THE WORLD OF LABOR.

NEW YORK CENTRAL TRAINS AGAIN RUNNING.

The Road Claims To Have Won a Complete Victory—The Big Tie-up in Westinghouse Machinery at Pittsburgh Strike for a 9-Hour Day.

NEW YORK, Aug. 12.—Affairs at the Central-Union depot here are assuming their normal condition. Freight is expected, will be received by the road in the morning. The men still talk confidently of victory.

ROCHESTER, Aug. 12.—All trains on the Central-Union passed through this city nearly on time to-day. Freight trains are moving east and west.

Returned to Work. FORTA, N.Y., Aug. 12.—The New York Central switchmen and baggage masters here who went on strike have with one exception returned to work.

Powderly Will not Talk. BUFFALO, Aug. 12.—V. Powderly passed through Buffalo to-day to attend a meeting of the General Executive Committee of the K. of L. He refused to discuss the strike.

UP GO EGGS, FRUIT AND MILK. Delay in Transportation Raises the Price of Provisions.

NEW YORK, Aug. 12.—Prices of some kinds of provisions have already been affected by the strike. At the Mercantile Exchange yesterday the price of eggs advanced to 18 1/2 and 19 cents. They were 17 cents on Saturday. The price of fancy butter also went up half a cent. Cheese is also likely to be higher if the strike continues. As trade in cheese is mostly for export and the quantity used in home consumption is small that is not an important item to the general public. The effect, though, will be to send cheese for shipment to Montreal which otherwise would have come here.

Fears sold for the highest prices they ever brought in this market. Two carloads of 184 boxes sold for an average of \$4.50 apiece. The highest figure was \$5 a box for 105 boxes. Peaches and plums also advanced and the price of milk went up a cent a quart.

THE STRIKE IN WALES. Trade Completely Paralyzed—John Burns Goes to Help the Strikers.

LONDON, Aug. 12.—John Burns, the labor agitator, has gone to Wales to assist in carrying out the great strike. No words can exaggerate the state of the complete paralysis of trade of all sorts in Wales. Huge collier sailing vessels and steamers and great ocean liners are lying at the docks in absolute idleness, for there is not a ton of coal in sight to put into them. Meanwhile, from the adjoining districts, such as the accustomed to come by the new railroads, come complaints of shortness in the supply of provisions, diminished and dwindling trade, as well as grave personal inconvenience in consequence of the demands of the strikers and the district is filled with police, while the military is held in readiness for any emergencies all along different points of the line.

Australia's Shipping Trade Threatened. MELBOURNE, Aug. 12.—A complete suspension of the shipping trade of Australia is threatened in consequence of the demands of the Marine Officers' Association for an increase of pay. The seamen's union, the dockmen's union and other trade societies support the marine officers, and the situation is made worse by the action of the sheavers' union, which demands that shippers shall refuse to handle non-unionist work.

Machinists Demand 9 Hours. PITTSBURGH, Aug. 12.—The strike of machinists for a 9-hour day is spreading and about 3000 men are now idle. The principal fight seems to be against the Westinghouse interests and to-night it is said all the employees of the Westinghouse Electric Company's works, Westinghouse Machine Company, Westinghouse Air Brake Company and Union Switch and Signal Company, the demands of the men have been conceded at a number of shops and work has been resumed.

TORONTO TOPICS. Lord Stanley and Prince George to Be Invited to the Exposition.

TORONTO, Aug. 12.—The Toronto Industrial Exhibition Association has decided to invite Lord Stanley and Prince George to visit the show during the week after it opens in September.

Last evening while J. J. Withrow, a prominent manufacturer, was out driving his horse ran away. He held it so firmly that it stopped running and began to kick. It kept running over his dashboard and broke his right knee-cap in three places.

Jumbo Campbell, the park orator, went to the police headquarters yesterday morning and complained that the plate glass window in his store in Queen Street had been broken by some one who threw a stone at it about 3 o'clock in the morning. This is the second time his window has been broken. Campbell is the man who was arrested on a charge of using indecent and insulting language in the Queen's Park after his response in support of Roman Catholics there on Sunday afternoon and there is a good deal of feeling against him.

The strike of employees on the New York Central has not materially affected the local trade, merchants say. As neither the Grand Trunk nor Canadian Pacific are directly affected, arrangements were perfected early in the morning to transfer all cars laden with Canadian freight to branches of these lines, and the only inconvenience merchants will be put to is a delay of a few hours in the receipt of their goods, or in the arrival of shipments at points in the Eastern States.

Shortly before noon yesterday an accident occurred which may result in a charge of manslaughter against Adrian Elliott, who drives for Fred Doane, the Young-Strater livery man. The injured man, William Brown, was working on the new pavement at Yonge and Broad-avenue-roads and was assisted by two other men in bringing up a wagon. Brown had the tongue against his abdomen, crossed to the wrong side of the street and endeavored to get past but collided against Elliott, jamming the tongue of the wagon into the man's stomach. He was conveyed to his brother-in-law's residence, John Gibson, at 213 Yonge-street, where he lies in a critical condition.

To Give Women the Ballot. WASHINGTON, Aug. 12.—Senator Blair, in behalf of the majority of the members of the Woman Suffrage Committee, to-day reported favorably a proposed constitutional amendment to give women the right of suffrage.

HE WILL NOT ACCEPT.

Mr. Wiman Declines Four Nominations for the Commons.

NEW YORK, Aug. 12.—Mr. Erasmus Wiman had much to say yesterday concerning the report that he would try to become a Canadian member of Parliament at the coming elections. Four Liberal constituencies, he said, had offered him their nominations, but his business interests as well as his preference to live in New York had prevented him from accepting any one of them. The coming election, he said, will have most far-reaching consequences and its significance has been intensified by the probable passage of the McKinley Tariff Bill, which would shut out from the market by means of the United States half of the Canadian export of natural products.

Three cents duty per head on cabbage is the extreme form of exaction that has been enforced by an article of which paper labor formed no part, and so for five cents per dozen on eggs, 4¢ per ton on hay and every other article the farmer produced. There is only one hope for the Canadian producer and that is a reciprocity that would admit of American manufactures from an exchange for Canada's natural products. To achieve this result is the aim of the Liberal party, and although I cannot occupy the position of leader I hope by voice and pen to contribute to its triumph.

Mr. Wiman then took up the subject of the conflict of interests between the American and Canadian railroads and the significance of the coming elections for settlement of the problem. Unrestricted reciprocity, he said, is the only way in which the International Transportation question can be settled.

UNDER SENTENCE OF DEATH. The Prisoners Awaiting the Fatal Wire and Their Crimes.

ALBANY, N.Y., Aug. 12.—There are now five prisoners under sentence of death in the New York State prison at Dannenberg. They are James J. Sing, Sing, John Sing, James J. Sing, Joseph Woods and Nicola Trezza occupy "Murderers' Row" in that prison under the charge of special keepers. In all the cases which have not yet been ready for the court of last resort appeals are to be taken immediately. Among the officers at Sing Sing, said an officer of that prison, "much sympathy exists for Tchibko Judge, the Japanese sailor. He is a quiet and inoffensive prisoner, and the belief has gained ground that the whole truth has not been told by the witnesses on his trial. He, however, acknowledges the killing of the Japanese sailor. SALVATOR WINS AGAIN. The Palfiser Colt Four Lengths Behind Haggins' Horse.

MONMOUTH PARK, Aug. 12.—About 20,000 people witnessed the races here to-day. Every horseman of any prominence in the country was present, attracted by the Junior Champion and Champion Stakes. The weather was magnificent and the track, while not absolutely fast, was in good shape.

Results: First race, 1/4 mile—Meriden 1, My Fellow 2, Bellwood 3, Time 1:30.

Second race, Junior Championship Stakes, for 2-year-olds, 10,000 added, 1/2 mile—Strathmore 1, Sallie McClelland 2, Potomac 3, Time 1:19 1/2. This was one of the prettiest races seen. The flag fell at the second attempt with Sallie McClelland, Strathmore and Ambulance in front. Ambulance led by a neck for a quarter and that gave way to Potomac, who came up from fifth place. Ambulance again showed in front at the 1/4 mile post, while Potomac was second, a length and a half behind Sallie McClelland. The last named had the command within a furlong from home only by a head from Potomac, who led Strathmore half a length. Murphy rode desperately in the last few jumps and snatched victory from Sallie McClelland by the shortest of noses. Potomac was third, only a nose behind. Then came Rey del Rey half a length away, followed by Russell, Ambulance, Kidder, Long Fortune, Sorocoro, Bernda, Honer, Surplus, Balgown, Fairview, Barber, High Tariff, Sirocco, Fireworks and Killman.

Third race, The Champion Stakes, 2500 added, 1 1/4 miles—Oni Salvator 1, Tenny started. At the start Salvator was shown in front on the outside and he under a double pull. For 5 furlongs he was in this order. Then as they struck the turn for home he let himself go and he shot to the front, getting a lead of half a length. Murphy at once sent Salvator after him and when they rounded into the stretch he was at the little way back neck. From that point to within 3 furlongs of home he was a pretty race. All of a sudden Murphy commenced to ride Salvator and the shout went up, "Tenny is beaten." It was true. When Murphy found he had been beaten he ceased Salvator, and Garrison did the same thing. It was a fine finish, Salvator winning by four good lengths. Time, 1:35 3/4.

Fourth race, 3/4 mile—Accla colt 1, Vanity 2, Meteor 3, Time 1:19.

Fifth race, 1 1/4 miles—Eurus 1, Eric 2, Slugger 3, Time 1:55 1/2.

Sixth race, 1 mile—Grey Dawn 1, Arab 2, Sam Wood 3, Time 1:42 3/4.

Shot By a Wronged Husband. CHICAGO, Aug. 12.—Dr. O. Sawyer was shot and probably killed to-day by J. Barton Sancher, who claims to be a correspondent of the Chicago Horseman. The trouble was brought about by the alleged intimacy between the doctor and Sancher's wife. Sancher, who is locked up, claims to have secured confessions of the intimacy from both his wife and the doctor. The shooting was done in a fight growing out of the doctor's refusal to put his confession in writing.

The Erie Buys a Chicago Entrance. INDIANAPOLIS, Aug. 12.—The Chicago and Atlantic Railway was to-day sold to Drexel, Morgan & Co. of New York for \$5,000,000. The purchase was made in the interest of the Erie Railroad, and will give that road an entrance into Chicago.

While in a barn with their cousin, looking at some sheep just purchased, lightning struck the barn, killing two of the sheep, stunning Mr. Currie (his cousin), and doing other damage.

Judging by the number of sheep here than at first at a temperance Convention here, are shipping agents to Toronto, and the number so far are very great. Mr. Jas.
