Blake last night determined, in obedience to the wishes of his friends here, to no more than appear in his own constituency, but omake a speech at some central point in as many doubtful constituencies as he can reach before election day. According to this programme he hopes to be able to make from 20 to 25 speeches before the last of the elections are held. He is full of fight and is ready for the fray. I can say that the honorable gentleman is in the highest of spirits and decidedly has seen or heard nothing to make him regret his decision. The, warmth of his reception here has evidently touched him deeply."

SIR HENRY TYLER'S DEFEAT.

LONDON, July 6.—Several surprises have been received during the contest, but the been received during the contest, but the one that has created the greatest interest is the defeat of Sir Henry Tyler, Consurvative, at Yarmouth, which constituency he represented for the past twelve years, having been returned at the last election by a majority of nearly 1,000 over the Gladstonian candidate. Grand Trunk circles are much excited over the defeat of the president of the road.

SUMMARY OF RESULTS UP TO WEDNESDA

London, July 7.-1 a.m-The total election returns received up to 1 o'clock this morning show the election of 123 Conervatives, 93 Liberals, 19 Liberal Unionists and Home Rulers.

Up to this time the Government has still a majority of 45.

The total Liberal gains are 29, and Con

An address from various Liberal associations was here presented to Mr. Gladstone. He responded briefly, standing bareleaded in the carriage, while his daughter shielded him with an unbrella from the wind and the sun.

Ing has closed without determining in the opinion of the leaders of either side what may be the ultimate relative position of the parties. The elections yesterday have been a surprise to both sides, losses occurring where success was deemed certain and gains where there was small anticipation of victory. For the Liberals it was a period of alternate despondency and elation. When the 21st result was announced recording a Unionist victory in the Camiachies (Giasgow) division, Mr. Alexander Cross defeating the Independent-Liberal Cabon (Giasgow) division, Mr. Alexander Cross defeating the Independent-Liberal Ciberal candidates, the Liberals who had assembled at the National Liberal Ciberal candidates, the Liberals who had assembled at the National Liberal Ciberal candidates was Mr. Canningham Graham, an advocate of socialism, who represented the northwestern division of Lamarkahire in the past Parliament, and who was suspended on May 4 last for a week for refusing to help the Speaker's call to order. The seat vaslost, like that of Perth, by a spit vote. It was felt to augur badly for the realization of the Liberal calculation that the day's event would wrest at least twelve seats from the election of John Burns was announced with a majority beyond expectation. Then followed the Metropolitan successes at Walworth, Bermondsey, Nowington and Finsbury, whore the results have been doubtful and a series of Provincial triumphs where they had been least hoped for. The popular tide in London certainly seemed to be flowing toward the Liberals.

Today's events appear to justify the calculation that the coming contests in the desirability of alternative of the desirability of alternative and the surport of the desirability of alternative and the surport of the section of the condition of the laborals.

changes were all adopted by the House and became law.

In moving that the House resolve itself into committee of ways and means, Mr. Foster said: "I do not intend at this late hour in the session to propose any very extensive change in the tariff. I propose to amend the tariff on molasses by adding a larger percentage per gallon for each degree or fraction of a degree under 40°. I propose, instead of ½ of a cent per gallon, to add I cent per gallon for each degree bolow 50°. When it goes down to 30° or 25° the duty is nearly prohibitive. It is proposed to allow eleostearine to come in free of duty for the use of tanners for making their leather. Glove leathers, which are a special item by themselves, are admitted at 10 per cent., while leathers of similar kind but not used in the manufacture of gloves pay a duty of 15 per cent. In that list of glove leathers the name of lamb was left out, and to make the item consistent the word lamb has been inserted with the other indications. On the free list also will be placed tin waste; nitrate of soda, used for dying purposes, is to be put in the free list. It is proposed to place a duty on eggs of 5 cents per dozen. It is also proposed to take the power by the Governor in council of ordering that at any time when it is considered in the public interest to suspend the discriminative duty of 5 per cent. on their value on sugars imported into this country otherwise than by direct shipment. It is also proposed to add a resolution giving power to the Governor in council to suspend certain provisions of the customs acts insofar as they provide for the payment of duty or otherwise on sugars, molasses and tobacco, when imported into this country otherwise on sugars, molasses and tobacco shall be subject to certain duties.

LIEGRAIS OFFOSE A SALARY GRAB.

The question of indemnity, as far as the Liberal party is concerned, has been disposed of for the present session. A meeting of the party was held this morning, and it was unanimously decided to have nothing to do with the proposition which came from the Government some time ago to raise the indemnity of members. That answer was conveyed to the Government. Some time ago [Premier Abbott asked Mr. Laurier to agree to an increase. The leader of the Opposition, although opposed to the increase himself, laid the matter before his followers. While the acceptance of an increase such as was proposed was never contemplated by the Opposition, still the idea of shortening thesession was fully discussed at one or two informal meetings. The answer was made to Fremier Abbott's proposition and it was, that as far as the Liberals were concerned, meetings. The answer was made to Premier Abbott's proposition and it was, that as far as the Liberals were concerned, they unanimously refused to be a party to such a measure in any way whatsoever. What the Government will do cannot yet be said. It is certain that they are pledged to their followers to give them an impresse. It was on such an understanding that they remained to the close.
