LISTOWEL STANDARD. FRIDAY, APRIL 14, 1882.

CONVARD.

To any the Staxonus printed for the first time entirely in our own office, the ready-print outlish having been in clied. While we have no objection to the "auxiliary" system so common among country merspayers at the present day and more specially to experiment the search of the auxiliary of the property of the search of the se

Ottawa, April 12.— Dr. Orton's Committee on the operations of the tariff on agricultural interests met this morning, when W. Dawson, of Norfolk county, was examined, his evidence being to the effect that the tariff had greatly benefited farmers. He specially referred to corn, the product of which had increased from 23 to 30 per cent. in his county, and prices had been benefited by American corn being kept out. He aiso referred to the cheese trade, in which he is largely interested, and said that before the tariff he got better prices on cheese exported than in the home market. Now got better prices in Toponto and

visional arrangements; and if so, what the best terms appear to be to which those Governments may be prevailed upon to

"All which is respectfully submitted.
"O. Mowar.

"November 1st, 1881."

That is, Mr. Mowat was so little bent on bloodshed, that though he was even then encouraging his press to talk violence, he was actually engaged in taking authority to enter into further negotiations on "the best terms" he could obtain.

dence, if such there is, and that pending the reference the administration of lands shall be entrusted to a joint commission applied by the Government of Commissional and the Government of Ontario."

ME. NOWAT'S FORNER POLICY ON THE AMES SUBJECT.

Specimen No. 1.—On the 1st of February, 1881, Mr. Mowat writes to the Minister of Justice proposing a draft bill to the government of the disputed territory jointly by Keewarin and Ontario and in his letter he says:—

"The fact of reciprocal rights being given to the officers of Keewatin and on the Dominion Government were not by this legislation admitting the right of Ontario."

That is, Mr. Mowat was then in so served that would attend such a line as the first by considerable quantity of land and to be written by a such a subject to our accounting the rights of Ontario ignored and guarded against!

Specimen No. 2.—In the very same territory, subject to our accounting the right of Ontario ignored and with the land and timber in the disputed territory, subject to our accounting therefor in case our right to the territory, subject to our accounting the right of Ontario is a subject to the subject of the Control of t

The state of the s

LOGAN.

The effects of last week's fine weather are being counteracted by the cold which set in on Sunday night, and farmers who have commenced seeding operations will have to give up and await the coming of more favorable weather.

The fall wheat in this vicinity has, so far as we can learn, passed the winter safely, and appears to be in good condition.

sately, and appears to be in good contar-tion.

We understand that Mr. William Robertson, formerly blacksmith at Burns, has rented the blacksmith shop belong-ing to Mr. David Henry, of Carthag, who is going to Manitoba, and intends run-ning a business there. Our best wishes are with both of them, and may success attend their every endeavor.—Com.

PALMERSTON.

St. Paul's Church.—The annual vestry meeting of St. Paul's Church was held on Easter Monday, the Rev. J. H. Fletcher in the chair. The retiring church wardens, Messrs. Tiffin and McComb, were re-elected. Mr. Lingwood was re-appointed secretary. Mr. W. T. Vanstone was elected lay delegate. The sidesmen for the year are Dr. Standish, Mr. A. Prime, and Mr. J. T. Lacy.

Spring Show.—The third annual show of horses and bulls held under the auspices of the Palmerston Horticultural Society took place on Saturday last. The day was fine, and there was a large gathering from the neighboring townships. The prizes were avarded as follows: Honses—Heavy draught. Jas. Bready, 2nd Jos. Rutherford. Heavy draught under 4 years, David Mitchell. General purpose, Wm. Taylor. Carriage horses, Fhos. Salter, 2nd R. J. Davey. Blood horse, Henry Powley, 2nd W. J. Moore. Best horse on the ground J. Moore. Best horse on the ground J. Bready, diploma. Bulls—Durham, R. Darroch. Durham, under 1, Peter Fife, 2nd George Mutter. Best bill on the ground, Peter Smart, 2nd Edwin Goodwin. Durham, under 1, Peter Fife, 2nd George Mutter. Best bull on the ground, Peter Smart.—Telegraph.

The Wallace Court of Revision will be held on the 27th of May.

The township Council met on Saturday at Gowanstown, when pathmasters, poundkeepers and fenceviewers were appointed. The list will be published next week.

The old church at Gowanstown has been purchased by the Council for a word town hall. \$25 was the sum paid for it. It will be used for Council meetings and other township purposes.

Shiplex Vestrey.—The annual Easter vestry meeting of St. Paul's Church, Shipley, was held on Monday last, when the following officers were appointed. Wardens, Messrs. Edward Anderson and Richard Daly; Delegate to Synod, Mr. Frederick Hemsworth; Secretary Treasurer, Mr. Albert Hemsworth.

It is not true that the Wallace Council's chief object in purchasing the old church for a town hall is to provide the Grits of the township with a room sufficiently large to hold their "grand rallies" in. The "pair-ty" (there's two of them, be it remembered.) can still find ample accommodation in the back parlors of Listowel and Gowanstown hotels.

WALLACE.

The Wallace Court of Revision will be held on the 27th of May.

Mr. Dames, from Elma, has taken the Swisshote!, Cranbrook, lately occupied by A. Egger.

Last Friday Thomas Sample of this township, was relieved of \$25\$ while in Brussels. The money was in his coat pocket. No clue to the thief.

Isaac Gill, hotel keeper at Ethel station, has leased his hotel to J. Flaherty, of Dublin, for \$175\$ a year. Mr. Gill intends moving on to his farm near the village.

The residents of Henfryn are getting considerably warmed up on the subject of a public school, as the distance travelled by some of the children now exceeds three miles. The matter is in the hands of the Grey and Elma township councils at present. A large delegation from Henfryn waited on our township from the capital even unship councils at present. A large delegation from Henfryn waited on our township fathers on Friday of last week.

The land boom is exceedingly quiet at present, although a large number of sales are being made daily, but there is no rush, just now like there is some days when speculation is rampant. These temporary lulls are of prime necessity—

rush, just now like there is some days when speculation is rampant. These temporary lulls are of prime necessity—to give the many speculators a brief breathing spell, and allow them to gain their wonted vigor and vitality lost by the continued strain and excitement, to which a gambler's life is not dissimilar. A new departure has been made in real estate, and American towns are now shoomed" in Winnipeg. St. Vincent at the boundary was the first, and so successful was it that Pembina was next tried. It is stated that these towns have been bought by Canadians, who, having no other town sites to conquer on this side of the line, have invaded American territory in search of them.

For some reason or other the Canadian Pacific ralway have only four months supply of wood on hand, and owing to their cars being fully occupied otherwise, no fuel for the citizens is being brought in. Wood has consequently increased largely in price, and \$10 and \$12, and even \$13, is asked for poplar poles, which formerly sold at \$5 and \$6. There is no reacrity of coal, but the stuff we get is not the best in the world. What it lacks in quality, however, is more than made up in price—\$18.50 per ton of coal and dust (there being a liberal proportion of the latter). This has to be paid for in advance—no order being received unless accompanied by the cash—and the delivery is almost as bad as the coal. It is dumped exactly where it suits the convenience of the driver, and although not infrequently his views as to the purchaser, yet they invariably prevail. There is no remedy for this state of affairs, one company having a monopoly is arranging to enter into the business next year, when doubtless many of the convenience of the driver, and although not infrequently his views as to the purchaser, yet they invariably prevail. There is no remedy for this state of affairs, one company having a monopoly is arranging to enter into the business next year, when doubtless many of the come of the proper place to put the very dusky diamore more than the t

Last Friday Thomas Sample of this blownship, was relieved of \$25 \text{ while in Brussels.} The money was in his code pocket. No clue to the third.

The first large body of British immigrants this seaon for the North-West arrived at Montreal on Tuesday morning. They consisted of 600 persons, chiefly English farmers and their families, from Sussex, Shropshire, Stratfordshire, and Dorsetshire. The great majority are people of means, who have brought, it is estimated, an aggregate of half a million dollars' capital with them.

As Mr. Thomas Taylor, Reeve of Wawanosh, was driving into Wingham on Tuesday his horse ran away, throwing him into a culvert. The accident was observed by soune farmers near, who on reaching the spot found that Mr. Taylor had received a severe kick on the head from the horse, and that his leg was badly broken. He was carried to Wingham, where he lies in a very critical state.

Last week ocean steamship agents at

where he lies in a very critical state.

Last week ocean steamship agents at Boston were offering to carry cargoes of wheat to Liverpool for nothing. Even at this low price they were unable to secure any business, and made a second offer to pay a premium of several cents per bushel, but met with no better success. The cause is to be found in the high prices prevailing for grain at Chicago, which prevents freights moving eastward. be castward.

The Synod of Hamilton and London, in session at Ingersoil this week has appointed a deputation to wait on the Ontario Government with the view of having the Bible used as a text-book in the Public Schools of the Province; it being, however, distinctly understood that any Public School Board for local reasons may exempt such school section from the operation of the act contemplated. The question is to be brought before the attention of other denominations.

A special cable despatch to the Mail

The question is to be brought below attention of other denominations.

A special cable despatch to the Mail announces that proposals for an amalgamation have been made by the Grand Trunk railway to the Great Western, the Trunk railway to the Great Western, the former company guaranteeing the latter interest on the bonded debt at the rate of three per cent. The same despatch says that the London vapers publish a despatch from Mr. E. B. Osler, president of the Ontario and Quebec railway, stating, in view of reports to the contrary in consequence of the proposed fusion, that the road from Toronto to Ottawa will be completed and opened for traffic in two years, whatever may be the action of the shareholders of the Trunk and Western.
