# BABY TUCKER'S

Covered from Head to Foot with Humours - Forty Boils on Head at One Time-Could Not Shut Eyes to Sleep-Doctors Did No Good.

**CURED BY CUTICURA** IN ONE MONTH

Mrs. George H. Tucker, Jr., 335
Greenfield Avenue, Milwaukee, Wis., is a grateful mother. "When six months old," she says, "my little girl weighed a pound and a half less than at birth. When one mouth old a seab formed on her face, spreading until it completely covered her from head to foot, followed by boils, having forty on her head at one time, and more on her body. Then her skin started to dry up, and it became so bad she could not shut her eyes to sleep. One month's treatment with Cuticura Soap and Ointment made a complete cure, and now my child is as large, strong, and healthy as any child of her age. The doctor's and drug bills amounted to a large sum, and my baby grew worse all the time. Then we got Cuticura Soap and Ointment and cured her at trifling expense."

#### CUTICURA A BLESSING

To Skin-Tortured Babies. To Skin-Tortured Babies.

The suffering which Cuticura Soap and Cuticura Ointment have alleviated among the young, and the comfort they have afforded worn-out and worsied parents, have led to their adoption in countless homes as priceless curatives for birth humours, and every form of itching, scaly, pimply skin, and scalp humours, with loss of hair, of infancy and childhood. A warm bath with Cuticura Soap, and a single anointing with Cuticura Ointment, will permit of sleep for baby, and rest for mother, and point to a speedy and permanent and point to a speedy and permanent cure in the most distressing cases.

MORE DEADLY THAN FAMINE.

Neglected catarrh sooner or later causes consumption, which destroys more human beings than famine and war combined. The way "Catarrhozone" cures catarrh is very simple; it first kills the germs that cause the irritation; then by soothing away the congestion and inflammation it cures the discharge, hawking and dropping in the throat. "I suffered so continually from nasal catarrh," writes Ernest R. Dakin, of Rosemont, "that I scarcely knew what it was to be free from headache, and pain over the eyes. Catarrh-MORE DEADLY THAN FAMINE. what it was to be free from head-ache, and pain over the eyes. Catarrh-ozone relieved me at once and made a thorough cure." No other remedy cures like "Catarrhozone"—try it for your next cold.

Train Hits Bread Wacor. Preston, May 5.—A special train bearing "The Babes of Toyland" Show Co. crashed into a bakery rig at a street crossing here yesterday morning. The wagon was wrecked, and the horse killed, while the driver, Ralph Clemens, aged 14 years, was thrown from his seat and sustained but slight injuries.

BEAUTIFUL TEETH.

They Redeem a Plain and Enhance a Good Looking Face. I have often thought that regular white teeth redeem even a plain face from absolute ugliness. They certainly enhance the charm of one which is good looking. I remember going to the lecture of a well known American lady on economics. Her face was sweet. but rather sad in repose. In one in stant her mood changed. Her mouth, parting in a smile, showed a fash of the most perfectly white and dazzling teeth, like rows of pearls, that I have ever seen. That instant made me realize the charm of beautiful teeth

The way in which some children's mouths are neglected seems too cruel, for very often the neglect can never be remedied. A visit to a dentist every six months should be considered imperative and will obviate much suffering later. As for cleaning the teeth, the same rules should hold good for children and adults. The only really hygienic method is to clean the teeth in the morning and then after each meal, but few people will take this trouble, and one can only urge a thorough cleansing of the mouth at the morning toilet and the last thing at night. A few drops of a good antiseptic lotion should be used in a glass of warm water, and care must be taken that the tooth powder is not gritty or it will injure the enamel covering of the teeth. The toothbrush should be used up and down the teeth, not across them, an ordinary brush being used for the front and one with a very short head for the back, for penetrating into all the corners. An excellent plan to insure perfect cleanliness and to avoid the formation of tartar is once a day at least to pass a piece of fine dental silk, specially prepared for the purpose, through the interstices between the teeth, as by this means all foreign mat-ter is dislodged.—London Queen.

HOUSEMAID'S CLOSET.

Cupboard That Comes In Handy

Dusters.

Dusters have an irritating faculty of wearing out rapidly or of getting lost. An abundance of clean dusters becomes an essential feature if the house is to be kept spick and span. Those who can afford to buy plenty of large pieces of chamois skins are fortunate, but even chamois skins wear out, and comparatively few can afford to indulge in them. Merino makes the very best dusters. These should be made as large as practicable, and for many purposes they are even better than large as practicable, and for many purposes they are even better than chamois skins. A couple of such pieces made into bags can be drawn over the broom, making as excellent means for cleaning the ceilings and walls of rooms. Many "wall sweepers" are sold at a high price, but they are not nearly so desirable as an ordinary broom provided with a bag. A draw string is run in the top of the bag, then fastened securely around the handle of the broom.

Wipe Your Eyerlasses.

A well known oculist said recently:
"Can't girls be persuaded to take better care of their glasses? I have many college girls coming to me. They are as fresh as a rose and neat as a pin, but seven times out of ten their glasses are in a disgraceful condition. Vanity alone should make them more careful," he continued. "Glasses at best are not becoming, and when clouded and neglected make a bad matter worse. Of course it is very bad for their eyes to wear glasses in such a state. Tell them to wash their glasses each night of their lives in warm soap and water and dry on an old, soft bit of linen." This is good advice, and the pity is that it should be necessary.—Harper's Basar.

Mrs. D. J. Sullivan being greatly troubled with headaches found almost immediate relief by using "Bu-Ju" Pills. She writes as follows:

St. Catharines, Jan. 23, 1901. Claffin Chemical Co., Windsor, Ont. Gentlemen: I am glad to be able to say that I have received a great benefit from taking your "Bu-Ju" Pills. I had been troubled with headaches for nearly two months, but after taking three nores I had gained flesh and felt much improved in every way. I have recommended them to several of my friends, and they all seem to have derived great help from them.

Yours truly,

Yours truly, MRS. D. J. SULLIVAN. Bu-Ju, the Kidney P.11, is a won-derful remedy for all diseases and maladies arising from disordered kid-neys, and there are hundreds of dif-ferent diseases and conditions that are the direct result of kidney trou-ble. It would take too much space to enumerate them all, but we might to enumerate them all, but we might mention rheumatism, dropsy, sallow complexion, lame back, blood poisoning, sleeplessness, headache, irritable temper, bad breath, loss of flesh, etc.
Bu-Ju Kidney Pilis are the infallible remedy for these troubles, and may be had at all drug stores. Ask for them and insist upon getting them. Take no substitute.

Two Drown; One Saved. Twe Drown; One Saved.

Utica, May 5.—John McLaughlin, a wealthy contractor, residing at Massena, and John Gleason of Ontario. Canada, a foreman employed by McLaughlin, were drowned near Carthage yesterday. While rowing across the stream to repair a guy wire, the boat hit a cable and was overturned, precipitating both men in the river. John Orr, who was with McLaughlin and Gleason in the boat, grabbed the guy wire and hung in the water until rescued. Gleason leaves a wife and two children in Canada.

Confirmation and Graduation Dress Very Lovely This Season The confirmation dress must be all white and extremely simple, emblematic of the youth of the wearer and the occasion for which it is designed Graduation dresses are also usually white and are constructed on similar lines to those of the confirmation dress, while precisely the same materials are while precisely the same materials are used for making. The dress may be simple without being plain, since sim-plicity in this instance implies only a lack of elaborate decoration, but a wide range is given for the display of dainty laces and exquisite hand work. The confirmation and graduation dress es for 1905 are very lovely, and the styles seem to be particularly adapted to the light woolens and soft non-rustling silks of the season's vogue, says the New Idea Magazine in preface to the following details on this subject: Among the materials suitable for making these dresses are albatross nun's veiling, henrietta, cashmere and voile in the various shades of pearl white, chalk white, oyster white and cream white, many of the creams being this year so deep as to verge on the champagne tints. The pure white is the favored shade, and ivory white takes the lead. Exquisitely dainty are dresses made of china silk, taffeta, peau de sole, liberty satin, louisine and messaline. White silk finished mohair, lansdowne, batiste and collenne are ideal fabrics for this purpose. Among the sheer fabrics are white organdie swiss, linen lawn, mousseline, tulle crepe de chine, gauze, silk muslia and chiffon. The models follow closely the lines of

dress. The broad shouldered effect is epaulets and cape collars. Owing to the excessive sheerness of the fabrics the waist and skirt are both full and the "1830" modes prevail. Hand work is much in evidence in the form of hand run tucks, fagoting, drawn work, hemstitching and shirrings, and many of the very dainty and by far the pret tiest of confirmation dresses are made entirely of the material and are simply trimmed with folds of the same, tucks or shirrings. When lace is used it is usually of the finer quality, such as venetian and valenciennes, and these are

With the confirmation costume white osiery and white slippers or low shoes are worn, but it is also quite correct to wear with the all white costume footwear. The gloves should be of white silk, suede or glace kid. For the veil, silk muslin, malines, tulle, brussels net or point d'esprit is correct, and this is arranged on the head with a flat bow or a wreath of lilies of the valley. The pretty little confirmation dressibown in the cut is made of white or gandle, the yoke and skirt being trim-med with rows of insertion. The waist has a round yoke and includes a bolero
