special to The Daily News.) OTTAWA, June 26.-In the house of commons today in committee on the dominion lands bill, there was much discussion over the preemption clauses.

M. S. McCarthy, Calgary, thought that the settler, next the school, or the Hudson's Bay Land company should have the choice of preemption, limited.

Hon. Frank Oliver saw the difficulty,

but not the remedy.

Jno. Herron, Alberta, proposed to extend the permitted distance for homesteads; this was fixed at nine miles. S. J. Jackson, Selkirk, wished the preemption extended, saying that there was much in northwestern Manitoba and east of lake Manitoba, where a half section was as necessary as in the dry Herron also supported an extension,

wishing the western boundary moved factuer than the twenty-first range, as stated in the bill.

Hon. Mr. Oliver explained that last

vear's bill was in accordance with Jackson's view. This year it was thought better to include only that section about which there was no doubt. He was desirous of having the bill accepted. If not endorsed in its present shape, per-haps later, when the experiment had been tried, the area could be extended. Dr. Roche, Marquette, wanted Mani-toba's share of Keewatin included. Referring to Jackson's remark that only speculators had opposed the wider scope of last year's bil, Roche said he did not know if Greenway was a speculator or not, but he had opposed pre-J. T. Burrows, Dauphin, followed in

ent with Jackson. agreement with Jackson.

The minister proposed leaving the matter over for future discussion, and again signmed his whimpness to include the area between lakes Manitoba and Winnipeg and Winnepegosis and Saskat.hewan in the preemption area.

Hon G. E. Foster criticized the gov-

Hon. G. E. Foster criticized the gov ernment for not funding the receipts from preemption. The money would be spent in ordinary expenditure and the government would need to borrow to construct the Hudson's Bay railway.

Hon. Frank Oliver saw no difference as long as the money was forthcoming, the objection was a mere matter of

cokkeeping.
In connection with the clause rere school lands, M. S. McCarthy urged e transfer of school lands in the west Hon. Frank Oliver replied that it was

question of general policy and had not been considered in redrafting the bill. McCarthy's plea met with strong support from R. L. Borden, G. W. Fowler and R. S. Lake but Mr. Oliver refused to drawn further.
On the liberal side, S. J. Jackson, Sel-

kirk, declared in favor of the transfer The majority reports of the parliamentary committee which enquired into the major Hodgins' charges was laid on the table of the house this morning by Vic-tor Geoffrin, chairman of the committee, and signed also by E. M. McDonald and R. Carvell, the other liberal members of the committee. S. Barker and Hough-

The majority report first reviews the charges brought by major Hodgins and the course of the enquiry and shows how Hodgirs withdrew from his original position and frankly admitted that the only question left was whether his views of interpretation of the specifi-cations were correct or not. The repor states that he then withdrew any imputation he may have made upon the com missioners in regard to improper inter ference with the engineers or that he had personally asked sir Wilfrid for an investigation which had been refused or that Hon. Mr. Parent had in any way attempted to influence sir Wilfrid. The eport points out that since the charges have been withdrawn the question of c'assifications was a technical one which major Hodgins did not wish to present to the committee, claiming that a board of arbitration was the proper tribunal whether or not there was issu n th's matter. The enquiry could not continued in the public interest and the case was brought to a close. Summing up, the report says: "Your committee therefore find that major Hodg ins has not only failed to prove the charges as contained in the Colonist, has specifically withdrawn the same and has unqualifiedly exonerated the com-missioners and their engineers of im-proper conduct, or undue influence over officials under them, or of collusion with contractors and has added that if ques

perflous trip and reached the dock at Lewistown without difficulty. tions as to classification arise, they should be decided by the tribunal previously provided by the statutes."

The minority report of the Hodgins com nittee, after reviewing the proceedings, sars: "As shown by the papers and documents produced by the commissioners, many charges of over-classifica-

ors of a like description to those charge ed by major Hodgins, have formally been made by, and on behalf of the Grand Trunk Pacific company, which the charges involve, and are examples of enormous over-payments out of public funds and are of serious concern to this

"They cover and include charges, not made by major Hodgins, but other spe-cific and more serious complaints of a like nature and description and not merely for the period dealt with by ma-jor Hodgins, but with a continuance up to the time of the order of reference to your committee. Such complaints charged are within the scope of the order under which your committee have been conducting this enquiry and should be investigated by them."

In the senate today in answer to sin MacKenzie Bowell, Hon. W. R. Scott said it was premature to discuss to bill that might not become law. The Frenche senate has not ratified the Fran co-Canadian treaty yet. Referring to a direct question, Hon. Mr. Scott said he believed the imperial authorities had received representations from Germany, but he was not in a position to outline the Canadian action, if any. German the Canadian action, if any. German trade was afflicted not only with a general tariff but a surtax also, which, however, they could get rid of by restoring Canada to the position occupied before. They quarrelled with Canada for giving Great Britain a preference.

In committee on the Gold and Silver Marks Act, Hon. R. W. Scott offered an amendment to admit goods bearing Hall marks of Great Eritain and other countries. The object of the bill was

countries. The object of the bill was to shut out cheap and fraudulent Ameri-can goods. The bill was read a third In the Common's bill amending the

Barking Act, senator Ferguson quoted retu ns on finance to show that certain banks had availed themselves of the permission to issue notes to the extent of \$6,000,000. However, the returns did n't show that there had been an in-crease of circulation, but that the government gold reserve had been reduced by the banks to that extent Sir Richard Cartwright explained that the gold held by the government, to a

considerable extent, was owned by the banks and subject to their call. In this case the banks had simply taken the gold and with it purchased notes of common banks for the emergency issue au-thorized by the government. The bill was given a third reading, as was also a b'l respecting the court of appeal. The senate then adjourned till Thurs-

OTTAWA, June 26 .- A peaceful, hardworking day was spent in the house in committee on Mr. Oliver's bill of big proportions to consolidate and amend the acts respecting the public lands of the and evening, sittings, the bill held the right-of-way and progress was made by the litle band of conscientious members who are sticking to the chamber in spite of the midsummer heat. Seventy-five clauses were considered before the house adjourned at 11.45 p. m. Mr. Oliver gave notice that he would move an amendment when the bill next came up, roviding for an extension of the pre emption area westward. Today's discus sion centered round the pre-emption and the purchase of homestead clauses and after the whole matter had been thoroughly threshed out they were held over in order that the proposal to extend the area outlined in the bill may be con-

The chief topic of conversation in the lobbies tonight surrounds the Ayles-worth election bill and what will happen on Monday when the measure again makes its bow in the house. Sir Wilfrid's statement is being eagerly anticipated and it is confidently expected that the premier will make it plain in his opening sentences that after being put through the mangle of compromise the bill will be so straightened out that little cent to their capacity. This

The end of the week finds the house making strenuous efforts to write the word "finis" to the end of a rapidly dying session. There will be a few kicks left in it but the session is now practically a corpse. The functal ceremones should take place within three weeks.

Quarter Million Spent at the **Granby Mines**

EXPECTED COPPER DEMAND

VILL NOT BE DELAYED BEYOND END OF YEAR-GRANBY GET-TING READY FOR THE UPWARD JUMP IN PRICES ON A MARKET WHICH IS SHORT.

'What are we doing," repeated A. B What are we doing, repeated A. B.
W. Hodges, general manager of the
Granby mines yesterday, listening to a
query propounded by a Daily News man.
"Well, I'll tell you what we are doing.
We are spending a quarter million of
dollars this year during the slack time in order to be ready for the jump in copper which assuredly will not be de-layed after the end of the year. Before that time I do not expect to see much of a rise. It has been predicted in my hearing that copper would rise to 14 cents before the middle of July. I don't hink that is at all likely. It will more probably remain around its present price of 12½ cents or a trifle better. The summer is the slack time of the year and there is seldom much movement in prices. Moreover then will come the turmoil of the presidental elections in the States which will not be conducive to an upward move. But after that is all over there will be a big difference. The financial stress will all be forgotter and the industrial demand for copper will be seen to be greater than ever When the demand comes it will be found that the Granby is in complete prepared-

ess.
"How are we spending the money? Well, in the beginning of the year we started by building a new steel flue on stilts further away from the furnaces. This was necessary in order to enlarge them. Some time ago we brought the length of these furnaces up to 18½ feet and in so doing brought the end close up against the air pipes which supplied te tuyeres. Now those air pipes could not be moved because on the other side was the old brick flue. Hence we had to build a new flue and connect the jur-naces with it. That has been done with six of the furnaces. The other two will now have to be connected and before we are through with that job it will be about the end of July. In the month of August we will be engaged in tearing out the old fine and putting in the air pipes in the space which it occupied so as to be in readiness for this enlarge-ment. For the past few months we have never had more than seven furnaces working. Some times the number has been down to six and once, a few weeks ago, when we were threatened with a shortage of coke from Michel, I was afraid we would be reduced down to four. Happily that was averted. Still the output of the smelter has been brought down as low as 16,000 tons whereas the capacity of the eight furnaces of the battery is more like 25,000 tons a week, or a monthly output of 102,000 to 110,000 tons. At the end of the month of July we will have all our battery connected up with the new flue and during the month of August we ought to be able to treat over 100,000 tons of

ore.
"But we will then be in a position. about the beginning of September, to enlarge each one of the furnaces up to 22½ feet, which will add nearly 25 per clause which deals with the ballot is to go under the fiail of criticism in committee. work has already been ordered. So, you see, by about the beginning of December we shall be in a position to treat from 126,000 to 130,000 odd monthly.
"Of course this does not mean the en-

larging of the furnaces only. For the enlarging of the furnaces means more air and that means more blowers and more accommodation for the blowers It means the handling of more matte and the enlarging of the converter plant. All this in turn means the handling of more machinery, which necessitates the en-largement and improvement of our ma-chinery shops. At this we have already started and the old building is being replaced by a steel and brick structure, which is being built above and around it.

"Naturally while all this is going or the smelter cannot be producing at the limit of its capacity. We shall certainly be doing so during August but it will be nearer Christmas when we are doing so again. But the capacity for 1909 will be well over 1,300,000 tons and there will then be the market for that enormous product and at prices which will make the Boundary hum again."

BOUNDARY BEAR STORY

SEVEN FURNACES AT WORK IN GRANBY SMELTER

NOMINATIONS FOR VACANCY IN SCHOOL BOARD

(Special to The Daily News.) GRAND FORKS, June 26.—N. Campbell, who a short time ago purchased the blacksmith business of M. R. Feeney In this city, this week also bought Mr. Feeny's residence on Cambridge street. The price paid is said to have been

L. P. Eckstein, who some few years

the Kettle Valley Lines in this city, but who is now located at Fernie, was a visitor in the city yesterday renewing old acquaintances. He was accompanied by Mrs. Eckstein and daughter.

A good bear story comes from the At-wood ranch a few miles east of the city, and is vouched for. A. Mr. Hickman, who is employed by Mr. Atwood on his Vancouver Bonds Sell for who is employed by Mr. Atwood on his ranch, heard some rocks coming down one of the hills and after supper proceeded to investigate the cause of it. Taking his 22 rifle along with him he started up the hill and after climbing some distance glanced up to see a large cinnamon bear about twenty-five feet away from him gradually coming towards him. He immediately climbed a small tree which was near at hand, and had the presence of mind to take his rifle in his teeth while making the ascent. Mrs. Bear kept right on coming, but fortunately for Mr. Hickman, the tree was too small for her to climb. He took one shot at the bear which went home, the bear falling over dead, being hit in the head. Mr. Hickman, thinking that there must be some cubs near to make the bear so ferocious, started a Big Discount

MANY DISTINGUISHED CITIZENS WERE IN ATTENDANCE

The ladies of the Maccabees last night gave Mrs. Feeny, who leaves next week for Colville, Washington, a banquet at their lodge rooms on First street. Mrs. Feeny was also presented with a handsome brooch with the emblem of the order engraved on it. Two members were initiated into the order before the banquet took place.

Notice was posted today calling for nominations for to fill the vacancy in the school board caused by the resignation of I. A. Dinsmore. Nominations will be on the 16th of July, and in the event of a poll being necessary, an elec-PRINCETON, June 26.—Grover Cleveland's body lies buried tonight in the Cleveland plot in the Princeton ceme-

At 6 o'clock, as the sun was sinking in the west, a distinguished company si-lently watched as the body was lowered into the grave. Then the simple burian services of the Presbyterian church was read and before the last of the carriages in the cortege had driven up to the path leading to the burial place, the benediction had been pronounced, and those who had gathered about the grave began who had gathered about the grave began to leave the cemetery. Many of the per-sonal friends of the dead statesman lin-gered about the spot, which was to mark his last resting place and each in turn was permitted to cast a shoveifull of earth into the grave.

Agreeable to the wishes of Mrs. Cleve-land the services both at the house and

land, the services, both at the house and at the cemetery, were of the simplest. Prayer and the reading of a William Wordsworth poem, "Character of the Happy Warrior," concluded the services at the house. Teh reading of the burial service at the grave was brief and impressive.

adian Mining Institute and all interested to convene in the publicity bureau at 8 p. m. The objects of the meeting will be found in another column of this issue. Although the funeral was of a strictly private nature, those in attendance num-bered many distinguished citizens, including president Roosevelt, governor Fort of New Jersey governor Hughes of New York, governor Hoke Smith of Georgia, former member of president Cleveland's cabinet, officials of the Equi-BUSH FIRE AT FERNIE table Life Assurance Society, members of the Princeton faculty, friends and TOWN COVERED BY HEAVY PALL

neighbors.
Mr. Cleveland was buried with all simplicity and privacy that he himself might have wished as a private citizen, rather than as the former executive of the na-tion. There was nothing that savored of officialism and the military elemen was injected solely as a measure of pre-FERNIE, June 26.—A serious brush caution in 'protecting president Roose

velt. The precident arrived at 4:38 p. m and was met at the station by governor Fort. The president, governor Fort and secretary Loeb were driven at once to Westland. Upon his arrival at the house, the president went to Mrs. Cleveland and expressing keen regret at Mr. Cleveland's death.

The president then returned to the control of the president than returned to the control of the president than returned to the control of the contro

The president then returned to the reception room, where the body had been removed in the afternoon from the room on the second floor, in which Mr. Cleveland died. A few minutes later the four clergymen who were officiating came down the stairs to the hall leading to the reception room, followed by Mrs. Cleve-land and the children, Esther and Richand and the children, Esther and Reinard. As they appeared upon the landing, accompanied by Dr. Joseph D. Bryant, the whole company rose and remained standing throughout the service. The services began with an invocation by Rev. Sylvester W. Beach of the First Deschiration which Presbyterian church of Princeton, which was followed by scriptural reading by Rev. Maitland V. Bartlett, of the West-

farm's Presbyterian church, a forme pastor of Mr. Cleveland. Dr. Henry Vandyke then said that according to the request of one whose slightest wishes at this moment we all

Happy Warrior," this was followed by reading from the Presbyterian book of common worship. The services were concluded at 5:30 and 5 minutes later the casket had been tenderly carried to the hearse and procession started on its

way to the cemetery.

Along the streets from the house to the c me ery nation I guard men, mounted and on foot policed the way. As president Roosevelt passed through from the Westland grounds, the militiamen presented arms and the president doffed his hat in recognition.

The pall-bearers, six on either side of the hearse, marched with the procession as it wended its way slowly down Har-vard lane to Nassau street, and on along the main thoroughfare of the town. Bus-iness had been suspended during the afternoon and shades were drawn in many of the houses.' A silent crowd stood with

hard heads as the procession passed.

The route led over Wiggans street to
the cemetery, which was reached a few
minutes before 6 o'clock. The members
of the family alighted from their carriages and with the four clergymen in the lead, walked slowly down the path leading to the open grave and the rose strewn grave of Ruth, both almost hidden in a profusion of green boughs and flowers.

Mrs. Cleveland stood with Esther and

Richard and Mr. Bryant. The coffin was slowly lowered into the grave. The Rev. William Richards of the Presbyterian church of New York read the com mittal service before president Roosevelt and teh others had reached the grave. The president stood just back of Mrs. Cleveland as the impressive final words were spoken. The services lasted less

GREENWOOD IS PLEASED BIG SMELTER FURNACE WILL BE

BLOWN IN TOMORROW

MEANS EMPLOYMENT FOR NEARLY 300 MEN

(Special to The Daily News.) CREENWOOD, June 26.—The last week has seen the resumption of operations by the Dominion Copper company mins and on Sunday their big 750-ton furnace, the largest in the Boundary, will be blown in. H. H. Mellville, acting president of the company, arrived in Greenwood on Friday last and on Mon-day night, M. M. Johnson, consulting engineer, came to Phoenix. Men were immed ately put to work at the Brook-lyn, the Rawhide, the Sunset and the

lyn, the Rawhide, the Sunset and the Mcuntain Rose.
With the arrival of the officials came the news that P. J. Roosa had been appointed manager to succeed W. C. Thomas, whose resignation was forwarded from Salt Lake, Mr. Thomas having decided to accept another superintendency, it is understood, on one of the large properties controlled by the Newhouse people in Utah. Mr. Thomas has not yet returned to the Boundary and further details of his intentions are not available. Mr. Roosa, the new manager, as is well known in Greenwood. ger, as is well known in Greenwood has been Mr. Thomas chief of staff for the past five years and is thoroughly familiar with every part of the com-pany's operations. Mr. Roosa is under-taking a difficult task considering the remarkably low price of copper and the remarkably low price of copper and the many difficulties under which the low grade Boundary properties are now operating. Into his new duties he carries with him the confidence and support of the Boundary. It is generally felt that his close touch with the interests of which he has been given complete charge will make him the most valuable man the company could get to fill the vacancy caused by Mr. Thomas resignation. The announcement of his resignation. The announcement of his appointment was made officially yes-

terday by Mr. Johnson and Mr. Melville Mr. Roosa has appointed as general foreman of the smelter, John Cawile, who is a former foreman and a man The officials at the mines have all been retained.

The engineers had first intended to start the two small furnaces at the smelter but have decided to install a thoroughly up-to-date electric feed procequipped with the most modern system of feeding will be blown in on Sunday.

ST. PETERSBURG, June 26 .- A for eign office communication based upon the report received from the Russian minister of Persia, confirms the news that quiet has been restored in Teheran. It states that the cabinet remains in power and that the shah's position is be-lieved to be improved. The shah has avowed his determination to preserv

PARIS, June 26 .- A special dispate from Teheran states that in the two days fighting in that city 154 soldiers cording to the request of one whose slightest wishes at this moment we all and three hundred nationalists were respected, there would be no address or sermon, but there was a poem, written more than a hundred years ago by William Wordsworth, which is expressive of Mr. Cleveland's character.

He then read the poem "Character of special measures to stop the plundering."

NO. 49

Miss Rosie Coutts Successful Competitor

CLOSE RIVALRY IN NELSON

NO BALLOTS FOR HOME DISTRICT WILL BE RECEIVED TODAY AFTER TWELVE O'CLOCK-THE LAST HOURS OF THE BIG COM-PETITION NOW AT HAND.

As far as District No. 1, the home district of Nelson, is concerned this morning at ncon precisely, as advertised from the beginning in these columns from the start of the competition, the rivalry will cease. Not a single ballot, under any circumstances, will be taken after 12 o'clock midday, and this rule will be strictly enforced in fairness to all parties concerned. There will be a busy time as it is known that both candidates have shoals of ballots in abeyance which will be sprung at the last hour. So farmiss Gilchrist has polled far the largest number of votes this week, and her friends declare that the lead which Miss McGregor has now, a lead which has been cut down to less than 2000, will have altogether vanished just as soon as the result is declared. Yesterday Miss Gilchrist polled 3037 votes against 1.348 registered by Miss McGregor.

As far as the Boundary district, No. 2, is concerned, the competition was over on Friday night when it was found that there was no eleventh-hour candidate. Yesterday morning, therefore, there was forwarded to Miss Coutts, of Phoenix, all the tickets for steamer, railway, excursion and fair, together with time as it is known that both candidate

way, excursion and fair, together with the \$30 for other expenses promised. Miss Coutts will leave Phoenix on Mon-day and will pass through Nelson that same evening on her way to the Calgary

With regard to District No. 3, East With regard to District No. 3, East Kootenay, Miss Tanhauser, of Cranbrook, sent in 10,553 ballots, but the result cannot be announced until Tuesday morning next. Ballots will be received and registered to the credit of the candidates up to the arm. If the Crow beat on Monday might and the tickets and money for the winning candidate w.ll be sent out on Tuesday morning's boat, so that the successful competitor will know her fate on that same day.

The standing of the respective candidates up to 6 o'clock last evening was as follows:

Nelson District Totals
Miss Pearl McGregor126,775
Miss Louise Gilchrist124,851

MORE OF SUFFRAGETTES

WILL SURROUND PARLIAMENT

WITH 100,000 WOMEN

ARE PLANING A DECISIVE FORM OF CAMPAIGN

LONDON, June 26 .- Convinced that their recent tactics have failed to persuade premier Asquith to accelerate the onstration next Tuesday with a view to forcing further pressure. While a deputation will seek an interview with the premier, it is the intention to surround the house of commons with a cordon of sufragettes, which, the leaders preess before operating them. The new dict, will number at least 100,000. It by furnace installed last year and equipped with the most modern system will be blown in on Sunday.

REGRETS THE TROUBLE The Jewish Chronicile understands that during the recent meeting between king Edward and emperor Nicholas at keval, it was intimated that premier Stolypin was preparing an important measure for the amelioration of the condition of Jews in Russia. This meas-ure, it is stated, will be directed towards modifying the laws concerning

THEATRICAL SCENERY

the Jewish Poles

Provision Made for Bringing Goods Into Canada From States TORONTO,, June 26.-After July theatrical scenery coming into Canada will be admitted on the deposit of the amount of duty with the collector of customs at the port of entry, and on certain certificates from the customs officers at the port of debarkation, such deposi-

will be refunded. This practically admits the theatrical scenery free of duty. The concession from the dominion government was ob-tained by A. J. Small, president of the Canadian Theatre Managers' associa-tion, after an investigation extending over a period of three years.

ELEVATOR FIRE

Loss of Over a Million at Duluth Docks

DULUTH, June 26.-Fire today destroyed elevator. D of the Consolidated company at Rice's Point, causing a loss
