Reid - Newfoundland Company.

MACKINTOSH Fibre Steel Studded Tyres.

An all-rubber tyre is unsuitable for our roads. Look at the cars of those who have been motoring here for years, and what do you see? Why, Steel Studded Tyres.

But steel studs in leather do not wear well, the leather cracks with the wet and heat, the studs work in through the tyre and puncture the inner tube.

This is where the Mackintosh Patent Tyre scores, the studs are embedded in fibre which is not affected by wet or heat, it does not crack, and the studs do not work inside the cover, and the fibre is puncture-proof. A car wearing these Tyres last year and this has not had a single puncture, and every cover has given over 4,000 miles of running before wearing out.

A new shipment just in, call and see them.

BISHOP, SONS & Co., Ltd.,

DICKS & CO., Limited.

Job Printing Executed.

WARNING!

IN THE INTEREST OF THE PUBLIC SAFETY.

The Rifle Range on the South Side Hill will be in constant use, from daylight till dark, for musketry practice, until our Regiment leaves for England.

All persons are therefore prohibited from approaching the Rifle Range within 200 yards from either side, or within 1,000 yards of the targets to the eastward.

Any unauthorized person so doing will be liable to arrest, besides incurring serious danger from rifle bullets.

A number of red flags will be used to indicate the Danger Zone. This prohibition does not extend to any part of the Hills west of the 800 yards Firing Point.

By order,
JOHN SULLIVAN,
Inspector General Constabulary,
ST. JOHN'S RIFLE ASSOCIATION,
W. H. RENNIE, Hon. Secretary.

His Open Countenance Is the result of our FINE DENTISTRY.

Are these splendid teeth his own? He need never admit the reverse because of the perfection of our work. Same services to you—sets so natural that you can always "own them as your own."
