It is a portable radiator which can be moved to any part of a room, or to any room in a house. When you have a MILLER OIL HEATER (absolutely smokeless and odorless) you do not have to work close to the stove, which is usually far from the window, you can work where you wish and be warm.

### Board of Trade.

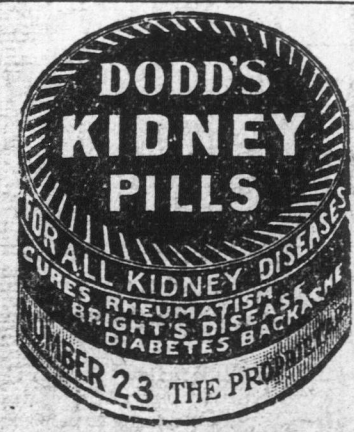

We congratulate Hon. W. C. Job on his election to the Presidency of the Board of Trade. Mr. Job has shown a keen interest in its progress since its inauguration and was one of the most ardent of its projectors. With his lively interest in public affairs, and his geniality and tact in dealing with men, favourable progress may be predicted for the Board of Trade under his auspices. It is also a matter of congratulation to the Board that the services of Mr. Fearn have been volunteered and accepted for another year. The success of the Association must largely depend on its enthusiastic workers. We note also that Mr. Gosling, who is second to none in the class just referred to, has had his merit recognized by his election as First Vice-President. It is a curious circumstance that the elevation of Messrs. Job and Gosling has taken place in their absence.

### A New Ladder Truck.

While Inspector General Sullivan was abroad we learn that he gave particular attention to the securing of a ladder truck for the fire department, and one which would be particularly adaptable to the requirements of this city. The best which he could find he secured at Elmira, N.Y., where trucks at once light and strong are turned out, and one of these he purchased from the L. F. Seagrave Ladder Co. of that city. It cost \$1,000, and will be drawn by two horses. This is certainly a step in the right direction, as our firemen were often impeded in their work by the tardy arrival of ladders, which often had to be drawn by men over long distances to the scene of an outbreak. When this truck is in commission it will arrive at fires with the rest of the apparatus and will be immediately available to the firemen. We congratulate Mr. Sullivan on the acquisition of this requirement.

### A Frosty Snap.

To-day is far the coldest of the season and many say it is the coldest for the past three years. After the storm last night the mercury began to drop and at 3 a.m. to-day the glass recorded 3 below zero in the city. It was 2 below at the signal station at that hour, but at 10.30 it registered 1 below. All day there was a vapor of frost on the waters of the harbor and on the higher levels; high N.W. wind blew with intense frost. It registered 4 below zero on the upper parts of the city early this morning.

### Fire Alarm.

The City Fire Department has just installed 5 Gamewell Fire Alarm Boxes in the following places, viz. one each at the Church of England Orphanage, Belvidere, Methodist Orphanage, Hamilton St., at Alexander Street and Freshwater Road. The boxes at the orphanages were installed there because Inspector Sullivan saw the great necessity there existed for them at these places, and at his request the Government gave him permission to place them at these institutions. Each orphanage shelters a number of little helpless children, with no male attendant and none to act in an emergency except frail and timorous females. With these boxes installed the inmates, if an outbreak of fire occurs, need not go outside for help but can be assured of such at short notice.

Mr. Sullivan's foresight in putting these boxes in the orphanages is worthy of all praise for their presence may be the means of preserving the lives of many persons.

### Kidney Misery and Backache Vanishes.

No reader of this paper, whether man or woman, need be miserable because of Backache or kidney or bladder disorders.

The time to cure kidney trouble is while it is only trouble—Before it settles into Dropsy, Gravel, Diabetes or Bright's Disease.

Pape's Diuretic acts at once upon the kidneys, bladder and entire urinary system, cleanses, heals and regulates these organs, ducts and glands, and completes the cure within a few days. The moment you suspect any kidney or urinary derangement, or feel a constant dull backache or notice that the urine is thick, cloudy, offensive or full of sediment, irregular of passage or attended by a sensation of scalding, you should begin taking Pape's Diuretic as directed, with the knowledge that there is no other remedy, at any price, made anywhere else in the world, which will effect so thorough and prompt a cure.

Misery in the back, sides or loins, sick headache, inflamed or puffy eyelids, nervousness, Prostatic trouble, rheumatism and darting pains, heart palpitations, bilious stomach, dizziness, sleeplessness, listless, weak, worn-out feeling and other symptoms caused by inactive, sluggish kidneys simply vanish. Uncontrollable urination (especially at night), smarting, discolored water and all bladder misery ends.

Your physician, pharmacist, banker or any mercantile agency will vouch for the responsibility of Pape, Thompson & Pape of Cincinnati, who prepare Pape's Diuretic—50 cent treatment—sold by every druggist in the world.

### Policeman's Shop Burglarized.

Sunday night some thief entered the shop of Const. Rd. Koebe, at the corner of William's Street and Hayward Avenue, and getting inside the counter stole all the cash in the till, about \$4 or \$5, and also got away with some clothing and other effects. There is a bell over the entrance which rings when the door is opened, and this it is believed the thief muffled when he entered so that none could hear him. Who the thief is is not yet known, but it looks as if a practical hand is at work again in the city.

### Labor Members Hold Up House.

Special Evening Telegram.  
MELBOURNE, this morning. Extraordinary scenes marked the progress of the bill for the Redistribution of Seats in the State Parliament of West Australia. The measure was hailed with hostility. The Labor members resorted to obstruction tactics to delay its passage and for twenty-nine hours kept the house sitting by delivering speeches until they were obliged to give up from exhaustion. During the sitting six members of the Labor party were ejected. One Laborite showed fight and the service of the police were required to remove him. The uproar at times was so loud that the speaker was reduced to a state of helplessness, and finally the Labor party withdrew from the House in a body. Progress having been made with the bill, the assembly adjourned. The bill will be carried into law in spite of the opposition of the Labor members.

### Board of Health.

We hear that it is contemplated to make a change in the Board of Health. On account of the increase of typhus fever and the likelihood of its becoming epidemic, it is realized that nothing should be left undone and that the "go-as-you-please" system will now not do. There is considerable discussion going on in the city to-day about the possibility of the disease spreading. Four or five zealous citizens who could give an hour or two a day to such duties would be a great help to Dr. Brehm.

### Shipwright Very Ill.

Mr. Moses Parrey, shipwright, residing on Flower Hill, is dangerously ill and doubts are entertained about his recovery. He is a well known builder, and the six boats turned out for the Hudson Bay Co. here last winter were built by him. He was also under contract this winter to build six more. He worked with the Tug Company for several years, and built the "John Green," at Indian Arm, N. B., in conjunction with Mr. Humby.

The same thing was witnessed at King's Bridge Road yesterday.

**DIPHTHERIA AT FLATROCK.**  
A case of diphtheria developed at Flatrock Saturday in the house of Mr. Kavanagh and another case developed to-day. The person stricken with the disease Saturday is 42 years old, and a child aged 7 developed it to-day.
