Athens' justice mill has been doing a little grinding lately, but the grist seems rather reluctant to stand the test of the purifier. A traveller, experienced in stage architecture, was present and endorsed these proposals. The cost of these changes would not be large, and the more important may be made before next season.

It Makes a Difference Yesterday we were asked if we ever saw a baldheaded woman. We answered "No" we never did, nor did we ever see a woman waltzing around town in her shirt sleeves with a cigar in her teeth, running into every saloon she saw. We have never seen a woman go fishing with a bottle in her pocket, sit down on the cold ground and come home drunk at night. Nor have we ever seen a woman yank off her coat and say she could lick any man in town. God bless her, she's not built that way."—Exchange.

Scrofula is very often acquired, though generally inherited. Bad hygiene, foul air, impure water, are among its causes. It is called "the soil for tuberculosis," and where it is allowed to remain tuberculous or consumption is pretty sure to take root. Hood's Sarsaparilla removes every trace of scrofula. Get Hood's.
