U. S. Battleship in Port.

The American battleship Chicago, from Rio de Janeiro, via New York and Boston, arrived here on Saturday morning, as already noted in the Telegram. The Chicago is an old ship and during the war was used in the convoy service. U. S. Consul Bénédict paid an official visit to the ship on Saturday afternoon and was re-

ceived with the customary honors; while many citizens visited her yesterday at Shea & Co.'s premises. An American destroyer, the McKean, arrived at 10.30 last night and sailed again this morning. This ship is one of the Trepassay-Azores flotilla and will convey the press correspondents and moving picture men, during the trans-Atlantic flight of the American seaplanes.

Reception to Rector.

On the arrival of the new Rector of St. Mary's Parish, on Friday morning last, he was met at the station by the churchwardens and other members and escorted to the Rectory, where he was again met by several ladies of the Guild and Association who had provided the proverbial cup of tea and refreshments, which were heartily enjoyed by the rev. gentleman and his family after coming off the train. On Sunday morning several of the men of the congregation had quite a lot of bunting around the church and Rectory grounds in honor of the Rector and his induction by the Bishop. At the evening service on Sunday, the Rector took occasion to thank most sincerely the kind and hospitable reception given himself and family, and the whole-hearted welcome and greetings from all. He appreciated it very much and although the Rectory was very cold, the warmth of the reception made the coldness nil. "One and all, I again thank you," he said.—Com.

Meth. College Extension.

Headquarters for the Newfoundland Methodist College Extension Campaign have been opened in rooms 3 and 4, Board of Trade Building, on Water Street, and preliminary work is now being directed in a systematic Campaign of Publicity and Advertising, so as to acquaint the people of St. John's and Newfoundland with the work that has been accomplished by the College and the proposed extension of its activities.

This office will be the Headquarters for the different Committees, and complete card catalogues and lists will be prepared of the families, both in St. John's and throughout the Island, who are definitely interested in the College.

The Campaign of Education will be directed by the Hockenbury System, of Harrisburg, Penn., U.S.A. Mr. Mark G. Holtzman, a member of the staff, arrived in St. John's a week ago, and has made a study of the College and its needs, and an organization of the prominent business and professional men is being rapidly perfected, which will have active charge of the campaign. The Hockenbury System has conducted several hundred similar campaigns in the States and Canada, and it is expected that Mr. E. J. Hockenbury, President and Manager, will personally come to Newfoundland the latter part of this month to give special direction to this campaign.

Rev. T. B. Darby, Chaplain and Guardian, of the Residence, is actively in charge of the Headquarters. adv.11

The C. L. B. held a church parade yesterday morning when the battalion, headed by the Old Comrades, returned soldiers in khaki and band attended Matins at St. Thomas's Church. The parade was under command of Lt.-Colonel Goodridge and was one of the largest in the history of the Brigade. The service was conducted by Rev. Mr. Moulton and an eloquent sermon was rendered by Rev. (Captain) Clayton. After the service, return was made, via Military and Harvey Roads, to the Armoury where Lt.-Col. Goodridge announced that the annual presentation of the Outerbridge Shield, and unveiling the shrine to those who fell in the war, would take place to-morrow night. Excellent music was rendered by the band under Lieut. Morris.

To ensure sound, refreshing sleep, restore the nerves and allay digestive unrest, for this purpose nothing is so good as a cupful of "OVALTINE" taken just before retiring. It is a concentration of the nutritive, digestive and tonic properties of Malt, Milk and Eggs, flavoured with Cocoa, and is rich in those elements which rebuild the nervous system and correct the digestion. During the whole process of manufacture "OVALTINE" is untouched by hand.  
"Ovaltine"  
BUILDS UP BRAIN, NERVE AND BODY.  
"OVALTINE" also makes a delightful beverage, which is taken with or between meals instead of tea, coffee or cocoa, having the added advantage that little or no sugar is required.
