Possible Purchaser: Now, is this mule perfectly gentle? Uncle Mose: Well, sah, I nebbeh knowed him to bite anybody yit.

A Colchester paper avers that a hotel in Colchester has a cook so good-looking that she mashes the potatoes by looking at them.

"There's Biggsier, now: would you call him a patient man?" "All depends." "On what?" "Whether he's fishin' or waitin' fer his supper."

Minnie: What do you understand by the term platonic affection? Mammie: It usually means that the young man feels that he cannot afford to marry.

She: Never mind, Fido, he's only playing. He: But he really did bite me. Never mind; I don't believe a little nip like that would hurt him, do you?

"The doctor says that kissing is unhealthy," said the young man to his girl; "what do you think of it?" "I never had much faith in doctors," she replied.

"Men," said Sharpe, "may be divided into two classes—knaves and fools." "That's a pretty bright remark," said Uncle Silas; "any man who takes you for a fool is mistaken."

Friend: You still employ Dr. Hardhead, I see. Mrs. De Style: He's just lovely! My husband and I both like him. When we are ailing he always recommends old port for my husband and Newport for me.

Servant: Miss Penstock told me to tell you she had gone out shopping, sur. Dash-away: Queer she should say that. Why, she did not know that I was going to call. Servant: She said she feared it, sur.

"Father," said an actor's son, "I fully realize that I have many shortcomings—" "Yes," interrupted the shrewd, far-seeing parent, "and I've no doubt this is one of them. You are 'short,' and have come to tell me about it."

Angry Parent: Young man, what were you doing a moment ago with my daughter? Edward: N-o-o-thing, sir, I assure you. Angry Parent: And what were you doing, Helen? Helen: I was telling him he must stop right off or I would scream. Indeed I was, papa.

The absolute quantity of solid carbon given off by the lungs is about 160 grains per hour, or 8 ounces troy in the 24 hours. It will be seen, therefore, that by the time a man reaches the age of 75 years about 6½ tons (avoirdupois) of carbon have come from his lungs, or enough to supply a family in coal for a whole year.

"That new hand I hired this morning," said Farmer Hayeroft, "plowed one furrow across the field and then went and laid down, and he hasn't moved since." "What was the matter with him?" "He said he believed in goin' accordin' to Scripture, and that when a man had put his hand to the plow he never ort to turn back."

A BOOK FOR YOUNG MEN.

An immeasurable amount of suffering and injury to the human race is due to the ignorant violation of physiological laws by the youth of our land. Ruinous practices are indulged in, through ignorance of the inevitable injury to constitution and health which surely follows. By every young man, the divine injunction, "Know Thyself," should be well heeded. To assist such in acquiring a knowledge of themselves and of how to preserve health, and to shun those pernicious and most destructive practices, to which so many fall victims, as well as to reclaim and point out the means of relief and cure to any who may unwittingly have violated nature's laws, and are already suffering the dire consequences, an association of medical gentlemen have carefully prepared a little book which is replete with useful information to every young man. It will be sent to any address, securely sealed from observation, in a plain envelope, by the World's Dispensary Medical Association of 663 Main Street, Buffalo, N.Y., on receipt of ten cents in stamps (for postage), if enclosed with this notice.

WALTER BAKER & CO.

The Largest Manufacturers of
PURE, HIGH GRADE
COCOAS AND CHOCOLATES

On this Continent, have received
HIGHEST AWARDS

SOLD BY GROCERS EVERYWHERE.

WALTER BAKER & CO. DORCHESTER, MASS.

"GREAT IS ACETOCURA."

185 Madison street,

Chicago, Aug. 17, 1894.

Gentlemen—One day last month I called into the office of your agent, Mr. S. W. Hall, on other business, and received the gentleman's condolence upon my wretched appearance. As a matter of fact, I was a sick man—had been receiving treatment from two different physicians without the slightest benefit. I certainly was discouraged, but afraid to let go. I had not had a decent night's rest for most ten days, no appetite, no ambition, "achey" all over, but bowels were in good order—the fact is, neither the physicians nor I knew just what the trouble was. Mr. Hall spoke of Acetocura. I confess I would have paid little attention to it but for my precarious condition. He insisted on giving me half a bottle to try, and refused to accept any payment for it. I read the pamphlet and had my mother rub me that evening. Failing to produce the flush within 15 minutes, I became thoroughly frightened—the flesh along the spine seemed to be dead—but persisting in it produced the required result in just 45 minutes. That night was the first peaceful one in ten, and on the morrow my spine was covered with millions of small pustules. By night I felt a considerable improvement. Owing to soreness the application was omitted, but again made the third night. The following day showed a wonderful change in me. I felt like a new man. Since then I have chased rheumatic pains several times, with the greatest ease. From being sceptic, I cannot help but say, "Great is Acetocura." It is truly wonderful, and I am most grateful to Mr. Hall for his action.

Respectfully yours,

P. O. BAUER.
