Syrup" Those who have no used Boschee's German Syrup for some severe and chronic trouble of the Throat and Lungs can hard-

and Lungs can hardly appreciate what a truly wonderful medicine it is. The delicious sensations of healing, easing, clearing, strength-gathering and recovering are unknown joys. For German Syrup we do not ask easy cases. Sugar and water may smooth a throat or stop a tickling—for a while. This is as far as the ordinary cough medicine goes. Boschee's German Syrup is a discovery, a great Throat Syrup is a discovery, a great Throat and Lung Specialty. Where for years there have been sensitiveness, pain, coughing, spitting, hemorr-hage, voice failure, weakness, slip-ping down hill, where doctors and ping down hill, where doctors and medicine and advice have been swallowed and followed to the gulf of despair, where there is the sickening conviction that all is over and the end is inevitable, there we place German Syrup. It cures. You are a live man yet if you take it.

A Twenty Knot Steamship Service. BETWEEN ENGLAND AND CANADA.

The dominion government has entered into a contract, subject to the annotion of parliament, with James Huddart for the conveyance of mails, etc, by a swift steamship service between Eugland and Canada. The period is for tenyears with the option of renewal at the expiration of that time. Mr. Huddart is leaving for England to form a company with sufficient capital to provide for the building of four first-class steamships capable of steaming 20 knots an hour at sea. These steamships are to be fitted with the latest refrigerating appliances for the carriage of chilled beef and other meats, poultry, fruits, etc. The amount of annual subsidy will be \$750,000. It is Mr. Huddart's intention to unite the present Australian asteamship service with the prosposed new Atlautic service, and in order to give further accommodation on the Pacific route, upon Mr. Huddart's arrival in England, next week, he will immediately place an order for a third steamship for the Australian service from England to Australia via Canada by a combination of the two steamship services and the Canadan Pacific rallway. The Canadan reminus will be settled after examination as to where the most traffic can be secured. It is expected that the British government and the Australian colonies will subsidize the new line, as this new imperial route will be the swiftest result for Australia and New Zealand and the mails will be carried absolutely through British territory.

The Soverign of a little Greek island during the middle ages styled him-self: "The Protector of Religion. whose Fame is Infinite, who Exceeds the Sun, the Moon, the Unexpanded Buds, the Stars, the Jewels; whose fame is Infinite, who Exceeds the Sun, the Moon, the Unexpanded Buds, the Stars, the Jewels; whose

The Baleful Blood Bitters Bottle of Childhood Days, and What It Contained.

Whenever I see the snows beginning to telt and signs of spring to make themseles unmistakable known I remember with How mother used to dose us poor little un fortunates with home made bitters! And fortunates with home made bitters! And we had to be the ministers of our own punishment. We had to secur the woods for ground hemlock, cherry bark and princess pine, which were to be stewed up together mixed with liquor of some kind and then poured down our devoted throats to clear our blood and tone up our system. Ugh! the taste of it, like 'her bright smile' in the old song—it haunts me still. Very often there was warmwood in it. Next to the little suphur bags we were around our bags we were

hey would not be so hasty in deserting the farm Who ever heard of 120,000 farmers being on the verge of starvation, as President Gompers of the Federation of Labor states to be the case with laboring men in the city of New York? Or who ever heard of even one family who approached that terrible condition in any farming country in the provinces or states named? No, no, the trouble is we have not good farmers enough, and all because the best and ablest of our young men go away in search of the glittering bauble called "Weath" instead of taking there places at the old homesteads as they should, and living in yialn ways, respected and beloved, being sure of independence, and a longer life of usefulness.

With modern epiplane the farm work is nearly one half more easily and quickly done than formerly one half more easily and quickly done than formerly -Bishop Haygood, of the Methodist
