

BEAVER

"BEAVER FLOUR" is the unfailing friend of the housewife. It saves her the trouble of keeping two kinds of flour—one for bread and another for pastry. Being a perfect blend of Manitoba Spring wheat and Ontario Fall wheat, it gives to bread the rich, nutritious properties of the former and the lighter qualities of the latter, making a large white loaf of delicate texture and exquisite flavor.

Pastry, biscuits and cakes, made with BEAVER FLOUR cannot be excelled. Ask your Grocer for it today.

Talking to the Point

Our Classified Want Ads. get right down to the point at issue. If you want something say so in a few words. The intelligent reader likes that kind of straight-from-the-shoulder talk and that is one reason why our Classified Want Ads. are so productive of the best kind of results. Whether buying or selling they will help you.

The Key to the Situation

If you are looking for a situation a Classified Want Ad. is the key which will unlock the door to the private office of the business man. He is too busy to interview all promiscuous callers, but you can catch his attention and secure an appointment by a "Situation Wanted" ad.

A SUMMER IN THE ROCKIES

Mr. A. O. Wheeler, F. R. G. S., Director of the Alpine Club of Canada, has just returned to Vancouver from a summer spent in the Canadian Rockies in the vicinity of the Yellowhead Pass, and is greatly impressed with his trip.

In an interview with Mr. Wheeler, he stated "It has been the general impression that the Rocky Mountains of Canada attain their greatest average height not very far north of the Robson, which dominates the region of Yellowhead Pass, but the popular notion was that there was nothing else in the neighborhood worth seeing, and that the Grand Trunk Pacific would pass through a region of little interest from the point of view of the tourist mountaineer.

There was no mistake about Mount Robson. It is without doubt, as was stated by one of the most travelled and skilled mountaineers of the day, Dr. Norman Collie, one of the most magnificent mountains in the world, whether seen from the south, the view that is most familiar; or from beautiful Berg Lake, it still stands supreme. In the hundred mile circuit of the great massif on all sides were found mighty snow-clad peaks, widespread snowfields, huge ice-falls, rushing torrents, waterfalls, flower-clad meadows and vast stretches of dark Pine forest. Many of the peaks were named by the surveyors, but they are legion, and it will be many years before they are all familiarly known as individual mountains.

In speaking of the Robson Glacier, which lies on the east side of the monstrous mountain, Mr. Wheeler said: "It struck us dumb with amazement that anything so stupendous, so superb, so undreamed of should exist. At our feet flowed the great river of ice, every crevasse, every moraine, every icefall, clearly portrayed. Directly opposite rose the mass, its outlines clear from base to summit, for fully 8000 feet. From the beautiful meadows at the head of Resplendent Valley twenty-five peaks were counted all unknown and unnamed. All lakes, which perhaps lend the most characteristic charm to Canadian Mountain scenery were everywhere.

"At the summit of the Yellowhead Pass, Mr. Wheeler's party erected a monument defining the boundary between Alberta and British Columbia at the intersection of the Great Divide. On the huge post set up, which is surrounded with a big stone mound, are carved the words "British Columbia on the west face; Alberta on the east face and on the south 3727-98 feet being the altitude of the summit, at the point where the poet is set

FINISHING THE G. T. P.

Clearing of right of way on the uncompleted gap of the Grand Trunk Pacific Railway from Tete Jaune Cache westward to Aldermore in Bulkley Valley, was started a few weeks ago by the contractors, Messrs. Foley, Welch & Stewart. Operations thus far are restricted to the route along the south fork of the Fraser between the Cache and Fort George.

Every Woman

is interested and should know about the wonderful MARVEL Whirling Spray. The new Vaginal Syringe, Best Menstrual Hygiene. It gives instant relief from all menstrual troubles. It gives full particulars and directions to ladies. Write to WINDSOR SUPPLY CO., 100-102, York St., Toronto, Ont.

BURNING FATALITY

A sad burning accident took place on Tuesday at Richardsville whereby the young son of Joseph O'Keefe lost his life. In the absence of his mother the young child climbed upon a burning hold of soap. He was wearing clothing which he had brought his father had brought the child in the flames. The child was burned about the shoulders of his body and died about 12 hours later.

PUBLICATIONS OF THE INTERNATIONAL AGRICULTURAL INSTITUTE

The new number of the bulletin "The Publications of the International Agricultural Institute" gives the latest data concerning the Wheat, Rye, Barley, Oat and Corn crops of the world.

Estimates of the wheat crop received by the Institute from twenty countries of the Northern Hemisphere (Austria and the Ottoman Empire being the only important omissions) show a total of 3,048,927,000 bushels compared with 3,034,879,000 for the same countries last year. The 1911 production of the countries so far reported is thus 100.5% of last year's production.

No estimates have yet been made for the countries of the southern Hemisphere—Australia, New Zealand, Argentina and Chili, whose harvest will begin in December.

For fifteen countries reporting the rye crop of 1911 is 1,364,804,000 bushels compared with 1,416,169,000 for the same countries last year.

Estimates for barley in 18 countries show a total of 1,127,858,000 bushels compared with 1,128,121,000 last year.

The oat crop of 17 countries so far reported is 2,838,221,000 bushels compared with 3,151,125,000 last year.

The bulletin contains many brief articles and summaries of articles, written by scientific experimenters and others, which have appeared in official bulletins and other trustworthy publications issued by the foremost agricultural countries of the world.

References are made to the following subjects, which are of peculiar interest:

The Kavite or Butter-tree grows in Central Africa and from it a vegetable butter is produced. The tree grows to a height of nearly 54 feet. The butter is made from the fatty substance found in the seeds. The butter has a slight odor of cocoa. It finds a ready sale in European markets.

An item refers to the product of a cross between the tomato and the pepper, known as the peppertomato. In appearance, it resembles the tomato. As the tomato and pepper plants are closely related, it is supposed that the tomato blossom was fertilized with the pollen from the capicum.

It has been concluded by an Italian investigator, who has gone deeply into the study of the form and performance of cows, that the largest production of milk corresponds with the largest girth and the heaviest weight of the animal.

Under the head of Farm Machinery a description is given of an electric wind motor used in Danish agriculture.

The apparatus includes a windmill, a dynamo, a battery with automatic accumulators, a switch-board, and an automatic tension regulator for lighting purposes. The installation expenses for a farm with 40 incandescent lamps and a 3 to 5 horse power motor is said to be about \$1435.

A method of determining the age of eggs is described. It is to float the eggs in a large tumbler of water in which has been dissolved a tablespoonful of ordinary table salt. An egg one day old will fall to the bottom of the glass; if older it does not reach the bottom; if three days old, it sinks only just below the surface and the older the egg, the more it protrudes above the surface of the liquid.

Nash's Creek

On Monday Oct. 31st in St. Joseph's Catholic church a very quiet but pretty wedding took place when Miss Beatrice Melanson was united in marriage to John McNair in the presence of intimate friends and relatives. Rev. J. J. Lambert performed the ceremony. The twin brothers of the bride served Mass. The bride was becomingly attired in a dark blue travelling suit with hat to match and carried prayer book. She was given away by her brother Ulric Melanson while the groom was supported by Fred Hickie. The children of Mary sang hymns during Mass, a society of which the bride was a member. Immediately after the ceremony the happy couple left on the 8.20 train for a honeymoon in the Adirondacks. The wedding was attended by many friends.
