We had no intention of excluding others rom this honor. He was obliged to return to the States, disappointing many who had hoped to hear him.—Governor Tilley is to be entertained at a Temperano dinner by his friends in St. John.—Mr. Carvell has sent a Temperance pledge to employes on the Railway to be signed and returned. The family of Mr. Smith, South Bar, has lately suffered one of the saddest hereavements that these columns have ever recorded. Only two weeks ago two children died of Diptheria. On Wednesday at 12 o'clock a third one died. and before 12 o'clock at midnight of the same day two others fell before that fatal epidemic. Three children of the one household buried at once, and within three weeks, is indeed a terribe bereavement, and one that calls for the largest sympathy for the sorrow stricken parents.—St. John News ——A despatch from Richibucto, N.B., Jan. 8th, reports that Chas. This I got photographed separately, with the ten arms hanging down, displaying the splendid array of suckers. The picture looks like a fine piece of beautifully executed embroidery. The body is photographed separately, and shows the tail, which is of curious shape. It is something to be in possession of a specimen such as no museum in Europe or America can boast of.

In the winter of 1860 I was taken ill with Disease of the Heart, accompanined by violent palpitation, and from that time gradually became weaker, notwithstanding continued professional attendance, up to a few weeks ago, when your Compound Syrup of Hypophosphites was recommended to me. The use of it during a very short time enabled me to resume my usual work, and now I am as well, fat and hearty as I could wish to be. Yours very truly, W. FRANK COCHRAN. The heart being a great muscular organ requires vigorous nervous force to sustain it. As Fellows' Hypophosites restores the nervous element, it will always strengthen the heart weakened through loss of this element.
