Indianapolis, Ind., Oct. 4.—Not only evidence of the alleged illegal inter-State shipment of dynamite and nitro glycerine, but also evidence as to what

were done with the explosives will be admitted at the trial of the 46 men

accused of complicity in the "dynamite plots." Federal Judge Albert B.

Long extracts from letters already made public in the indictments were read to the jury alleging that Ryan wrote to union officials in Clinton, Iowa, Cincinnati, Omaha, New York, and Boston, about paying money for explosions there and that all the present defendants are "linked together in guilt by an extensive correspondence." AND RE-FLOATED. Mr. H. W. LeMessurier, Assistant

Collector of Customs, received the subjoined message last evening from West St. Modcste:-"S. S. Bengore Head, outward bound from Montreal, with gener-

al cargo, struck Flower's Ledge, on Saturday; she was got off without much damage and is now lying at Forteau awaiting orders." The Bengore Head is well known

here and has been in trouble before It may be remembered that the stcamer, which was 23 days out from Marysport, Cumberland, bound to Sydney with a load of manganese iron, was drifting helplessly towards the Virgins and was luckily picked up by the Al-lan Line steamer Pomeranian which was on her way to St. John's. The hawsers were broken, the last one parting when the steamers were about ten miles from this port. The Bengore Head then became a floating dere-lict and was left to the mercy of the wayes; coal had run short and all the wood work of the ship had been consumed as well. The Bonaventure and Wasis went after the prize and the former towed her to port on the even ing of January 22nd, 1910. Eighty thousand dollars (\$80,000) salvage was claimed and one-third of that amount was granted by the Admralty Court.

You'd drink more cocoa if you knew how good it is for you and how good it ought to taste.

Ordinary cocoa prepared in the ordinary way cannot give you the faintest idea of the real deliciousness of the finest cocoa.

To get the full delicious flavor you must use the right kind of cocoa and make it in the right way.

Lowney's, properly prepared, will show you how cocoa ought to taste.

The full, rich flavor of Lowney's Cocoa, produced at our factory in Montreal, is due to this; (1) the finest-flavored, most costly cocoa beans from the tropics are used; (2) the beans are skillfully roasted to bring out all their rich flavor; (3) beans from different countries are combined in proportions that make a delicious blend.

That is why you get a rich fullness of flavor in Lowney's not found in ordinary

Over this mixture pour gradually two cups of boiling water, and stir with the back of a spoon until it is a smooth paste. Then boil 5 minutes.

(The boiling is another step in bringing out the perfect flavor of Lowney's. It should be continued the full 5 minutes.) Finally, add two cups of scalded milk and beat with an egg-beater until frothy.

(Do not boil the milk. If you do it will form a scum on top of the cocoa. Simply heat it.)

These directions, carefully followed, will give you four steaming cups of the most delicious cocoa you ever tasted.
