

# THE ACADIAN.

WOLFVILLE, N. S., OCT. 25, 1912.

## The New Baptist Church.

On Sunday next and the evenings of the days immediately following will occur the dedication of the new Wolfville Baptist church and the services in connection therewith. For several years the erection of a new edifice has been in contemplation, but it was not until the fall of 1909 that the undertaking was definitely decided upon. In April, 1912, the old church was torn down and on its site the new structure went up. The new church is a rectangular building 75 feet in dimensions, with lower foundation partly projecting on the northwest corner. Gables and buttresses and the massive tower give variety and distinctive character. The height from the foundation to the ridge of the roof is 52 feet. The tower lifts its spire 102 feet in air. The materials of the building are brick and Dorchester freestone. This latter is used lavishly in the settings for doors and windows and in the tower, producing in its contrast with the brick work a highly pleasing effect. The brick used for facing are imported from New Hampshire and are of the same quality as those used in the Carnegie Science Building on the Hill. The roofing is of slate relieved with red tiling on the ridges. Copper gutters and leaders carry off the water. The interior of the building is in two main divisions—the auditorium, occupying the northern portion, the school-room the southern. The finish of both parts is practically the same in general idea, though that of the auditorium is superior in quality. Here one finds a lofty ceiling of wood exhibiting the finest workmanship, and so arranged as to give a graceful effect. The walls are finished in rough plaster, colored a light cathedral brown. All the woodwork below the ceiling is dark golden oak in tone and this wood has been used in all the finish about the pulpit and choir. The floor is of hard wood and is slightly raised in the rear portion of the room. The pews are curved and are made for comfort as well as looks. They have heavy quartered oak ends, backs of ash three ply and moulded seats of elm. Galley and anchor are seated exactly alike. The entire seating capacity of the room is 775. The old church seated 600. One outstanding feature of the auditorium is the great north window. It is three sections, two of which are filled with cathedral glass, but the central one contains a memorial to the Rev. Samuel Richardson and his wife, erected by their children, Mrs. C. R. H. Starr, Mrs. F. G. Harrington, the Misses Mary and Emily Richardson, and Mr. Harry Richardson, of Toronto. The work is of high artistic merit and shows what Canadians can do in art glass. In the centre of the window is a draped figure of the Christ as King of Kings, while the side panels contain groups of adoring angels. In drawing, in coloring and in setting the conception is excellent and the execution adequate.

Folding doors of the auditorium type on the south side of the room form a movable partition between auditorium and school-room. When these are opened one great room is formed, wherein it is estimated 1300 people can be seated. The school-room is designed to meet the needs of modern Sunday school work. It is cheery light and airy and has as its special feature fourteen separate class rooms opening from it but so arranged that they can all become a part of the large central chamber. The color scheme is the same as the auditorium and the floors are of hard wood.

In the basement one finds a kitchen, serving room and dining room equipped with furnishings sufficient to seat 150 guests at once. Down here is also the heating plant which is of the low pressure steam type and was installed by Mr. Delaney of this town. The architect is Mr. C. B. Chappell, of Charlottetown. His reputation as a designer of churches was already established, but this piece of work will enhance it. The builders were Allen & Son, of Middleton. Mr. Chas. H. Wright, of the firm, has had entire charge of the work, and it is only just to say that to him and his fine corps of men he has had ground him is due the credit for the thoroughness and fitness of the work and the eminently satisfactory result attained.

Mr. Wright's presence on a contract insures honorable treatment and high class work. Mr. F. E. Christie and Mr. David Thompson, of this town, and Mr. H. Lyon, of Hantsport, have all borne a part in bringing the building to the present stage of completeness and have well sustained their respected reputations. An excellent piece of work has been done by Mr. C. M. Gormley in the installation of the electric lighting system. Pastor Webber and his people are certainly to be congratulated on the completion of their fine new church edifice, of which the town generally is proud.

The members of St. Andrew's Guild held a reception in the school-room of the church on Tuesday evening. The room was tastefully furnished and retained for the occasion and presented a fine appearance. In view of the near approach of Halloween the decorations were enthusiastic and that has been the case of the evening included many of the popular games and recreations associated therewith. There was a goodly attendance of young people present, which was a very pleasing feature.

Walter Edwards Davidson has been appointed Governor of Newfoundland, to succeed Sir Ralph Chalmers Williams, who enters next February under the age limit. The new governor comes from the Seychelles Islands in the Indian Ocean, where he has been Governor since 1904.

## Stock Company Makes Good at Academy.

The Academy Stock company made its initial performance in Halifax last night and the verdict of the audience was success.

The players that Manager O'Connell has engaged are of the finished type, who think attention to artistic detail to be worth while, and who proceed on that principle in their performance. The company is well balanced and clever. Miss Alice Baxter, the leading lady, has been in Halifax before (and in Wolfville in The Lottery Man) the only one of the splendid company previously seen in this city, and she certainly gave unbounded satisfaction. Of prepossessing appearance, Miss Baxter showed herself an actress of very marked ability, with a fine sense of artistic effect. That she will be a prime favorite is a safe prediction—a highly reasonable deduction from her fine work of last night. The support all round was admirable, and there is no doubt that the Academy Stock Company will make good.

Manager O'Connell has now given Halifax a stock company worth having; it now remains with the people to appreciate his efforts.—Ex.

It is seldom that a company of such fine artistic class can be induced to play in a small town and the people of Wolfville and the local management are to be congratulated and the patron of the Opera House show their appreciation in a tangible manner it is likely that the stock company will appear in Wolfville several times this winter presenting new high class royalty plays.

## When Baby is Ill.

When baby is ill—when he is troubled with constipation, colic, worm or cold; when his teeth are bothering him or when he is restless and cross and does not sleep well, give him Baby's Own Tablets. They are the mother's greatest aid in keeping her little ones well—thousands of mothers give their babies no other medicine because they know the Tablets to be absolutely safe. They are guaranteed by a government analyst to be free from opiates and other harmful drugs found in so-called 'soothing' mixtures. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Sad Death.

A Boston despatch to the daily press says: Despite the herculean efforts of Dr. Robert Chalmers, a prominent Woburn physician, who gave a pint of his own blood in a futile attempt to save her life, Miss Helen Cox, head nurse in the Choate Memorial Hospital in Woburn, died in the institution yesterday, (Thursday, Oct. 24th) following internal hemorrhages.

When Miss Cox was stricken, Doctor Chalmers called her suffering and later summoned Doctors Balch and Vincent of Boston. When they arrived Miss Cox's condition was critical and the three physicians, after consultation, decided that only transfusion could save her.

Doctor Chalmers willingly offered to undergo the operation. For a time following the operation, Miss Cox rallied and it was thought that it would be successful. However a sudden change for the worse occurred and Miss Cox died. Dr. Chalmers was weakened by the loss of his blood but his condition is not serious.

Miss Cox was twenty five years old and was a native of Nova Scotia. She was graduated from the Baptist hospital in Boston and had been nurse in the Choate Hospital for about three years.

## A Baptist Pastor Married.

Rev. Fred F. Foshey, son of the late Rev. J. H. Foshey, was married on Oct. 20th to Miss Cassie May Whitman of Medford, Mass. Rev. H. J. Ballentine officiated. Rev. Milford Foshey of Manchester accompanied his brother, the groom. The bride was gowned in white chamois, with train and trimmings of real lace and pearl ornaments; she wore a tulle veil. Rev. and Mrs. Foshey left after the ceremony for Aylesford, N. S., where the groom is pastor of the Baptist church.

The Baptist churches of Halifax and Dartmouth united in a service of farewell in the North Baptist church, Halifax, to three devoted young women, who on Monday left for India to take up missionary work—Miss Jennie Corbett, of Paradise, Cambridge, Kings, and Miss Clara Mason, Rawdon, Hants.

## Letters to the Editor.

TO THE EDITOR OF THE ACADIAN: DEAR SIR.—Those who listened to Mr. John Bradford in the Baptist or Methodist church on Sunday must have been deeply impressed. If the Council and leading citizens of this town who heard him were not amazed to learn of the many things they are not doing, I have greatly miscalculated the effect of the address. This Athens of Nova Scotia should be foremost in every good work for the betterment of its citizens. I beg to offer one suggestion, and that is to refer to the town band. Those who heard the band play on the occasion of the visit of the Governor General, must have been struck with the youthfulness of the performers. In fact one might call our local organization a juvenile band. We should not allow these young men to become discouraged. They are practising regularly and are becoming surprisingly efficient under the leadership of Mr. Haystead, of Kentville. They are expending time and money to perfect a band that shall be a credit to the town, with little hope of reward beyond their joy in the work.

I know nothing about the state of the treasury, but it seems to me a grant might be voted by the Council towards purchasing music or defraying expenses. A Council that gets the revenue from a \$4.00 dog tax should not be hard up. A band is a municipal asset. It is a splendid advertisement. On certain public occasions it is indispensable. Moreover it is as much the duty of a town to provide for the recreation of the people as for good roads and street lights. There are in this town persons who cannot get out to the beach, who have no summer vacations, and who prefer to spend a summer evening in God's out-of-doors rather than lounge in the confinement of a Nicket, and who, moreover, should be encouraged to save their nickles and not to spend them; and besides many others more fortunate who would delight in an open air Band Concert. Such a concert would afford more than amusement. Music is a refining influence. It is educational, it has a real moral value in the life of the people.

I feel that this matter should be brought to the attention of the public in some way. If your readers do not think the band deserving of recognition and assistance let them have the good grace not to indulge in discouraging criticisms. The next thing to 'boasting' is not 'knocking.'

## Swimming Against the Stream.

It is like trying to do a successful business without advertising. It is not expensive to gain publicity, but it is expensive to lose it. Our Classified Want Ads. cost little and are read by nearly everyone. Try them as a system tonic for your business.

## WELL, WELL!

THIS IS A HOME DYE THAT ANYONE can use. It is guaranteed to dye all kinds of goods with the SAME Dye. I used it.

## Loss to Canada.

It is interesting to note to what extent provincial industry would have been increased if the pulpwood exported to the United States had been converted into wood pulp on Canadian soil. The 656,136 cords exported from Quebec would have supplied material for a year to forty five pulp mills of the average size operating in Quebec in Ontario, six mills of the average size could have been kept running with the pulp logs exported from that province. The 122,698 cords shipped from the ports of New Brunswick would have supplied ten mills of the average size, if the high production of 1909 be taken as the normal capacity of the mills of the province. More than twice the number of mills operating in the Dominion might now be at work if Canadians had been far-sighted enough to manufacture their own raw products.

## The Doctor's Question.

A doctor's first question when consulted by a patient is, 'are your bowels regular?' He knows that ninety-eight per cent of illness is attended with inactive bowels and torpid liver, and that this condition must be removed gently and thoroughly before health can be restored.

Regular Ordinaries are a positive, pleasant and safe remedy for constipation and bowel disorders in general. We are so certain of their great remedial value that we promise to return the purchaser's money in every case when they fail to produce entire satisfaction.

Regular Ordinaries are eaten like candy, they act quietly and have a soothing, strengthening, healing influence on the entire intestinal tract. They do not purge, grip, cause nausea, flatulence, excessive looseness, diarrhoea or other annoying effect. They are especially good for children, weak persons or old folks. Two sizes, 50c and 10c. Sold only at our store—A. V. Rand, The Retail Store.

## CITY CIRCULATION AGENT

OF LEADING Montreal Daily Endorses GIN PILLS. I have long years of suffering from Kidney Trouble—two boxes of GIN PILLS—and I'm all gone. That has been the experience of Mr. Eugene Quesset, Chief City Circulation Agent, of La Patrie, of Montreal. He describes it feelingly: "I have been suffering from Kidney Trouble for over five long years. I had also Rheumatism in all my bones and joints, but without relief and on some occasions could hardly walk. I had been treated by some of our best Physicians but without relief and I lost over fifteen pounds. One day I met one of our leading hotelkeepers, who had been cured by your famous GIN PILLS, and he advised me to try them. So I bought two boxes at my druggist's and before I had used one box I felt a big change. Before I finished the second one I was completely cured. I can assure you I can hardly believe it for if I had only known what I know now I would not have spent over One Hundred Dollars for nothing when two boxes of GIN PILLS would have done the trick."

GIN PILLS are gaining a world-wide reputation, and are being used by the most obstinate cases of Rheumatism and all kinds of Kidney Trouble. Price, 50c. for 25c. Sample free if you write National Drug and Chemical Co. of Canada, Limited, Toronto, 149

## Take a Kodak with you.

We say 'Kodak' advisedly. We do not merely mean camera, but the particular make of camera that bears the trade-mark 'Kodak.' The satisfactory results that it has given to our customers justify us in specifying 'Kodak.'

Your vacation will mean more to you, if you Kodak. Not only more pleasure at the time, but afterward, the added pleasure that will come from the pictures.

Let us show you how simple it all is by the Kodak system. Our stock is very complete and we are always glad to give photographic help to any amateur.
