Don't Say-"Just a Sore Throat"

TN a few days, you know, "just a sore I throat" may be something much more serious. For science has proved that the throat is not only the first spot reacned by infectious germs, but also forms the ideal soil for them to multiply on.

Throat protection, therefore, means germ destruction and is a duty that you owe your health. It is easily achieved by the regular use of Formamint—the germ-killing throat tablet.

• Formamint (which is endorsed by over 5,000 American physicians) is the scientific way of disinfecting the mouth and the throat. Handy to have with you-pleasing in taste-it frees an efficient germicide that mixes with the saliva and so raches where gargles cannot go.
