dinner, and supper was served from 5 o'clock to 8 p.m. There are a few vacant cottages to rent for the sea-son, the occupants having left. The season for camping will be prolonged this year by reason of the fine weather. Fully 500 people enjoyed the surf bathing last Sunday. The usual hour for the surf is from 3 p.m. to 5:30 p.m. Campers are arriving daily to spend an extended outing. Messrs. Dewey and Green, who con-

trol the fishing grounds in this locality, are opening the entrance to the river. The strong winds of several days ago closed the lake entrance with sand and gravel, so that boats could not get out. Next year, Grand Bend will have a safe harbor for excursion boats. The additional pier is to be built, giving a wide channel into the deep waters of the river.

#### DOCTORS'REGISTRATION

Physicians in Convention in Favor of Dominion Registration.

Winnipeg, Aug. 25. - The Canadian Medical Association yesterday almost unanimously committed itself to the principle of Dominion registration. This important question formed the principal topic of discussion, and the debate was keen and protracted. The pronouncement carries great weight because of the fact that the convention was a very representative one. Four of the western provinces are contemplating such action and really have an understanding now. The attendance was the largest on record, 342 members having registered, which is ten more than ever before. The attendance was distributed cording to provinces as follows: British Columbia 8, Alberta 16, Saskatchewan 21, Manitoba 186, Ontario Quebec 11, Maritime Provinces 8, and

Toronto was selected as the next place of meeting, and officers were then elected as follows: President, Dr. Adam H. Wright, Toronto; vicepresident, Dr. H. B. Small, of Three Rivers; general secretary, Dr. El-Mott, Toronto; treasurer, Dr. H. B. Small, Ottawa; local secretary, Dr. R. P. Campbell, Montreal.

The convention proceedings con-pluded with a delightful steamboat ide on the Red River last night.

President Takes Note of Charges Against Officials of General Land Office.

Washington, Aug. 26.-The President has taken cognizance of charges made against his superiors by L. S. Glavis, chief of the field division of the general land office in the northwest, with headquarters in Seattle.

Mr. Glavis has presented a report to the President in which, it is understood, he attempted to show that high officials of the interior department have been O. R. purchased six of what were drew their names, at the same time A. Hanna, 8:30; Northern Wind, 8:45; unnecessarily concerned in expediting what are known as the Cunningham claims to valuable lands in Alaska, and in doing so have acted independently of he general officers of the department. The officials are much incensed over the report, but take the position that as they are preparing a report for the President, their lips necessarily are sealed magainst outside discussion of the subject. This is the attitude assumed by Commissioner Dennett, who only this morning arrived from an inspection tour through the west. Acting-Secretary Pierce coincides with this statement. Early in the day the two officials were in consultation with Assistant Attorney-General Lawlor with reference to the proposed report, and nearly half a million was sunk in the had to hustle for it. assurance was given that it would be put in shape as soon as possible. Privatethe officials express indignation regarding the report, and say that at the proper time they will have no difficulty convincing the public of the probity

of their conduct. The incident is regarded generally as phase of the conflict between the interio lepartment and the forestry service. It is felt in the department that Mr. Glavis is co-operating with the forestry bureau.
