**GAINS 35 POUNDS;  
RHEUMATISM  
IS GONE**

The wonderful reconstructive powers of Tanlac are again very forcibly demonstrated. In this instance the grateful beneficiary is John H. King, locksmith, living at 229 14th Ave. West, Calgary, Alberta, who declares:

"Tanlac built me up to good health, with a gain of thirty-five pounds in weight, over a year ago and I have been feeling fine ever since. Just after coming back from overseas, about two years ago, I was taken down with an attack of rheumatism that crippled me up so I couldn't work and sent me to a hospital for about ten months.

"During this long siege of rheumatism I lost fifty-five pounds in weight going down from one hundred and sixty-five to only one hundred and ten. I was just a shadow of my old self and had no strength or energy. I was terribly run down and felt tired out and exhausted all the time.

"Finally I resorted to Tanlac and got back on my feet so quick that it surprised me. It proved to be so well suited to my needs that by the time I finished the fourth bottle I was feeling a hundred per cent well. As a medicine and tonic to build a person up and make them feel right I don't believe Tanlac has an equal."

Tanlac is sold by all good druggists.

advance gathered the compiled records of more than 25,000 persons charged with crimes. They found 12,000 of these in Smyrna, added Mr. Prentiss, and killed them, and are awaiting to kill 8,000 "spotted" in Constantinople.

Matron Missing.**

**MRS. JAMES BRUNTON, JR., MISSING SINCE LAST WEEK. HER WHEREABOUTS UNKNOWN.**

Mrs. James Brunton, Jr., the former Molly Fairfax, who is well known as the leader of the young smart set, suddenly left her home a week ago, and her whereabouts are not known. Mr. Brunton volunteers no information as to where his wife is and what was the cause of her sudden disappearance.

It will be remembered that when Molly Fairfax was the most popular debutante her hand was sought not only by Jim Brunton but also by Bob Standing. It has often been rumored that since becoming Mrs. Brunton, Bob Standing was still paying her court. A strange coincidence with Mrs. Brunton's disappearance is the fact that on the same day Bob Standing left for parts unknown.

The gripping story of Molly Fairfax and James Brunton will be shown as "Suspicious Wives" the feature attraction at the Nickel Theatre tonight featuring Mollie King. Be sure and see it.

**Why Corns?**

Just say **Blue-jay** to your druggist

The simplest way to end a corn is Blue-jay. A touch stops the pain instantly. Then the corn loosens and comes out. Made in a colorless clear liquid (one drop does it) and in thin plasters. The action is the same.

**Pain Stops Instantly**

**Just Folks.**

**THE MUSHROOM EXPERT.**

Bill is a mushroom expert, and Bill is a friend of mine. He has studied the amanita and all its ancestral line. He goes to the fields each autumn to harvest a dinner treat. For he knows which are deadly fungi, and which are the ones to eat.

Bill can talk by the hour on mushrooms and he laughs at my timid fears.

He is still in the land of the living and has eaten the things for years. He is wise in the love of the meadow, the swamp and the dark ravine. And I'd say, of the mushroom experts he's the best that I've ever seen.

If ever I gathered mushrooms I'd carry them back to Bill. And ask him to look them over and pick out the ones that kill. I'd trust to his certain knowledge, and bank on his judgment, too. For he is a shark on that stuff and can spiel it right off to you.

Bill knows 'em and loves 'em and eats 'em, and all through the days of fall with his little basket, in search of the snowy ball. And never I doubt his knowledge. I grant it surprises mine. But during the mushroom season I don't go to Bill's to dine.

**Turkey for Turks  
Cry of Kemalists.**

PARIS, Nov. 11 (By A.P.)—"Turkey for the Turks," is the cry which the Turks gave as their watchword to Mark P. Prentiss, special representative of the American near east relief, who was sent by headquarters to make a survey of the work in the orient, and who has just reached Paris from Constantinople after going through the Smyrna fire. He is returning to the United States to report on the future possibilities of refugee work.

Mr. Prentiss conferred with the American ambassador at Rome, Richard Washburn Child, and will see Ambassador Herrick here and Ambassador Harvey at London, and finally report to the state department at Washington.

**New Harbour Notes.**

This place and vicinity in common with many other places has within the past 12 months seen the worst times in its history. There has been very little lucrative employment, and the fishery the past summer has been a failure. But times seem to be getting brighter. Quite a few men have lately left to go to work in different parts of the island. The shopkeepers too, say there is a little more cash in circulation than there has been for some little time. We hope times will continue and increase in brightness and profit to one and all.

On Monday, the 6th inst., the Rev. E. M. Bishop, Rector of Bay Roberts, arrived here on Monday night at New Harbour and Tuesday night at Dilido. Mr. Bishop spoke to the Church of England congregations on the subject of "Christian Stewardship." In company with the Incumbent he went to Chapel and Norman's Coves on Wednesday and spoke to the congregations there, returning to New Harbour at midnight. He left for his home at Bay Roberts on Thursday morning. Mr. Bishop is one of the several clergymen of the Diocese who have been requested by the Executive of the Synod to go through the Diocese on an educational campaign of Christian Stewardship. His section comprised Random, Smith's Sound and New Harbour. Mr. Bishop's words could not fail to impress and inspire those who were privileged to hear him. Unfortunately the congregations were small, owing partly to the recent exodus of men to fields of labour.

A very successful concert was held at Green's Harbour on Thursday last under the management of Miss Sharpe the teacher. The sum of \$17.00 was realized which, we hear, will go towards something for the school.

Mr. Parrott, Principal, and Miss Miles, assistant, of the High School here are planning a children's concert for Christmas. We wish them success.

Mr. and Mrs. George Woodman left by Monday morning's train to spend a few days with friends and relatives in the city. Mr. Woodman, who has the reputation of being a "keen shot," was very successful on the barrens since the opening of the game season this year.

Roundheads (some call them Pot-heads), a large fish of the whale species, from 15 to 25 feet in length, have been very plentiful around here this year, particularly at Chappel Arm, where some of the men were successful in beaching about 100 of them. The men made a fair week's pay considering the low price of the oil at present. It is interesting to an eyewitness to watch the men driving those harmless creatures ashore. To those engaged in it, it is a very exciting exercise. Fishing punts well supplied with stones and pebbles stampered them and pen them up in the bottom of the Arm. As soon as they ground in the shoal waters of the beach, the chances of capture are almost always certain. Here the men spear them until they die. They are then pulled ashore and beached and their carcasses left to rot. A few years ago 400 of these mammals were in this way driven ashore at this place. This fact is still evident to the senses of sight and smell of the passer by in the bottom of Chappel Arm.—COR. Nov. 24th, 1922.

almond's Liniment Lumbago's Friend.

**Bad Breath**

Is Usually Due to Constipation

When you are constipated, not enough of Nature's Lubricant, Nujol, is produced in the bowel to keep the food waste soft and moving. Doctors prescribe Nujol because it acts like this natural lubricant and thus replaces it.

Nujol is a lubricant—not a medicine or laxative—so cannot grip. Try it today. 1/2 a cent a tin. This Agent is Everywhere.

**Nujol**

A LUBRICANT—NOT A LAXATIVE

**Smokeless Fuel!**

COKE is an excellent substitute for Anthracite Coal, and is the best smokeless fuel for Domestic or Industrial use. It is clean, efficient and economical. Our price, sent home, \$20.00 per ton of 2240 lbs. A 75 lbs. sack of coke may be purchased at the Gas Works for seventy five cents. We advise early booking of orders, because our production is limited.

**ST. JOHN'S GAS LIGHT COMPANY.**

**Valuable Trees**

FOUND IN COLORADO.

By competent authorities these valuable trees ever discovered by man are some that were discovered in the Carnotite region of the western Colorado.

These are found in the form of pet- tles encased in beds of sand- stone. The trees are with- out the surface, in other cases are buried 20 feet deep.

Over the sandstone, one never guesses that a treasure lay hidden in the sandstone. The first evidence of the tree is locked in the sandstone by the discoloration of the rock by the uranium ore which carnotite is almost always found in.

These formations are the richest in the forms in which radium- emanation is found. One of the trees produced 9000 sacks of ur- anium ore, or 275 tons. In some cases it is worth \$10,000 a ton, and is only near the heart of the

These are wonderfully preserv- ed. The limbs, knots, bark and the grain of the wood can be dis- tinguished.

These all lie in the same general direction, with the roots facing the north when this region was first formed, and that they were in the sand and debris along with the trees.

Then there came a great geological upheaval, and at the time the peculiar substance carnotite was produced. The which are porous, absorbed the radium emanation. Elsewhere it found lodg- ing in the pockets, "bug holes," and other formations of an inch or two in diameter. Just how or when these formations occurred, no one can tell. The carnotite region lies 100 miles

from a railway. Water is scarce and has to be packed in on burros. It is very costly to mine in such a land. Millions have been spent in pioneer work, and the total cost of getting the ore out is heavy.

There is no exorbitant profit in dig- ging out carnotite tress, for they are scarce, and in order to dig one out, hundreds of tons, of low-grade ore and rock must be moved out of the way.

Another style is set in fiction. We go back to the pioneers, whose lives were full of blood and friction, who broke the sod with branded steers. From grocers and piano tuners from cities and their wild unrest.

we journey now in prairie schooners, to conquer king- doms in the west. From south sea isles we turn our faces, and sigh in gladness as we turn; and for a time that desert races our gifted novelists may spurn. We'll have a rest from Six and Passion, and Problems that compel our tears; I thank the boys who set the fashion of writing up our pioneers. We go back to the mode of Cooper, to Leatherstocking, strong and hale, who waits in ambush for the snooper who pads along his twig- strewn trail. From superheated rot and pizen, from long drawn annals of despair, we journey to the far horizon, where we may breathe untainted air.

I'm glad again to roam the forest, my trusty tomahawk in hand, and sweat the Injun where he's sorest, and de- clamate his savage band. The newer books I have my clutch on, and I send forth a loud hurrah for Herbert Quick, for Hough, McCutcheon, and others who have shown the way.
