

You'll not find a more pliable roofing than Brantford Roofing, because there isn't one made, and you'll experience considerable difficulty in trying to find one closely approaching it in elasticity.

**This Elastic Toughness is a Permanent Feature of**

# Brantford Roofing

It retains it in all conditions of weather. Frost, which makes many a roofing brittle enough to crack when you bend it, does not affect the pliability of Brantford Roofing.

### Get Samples

of this phenomenally durable roofing (Asphalt and Rubber Finishes) from your hardware dealer, or direct from us, and examine it. You'll find it coincides with your own views as to what a good roofing should be. Sold at as low a price as is possible for a really good roofing.

## Go to the Man Who Sells Paris Plows

And ask him to show you our line. Make a thorough investigation, compare ours with others, ask our agent questions, become familiar with every single part of our plows. We know for certain that the more carefully you go into the plow question the more surely you are to decide on the Paris Plow. Ask especially to see our Nos. 10 and 21.

**The Tie That Binds**

Examine our lock—"The Tie That Binds." Notice how it locks smooth on both sides of the line wire. Being an oval loop, it permits a long bend in the line wire. This does away with short kinks, which cause so many breaks in the fence.

This lock can't slip and adds strength and wear to the whole fence. The "Standard" may cost a little more than small, soft wire fences—but it's worth more to every farmer and stockman who wants the best. Write direct to the factory for catalogue and sample lock.

## Strongly - Guaranteed Wide - Tire Steel Wheels.

You buy wisely when you choose our Wide Tire Steel Wheels and Wagons. Strong guarantee safeguards you. Our Free Catalogue tells how horses can draw double the load with no greater effort, how you can load a wagon in half the time. Write for it to-day. Our steel wheels are lighter, stronger, cheaper than wooden. Made to fit any size axle or skein.

Dominion Wrought Iron Wheel Co., Ltd., Orillia, Ont.

## KNIVES CUT WHEN WHEELS START

No flying start needed with a No. 8 Frost & Wood Mower, because we build our mowers with the internal gear instead of the external variety. The large gear-wheel with inside teeth encircles the engaging pinion inside, they both travel from left to right, are always in mesh. They do not jar away from each other, neither wedge nor slip. This prevents rapid wear. Moreover, there is no lost motion.

This Mower is uniformly popular among farmers, because it is so convenient, of just the right weight, cuts such a clean, even swath, and is so readily manipulated. It is strong, rigid, durable; being made of highest quality of steel and malleable iron. The large sized Roller and Ball Bearings at all points of friction make it quiet and bring little neck-weight on horses. The pitman jaws are forged steel—the toughest material we can use. The Cutter-Bar can be raised fully two feet from the ground in passing obstructions, and folds back when passing through gates or going a long distance in road or laneway. No. 8 Mower is made in 4½, 5, 6 and 7 foot widths. These are only a few of a score of good reasons why you should own a
