DRUNKENNESS CAN BE CURED

Old Fallacy That Drunkenness Cannot be Cured Exploded.

Many men drink who desire to stop the habit. Whiskey, however, has undermined the constitution and created a craving that is not to be denied, and the man must have whiskey, or something that will remove the craving and build up the system and restore the nerves.

Samaria Prescription stops the craving, steadies the nerves, builds up the general health and makes drink actually distasteful and nauseous. It is tasteless and odorless, and can be given with or without the patient's knowledge, in tea, coffee or food. It is used regularly by Physicians and hospitals. It has cured thousands in Canada, and restored happiness to hundreds of homes.

Read what Mrs. G. of Hull says of it and what it did for her:

"It is four months to-day since I started to use your remedy. I followed the directions and had the best of results. One week after I started using your remedy the patient stopped drinking and has not drunk a glass of liquor since. I hope you will accept my heartfelt thanks. Hoping God will bless your remedy wherever tried. I remain

"Mrs. G. of Hull, Que."

(Name withheld by request)

Now, if there is anyone in your town who needs this remedy tell them of it. Practical philanthropy can take on better form. If you have a husband, father, brother or friend who drinks, help them help themselves. Write to-day.

A FREE TRIAL PACKAGE of Samaria Prescriptions with booklet giving full particulars, testimonials, price etc., will be sent absolutely free and postpaid in plain sealed package to anyone asking for it and mentioning this paper. Correspondence sacredly confidential. Write to-day The Samaria Remedy Co. Dept. 77 49 Colborne St. Toronto Canada.

Horse Meets Its Death By Running Into Locomotive

A valuable horse owned by Joseph Damboise lost its life on Monday under peculiar circumstances. Mr. Damboise drove down the Country to see a friend and left the horse standing at the door. The road at this point runs parallel to the railroad track, with just a few yards intervening. A freight train coming along scared the animal and it started, when a wild gallop towards town. A hundred yards further on is a railway crossing. Train and horse reached this simultaneously. The terrified animal, unable to check its momentum, plunged into the locomotive and the next instant the mangled remains of the poor horse shot twenty feet into the air and the sleigh was reduced to kindling.
