Here and There

In the last fiscal year 3,843 home-
stead entries were granted in the
Prairie Provinces, aggregating an
approximate area of 614,880 acres,
while, in addition, 710 soldier grants
of 113,600 acres, make up a grand
total of 728,480 acres so settled.

In 1915 Canada exported no wheat
to China. In 1918 she sent only eight
bushels to Japan. In 1924 China
imported over 5,000,000 bushels of
Canadian wheat and over 1,500,000
barrels of flour, while Japan took
7,000,000 bushels of wheat and 110-
000 barrels of flour. It is predicted
these figures will be well beaten for
the current year.

The Grand Challenge Cup, emble-
matic of the First Aid Championship
of the entire system of the Canadian
Pacific Railway, will be competed for
at the Place Viger Hotel, Montreal,
November 15. The champions in a
knock-out competition among Eastern
and Western teams respectively,
will fight it out for the trophy.

Plans are already being laid to
make the 1925 Eastern International
Dog sled Derby an even greater suc-
cess than in any previous year, and
it is reported that the prize money
will be considerably increased next
winter, with the object of attracting
more teams and mushers from the
West and the United States.

Fire Prevention Week, October
8-10, was observed throughout the
Dominion, and to mark the sense of
the importance of the occasion Mr.
Grant Hall, vice-president of the
Canadian Pacific Railway, broadcast
an appeal by wire to every officer
and employee of the system "to co-
operate as in the past and set a good
example by thoroughly cleaning up
all premises."

Canada's great outlook, says a re-
cent issue of the London Outlook, is
that she wants more people, but of
the right type, namely, steady agri-
cultural workers with enterprise,
initiative and endurance. Enthusiastic
letters from emigrants under the
joint scheme of settling 3,000 fami-
lies in Canada are bound to have their
healthy effect on relatives and
friends dissatisfied with their lot in
England.

E. F. L. Sturdee, general Pas-
senger Agent for the Orient of the
C.P.R., with headquarters at Hong
Kong, has been appointed Assistant
General Passenger Agent of the sys-
tem at Montreal. His duties com-
menced here in October. He was re-
lieved of his other work owing to
ill-health, but the climate of Canada
soon restored him to physical well-
being. He has a long record of ser-
vice with the C.P.R., dating back to
his first appointment at Saint John
in 1894.

Sixty bushels of wheat at every
tick of the clock is the rate at which
the Canadian Pacific Railway have
carried the grain into the elevators
this season. To keep up this unpre-
cedented rush, it has been necessary
to move one car-load of grain out
of Winnipeg at every one minute
and twenty-three seconds of the
twenty-four hour day. Grain deliv-
ered at the head of the lakes by
the Canadian Pacific in September
alone would fill a fleet of 200 ships,
each with a cargo of 200,000 bushels.

Back from an extended tour of
inspection over the company's west-
ern lines, E. W. Beatty, chairman
and president of the Canadian Pa-
cific Railway, found a very marked
improvement in the West as com-
pared with that which had existed
when he last went across the coun-
try. He thought the spirit of the
people was much more optimistic
and with very good reason since he
considered it safe to say that 380-
000,000 bushels was not too high an
estimate for the total Canadian
wheat yield this year. He noticed
throughout the country a sustained
interest in immigration and a more
general realization that therein lay
the soundest remedy for most of
Canada's difficulties.

**PREFERS AUTOS TO
A MODERN HOME**

NEW YORK, Oct. 22.—Escape from the monotony rather than the drudgery of the housewife's lot has caused her to choose luxuries instead of conveniences, concludes the General Federation of Women's Clubs after a canvass on "what women want in their homes."

The average American housewife prefers an automobile and a telephone rather than have modern plumbing arrangements in her home, because "these offer relief from a monotony that has driven many of her predecessors into insane asylums."

The Federation's findings were written by Mrs. Mary Sherman, national president of the Woman's Home Companion.

"The housewife does not mind washing stacks of dishes under the glow of an electric globe, but the task doubles or triples if she must do it by the smoky dim light from a kerosene lamp," said Mrs. Sherman. "She does not mind sweeping the lower floor of the house if she knows that at the end of her task she can set down and chat via the telephone with a neighbor six miles away, and she will beat rugs for an hour—if the evening brings relaxation of an automobile drive."

While 65 per cent of a large number of homes investigated were found to have inside sanitary arrangements and 59 per cent of them had bathtubs, 70 per cent of these families had automobiles and 68 per cent of them were equipped with telephones.

The research made by the Federation covered 445,987 homes scattered through 237 communities. In 40 per cent of the homes it was found that there was no stationary washbowl and water had to be carried in and out, and 25 per cent of them were not even equipped with kitchen sinks. But 87 per cent, had electric light, and 73 per cent were equipped with electric irons.

Radios were found in 17.6 per cent of the homes, pianos in 46 per cent, phonographs in 50 per cent.

In discussing the high percentage of homes equipped with automobiles and telephones but not with plumbing, Mrs. Sherman declared,

"Sentimentalists will say that the fault lies with the men. But we club women who study conditions from the inside of the home understand the situation better. Women no longer undervalue their services in the home. They run their homes on the budget plan and have personal allowances to spend as they like.

"Then why do they choose luxuries instead of conveniences? Why does the automobile take precedence over the stationary tub, the telephone over the vacuum cleaner, and the Radio over the power run sewing machine?"

"Because the housewife for generations has sought escape from the monotony, rather than the drudgery of her lot. She can and does endure toil, actual physical labor, patiently and cheerfully; but she breaks physically and nervously under monotony.

The automobile, the telephone the talking machine or radio offer the modern home maker the escape from the monotony which drove many of her predecessors into insane asylums.

**AIM TO ABOLISH
DEATH PENALTY**

New York, Oct. 22.—Sponsored by a group of lawyers, physicians and penologists, the League for the Abolition of Capital Punishment will open a three day conference in this city tomorrow for the purpose of completing its organization as the first step in a movement to outlaw the death penalty throughout the United States. Sessions of the conference will be public and will be addressed by noted criminologists, surgeons, psychologists, and prison officials.

Among the men and women of prominence who have given their active support to the movement are Senator Royal S. Copeland, Dr. Raymond T. Rye of the University of Pennsylvania, Dudley Field Malone, Clarence Darrow of Chicago, Lewis F. Law, Warden of Sing Sing Prison; Mary Gertrude Fendall of Baltimore, Amos Pinchot of New York, and Gilson Gardner of Washington, D. C.

**CANADA UNDER
KING NOTHING BUT
A PUBLIC NURSERY**

"That Canada under the Mackenzie King Government was nothing else but a public nursery for the United States," was the stirring declaration made by ex-Ald. H. H. Warman of Moncton, to a large and enthusiastic gathering of the electors which packed the school house at Breaux's Creek to utmost capacity last evening.

The meeting was called to order at 8 o'clock by the chairman, Mr. J. A. Hicks, who presided in a most efficient manner. Other speakers, included Messrs. B. H. Gilbert, Ephraim LeBlanc, Leo J. Doucett and H. G. Palmer. The audience was a most attentive one, and a feature was the large attendance of ladies. Each of the speakers was accorded a fine reception.

The meeting closed with votes of thanks to the speakers and three cheers for Dr. O. B. Price, followed by the singing of the National Anthem.

Great Soprano Grets "Grand Young Man" of C. P. R.

Maria Jeritza, famous singer, at Canadian Pacific Windsor Station, Montreal, with a bouquet presented to her by her friend Col. George H. Ham, of the C. P. R. (Inset) Candy roses in a candy vase presented by Mme Jeritza to Colonel George H. Ham.

"How is Colonel George H. Ham of the C.P.R.?" This was one of the first questions asked by Maria Jeritza, the most celebrated soprano of our time, when she visited Montreal on October 9th, 1925. She expressed regret when she learned that the Dean of Canadian Journalists was indisposed, and she sent him a bouquet of candy roses in a candy vase with the wish that his life may long continue to be "lovely as the roses and sweet as the candy." Colonel Ham sent Jeritza a bouquet of cut flowers.

When Jeritza was last in Montreal on March 12th, 1923, Colonel Ham conducted her around Canadian Pacific Windsor Station. Since that time she sang in many countries, being hailed everywhere as a goddess of song and a queen of beauty. Seldom, if ever have such personal charms and the gifts of a great voice and wonderful dramatic powers been combined as they are in Maria Jeritza.

A few weeks ago she sang in Covent Gardens, London, with great success, winning the plaudits of great audiences. Jeritza includes English in the many languages she speaks, and at Windsor Station, Montreal, she had an interesting chat with the engine men who guided her train to Toronto, where she sang on October 10th. She gave the engine men some roses from bouquets received from appreciative members of her Montreal audience. In private life, Maria Jeritza is the wife of Baron Popper of Vienna, described by Colonel Ham as "one of the finest looking men I have ever seen." Baron Popper stands well over 6 feet in height. He and the golden haired, blue eyed, pearly mouthed soprano make a perfect pair. Jeritza spends most of the winter singing at the Metropolitan Opera House, New York.
