something about what he is advising in that line.

A good old doctor in Ohio, who had at one time been the victim of the tea and coffee habit, advised a woman to leave off tea and coffee and take on Postum.

She suffered from indigestion and a weak and irregular heart and general nervous condition. She thought that it would be difficult to stop tea and coffee abruptly.

She says:

"I had considerable hesitancy about making the change. The doctor, however, gave explicit directions that Postum must be boiled long enough to bring out the flavor and food value. His suggestions were carried out, and the delicious beverage fascinated me.

"I observed, a short time after starting Postum, a decided change in my nervous system. I could sleep soundly, and my brain was more active. My complexion became clear and rosy, whereas, it had been muddy and spotted before; in fact, all of the abnormal symptoms disappeared and I am now feeling perfectly well.

"Another friend was troubled in much the same manner as I, and she has recovered from her heart and stomach trouble by leaving off tea and coffee and using Postum."
