SCHOOLS IN THE STATES.

or less openly expressed dissatisfaction with strange eyes to look upon, and too holy to be tacts, and what are the deductions? the kind and amount of education given in that State. He does not say that the schools are retrograding, but he complains that they are not keeping pace with the general advance of none but relations and near and dear friends when they went out, without much noise. and acknowledge that they represent their own what their children are taught, and the manner in which they are instructed.

Mr. Bateman, the Superintendent in question, gives cases and letters illustrating what he means, and the character of the evile he de of age, had attended a district school of average merit, six months each year, for twelve years, devoting his school time to the seven elementary branches spelling, reading, Awriting, arithmetic, geography, grammar, and the

"One day, the father, having some notions in regard to the culture of corn, which he wished to see in print, sat in his easy chair and dictated what he had to say to John, who wrote it down sentence by sentence, and transmitted it, according to direction, to the editor of the agricultura! paper the father was in the habit of reading. In due time he looked for his article, and found instead an editorial note running in this wise :-"If our correspondent "B.J.T." knew one-

tenth part as much about orthogrophy, punctuation, paragraphing, and the use of capital letters, as he does about "corn culture," his article would be gladly inserted. His ignorance of those matters, so important to editors and printers, seems as remarkable as the subject treated of. We advise him to write again, and get some intelligent school-boy to copy his article for him before sending it to us.'

" The tather tried him with reference to mat ters of general knowledge outside the narrowrange of his school-books, with equally discouraging results: 'They only heard me recite what was in the book,' the boy said. Bitterly reproaching himself that he had so long taken it for granted that all was right with his son's education, the father pursued the 'painful enquiry' in the gardens, the stock-yards, the tion of the great practical truth of the disyoung man's observations had been few and increased of its long remembrance. careless. His ignorance of common things tant relation to every-day life."

many fathers in Canada could to the letter endorse this in connection with their own boys and Canadian schools? We telieve it is. All is merely mechanical and of the dullest rouse in summer than in winter, because perspiration is so much more readily induced, and is more apt to become profuse; hence the danger of cooling off is greatly increased. their books, whatever these are, and painfully before passing out of the door, and if possible, ed and beloved by the membership of our church their books, whatever these are, and painfully before passing out of the door, and he door, and apply what they learn to everyday life, so that It is suicidal to drive even a mile within an ness of Christian character.
