NATURAL GAS EXPLOSIONS.

Several Houses in Pittsburg Wrecked and a Number of Persons Injured.

PITTSBURG, Pa., Feb. 18.—An explosion of natural gas occurred here yesterday morning, which threw the front and rear wails of a double two-story brick house belonging to Samuel and William Hazlett into the four feet of water surrounding it. There were nine persons in the house at the time, four of whom were blown into the water. Those injured were: James Fletcher, brother-in-law of the mayor of Allegheny, who will die; Jenn Hazlett, Mrs. Samuel Hazlett, Owen McLaughlin and Mrs. Eliza White. It is supposed the rush of water in the cellar broke the natural gas pipe.

In Bowmanville the owner of the plano and organ factory, which under its former managers was a bulwark for the N. P., be-lieves that if only be could get access to the American market a splendid business could be done.

For the past few years the workingmen have found that there is no labor schedule in the tariff. When a dispute takes place in any highly protected industry labor can be imported free. Protection does not protect the wage-worker. He sells his labor in the market of open competition with the world; he buys his goods at the price fixed by the Combines.

SUFFOCATED BY SMOKE! Disastrons Fire in Brooklyn—A Mother and Four Children Perish in Their Beds.

At a meeting on Wolfe Island the other night Mr. Haycock said: "If I were an annexationist I would go heart and soul for the N. P. as the surest possible way to effect the absorption of this Canada of ours by the United States. The farming class and others will bring about that end if the values of farm produce continue to decline at the present rate." John Kinsley, one of the many reformed Conservatives, stated that he had never east a Reform vote in his life, but this time he would vote for his own interests as a farmer in preference to the interests of party. NEW YORK, Feb. 18.—A woman and four children were suffocated and a man was probably fatally burned in a fire that occurred at Delmonico Place and Hopkinson avenue, Brooklyn, this morning. The building probably fataily burned in anne that occurred at Delmonico Place and Hopkinson avenue, Brooklyn, this morning. The building in which the fire occurred is a three-story frame structure. The basement and the ground floor were used as a bakery, and two families lived on the floors above. Jacob Enrich was at work in the basement over a pot of boiling fat at 4:30 o'clock this morning, when the fat boiled over and running to the floor set fire to the surrounding woodwork. In a few minutes the building was on fire and dense smoke was pouring through the halls. Enrich was badly burned and cannot live. On the top floor was found Mrs. John Henessy and her four children dead. The woman and her children were asleep when the fire broke out, and were overcome by smoke before they could escape. Brawling in Church.

London, Feb. 19.—At Newton Abbot, Devoushire, yesterday Rev. Dr. Pope was fined £2 for brawling in church. Dr. Pope attended a religious service on Sunday, and while the communion was being administered walked up to the officiating clergyman, wrested the chalice from his hands and drank the wine while standing near the altar rail. Dr. Pope then returned the empty chalice to the clergyman, remarking in a voice heard all over the church, "You're no Christian. You are unfit to administer the communion." By this time Dr. Pope was greatly excited. He stood gesticulating near the altar during the rest of the service.—The court was crowded with clergymen and others. Amid considerable excitement Dr. Pope at first said he was not guilty and afterwards pleaded guilty and apologized for his conduct in the church. Dr. Pope'a lawyer said his client's mind had become unbahmeed and it would not be just to be teo sevege upon him.

The Grand Lodge in Annual Session at Terento.

TORONTO, Feb. 18.—The Grand Lodge of the Ancient Order of United Workmen of Toronto, Feb. 18.—The Grand Lodge of the Ancient Order of United Workmen of Ontario holds its thirteenth annual session in Victoria Hall to-day. About 400 members from all parts of Ontario and some from Quebec and Manitoba are in attendance. Ontario has paid ten relief calls in all, amounting to \$32,942 25. Just now, call No. 11 has been made on the various grand lodges for an amount equal to \$1.70 on each master workman. This will necessitate a payment from the Ontario Grand Lodge of \$37,415 30. Although anticipated that, as a result of the effects of la grippe and other causes throughout America, the relief would be a large one, yet this is far above any sum thought of. Referred to a committee of past grand masters. The grand master's report says: "There have been 26 lodges organized during the year 1890, of which nineteen are situated in Ontario, four in the Province of Quebec and three in the Province of Manitoba. The area now embraced in the jurisdiction of this Grand Lodge, extending from the Rocky Mountains to the Atlantic Ocean, and the rapid increase yearly of our membership has greatly added to the anxiety, responsibility and work in administering its affairs. I think the time has come when responsibility and work in administering its affairs. I think the time has come when affairs. I think the time has come when the formation of separate jurisdictions in the near future will be id the interests of the order in Canada. The Province of Quebec with the other eastern Provinces would make a territory sufficiently large to form a grand lodge. Manitoba, the North. west and British Columbia would make another.
