Ottawa, May 26, 1924.

My dear Dr. Robertson:

I thank you very much for your letter of the 22nd May. There are quite a number of the same view as yourself. As a matter of fact the government does not know what its own mind is on the subject, but it is not at all unlikely that events will be such that it will be driven to take the course which you have predicted.

The conduct of the two Western men to whom you refer, Messrs. Cerear and Dunning, will be just what you outlined and they will press that course to the utmost of their energy but, I fear, without very great success.

Yours very truly,

Dr. William Robertson,

Alsask,

Sask.
