# A COLD

Have you ever come out of a theatre, or church or over-heated room and felt, immediately the cold night air caught your throat and breathing passages, that you were going to catch cold? That is the time to take Peps. Two or three Peps taken at once will prove an unfailing preventive. A cold developed means needless suffering and expense. Safeguard yourself by al-ways keeping a box of Peps They are also best for coughs, sore throat and bron-

#### Catamaran Takes Charge.

A man named Spurrell, and his 16ear-old son, Harry, went on the outhside Hill yesterday, over the Blackhead Road, for a load of wood. The wood had been cut and piled during the summer, and all they had to do was to load it on the small-sized catamaran they had taken with them. All went well until they came to the last of the road, which is the steepest one in the city. When about a quarter of the distance down had been traversed, the "cat" suddenly took control and went down the hill at a terrific pace The man and his son were tied to that slide by hauling-ropes, the end of which they had coiled around their shoulders. Consequently they were dragged down until the load of wood, which very fortunately kept to the track, crossed South Side Road, and the railway line, almost out to the water above the trestle bridge. Neither of them were injured, and although sore all over, could haul their load of

## For Biliousness

Biliousness is a common form of indigestion. It is brought on by food-waste which the stomach, intestines and bowels fail to expel. If you will take a few doses of Beecham's Pills, when bilious, you will soon rid yourself of the impurities, relieve sick headache, stimulate the liver and bile and tone the stomach. Healthy conditions are quickly re-established by using
