PARIS, Aug. 29 -The official report of the Lang Son affair has been received from General Millot. Millot praises the valor of Col. Degenne, who was in command of the detachment sent to occupy Lang-Son, but he savs he acted too precipitately. Degenne was under orders to occupy Lang-Son peacefully, when he found himself confronted by an opposing force of Chinese, the general of which said he had received no orders to surrender. Degenne ought to have asked for further orders from Millot by means of the heliograph. French newspapers are exultant over the successes attending the bombardment of

THE CANADIAN PACIFIC RAILWAY AND MANFTORA.

Vice President and General Manager Van
Horne were at Glyndon in conference with
Northern Pacific officials. It is reported that
there is a rupture between the Canadian Pacific and the Manitoba railway. In two
months the frozen lakes will cut off the eastern connection of the Canadian Pacific, and
the officials are looking round for some connection which will not include the Manitoba
railroad. The Northern Pacific branch to
Devil's lake is ordered to be finished, and an
extension is being graded to Dunseith, in the
Turtle mountains. If this extension is met at

The Monetary Times has already shown that the transcontinental railway, which will get the cream of the through traffic between Europe and China and Japan, must be prepared to do it on the best terms. It is now announced that the Canadian Pacific railway company will put itself in a position to become a formidable rival for this traffic; and with that view will put on steamers between the Pacific terminus of the road and China and Japan This enterprise will contribute to success in this rivalry. The nature of British and American commercial treaties with China and Japan will have some bearing on the course which the trade will take. It is not always advantageous for railway companies

A STEAMER LOST AND A RAILWAY TRAIN BURNED.

Fifteen Drowned by One and Several Perish by the Other-Scenes of Suffering and Death-Show People's Sad End. GREELY, Col., Aug. 29.-A circus train was rned nine miles north of here to-day, being attended with indescribable horrors. The Many Chinese have become alarmed and are leaving. The chief magistrate and consuls have issued placards urging the natives to remain in their homes as the list of the sufferers: E. E. Fairbanks, badly burned; Albert Rorden, Logan, Kans., badly burned; Thos. Golden, Detroit, very badly burned; S. J. Solden, Detroit, very badly burned; N. J. Zimmerman, St. Louis, Michigan, arms, legs, back, face fearfully burned; Frank King, Memomnee, Mich., badly burned about feet; M. McGleen, Holton, Mich., face and hands badly burned; Hugh O'Donell, New Orleans, badly burned about the face, arms and hands and back, will probably die. The names of dead, as far as learned, are as follows: Alex. McLeod, Marinette, Wis.; Thomas Kelly, New York; others known as Silverthorn. Andy, Frank, George, Smithle, and one unknown.

ng the most destructive hurricane that ever curred here broke upon Evansville, doing amage not less than a quarter million in the city and vicinity. Houses were torn down and roofs carried away. Three or four steamboats rees were torn up by the roots, and other in-

were badly damaged. Thousands of shade trees were torn up by the roots, and other injury was done. Rollker's new foundry was almost demolished. The steamers J. V. Throop and Silver Thorn were badly damaged. Several church suffered severely, also a new school house.

The storm lasted over an hour. The wind was blowing a hurricane, changing from northwest to northeast. The Silverthorn with steam up had the chimneys blown overboard, but the boat was not much damaged. The steamer Two States was blown from her mooringsland driven the full length of the city. She landed at a coal dock without damage. The J. N. Throop, which had just arrived and landed her passengers, broke all the lines and drifted to the upper landing, losing her chimney and narrowly escaped burning. She was badly wrecked. The bar in front of the city was full of barges, among them the transfer barge, loaded with freight cars. A ferry boat was blown on the bar hard aground. No lives were reported lost. Reports that the transfer steamer Belmont was sunk near Henderson and twenty lives lost are not generally credited. The boat is probably damaged, and ashore. The river is too low to be dangerous, although the storm was terrific.

The loss of the transfer steamer Belmont and the drowning of ten to fifteen persons is confirmed. Among the lost are Capt. Smith, E. C. Roach and son, merchants, Evansylle; Miss Laura Lvon and sister, Sally Bryant, Mrs. Woodtred of Henderson and lady and babe, with satchel with card in it marked, Miss Hattie Murray, Broomfield, Ala.

HELENA, Mont., Aug. 29.—Governor Crosby states officially that Piegan Indians, about 2000 strong, are dying of starvation at the rate of one a day. Men and women are gaunt and spiritless and the children emaciated. All are so weakened by lack of sufficient food the past two years that dreadful suffering and death will occur shortly. Appropriations for this year only permits of the agent to issue two pounds of beef and three pounds of bad flour per week. It is entirely inadequate to support well people. The governor reports an unnatural, an inhuman state of things existing, and calls upon the secretary of the interior to assume the responsibility of issuing full rations until congress meets.

ORILLIA, Aug. 29.—This afternoon the mayor issued a warrant for the arrest of Peter Mur ray, editor of the Orillia Times, on informa-tion laid by John Curran of the Orillia News-Letter. Murray is charged with having pub-lished a defamatory libel against Curran. The charge will be investigated at the police

—People who wish to note the progress Toronto is making ought to visit West Toronto Junction. It is within a few minutes of the Union station by the trains of either the Ontario and Ouebec and the utes of the Union station by the trains of either the Ontario and Quebec and the Grand Trunk or the Northern. The junction station of the C. P. R. is now in full blast and freight and passenger trains are stopping there every short while. New houses are going up all round while the plans of many handsome ones are still in the hands of the architects. Real estate in the neighborhood has steadily risen in yalue and promises to advance still more rapidly. A lot or block in this locality is the best investment a workingman or capitalist can go into. It will double itself in two years just as Parkdale, Brockton and the whole west end has done. Some of the best lots in West Toronto are to be had from Corge Clarke, 295 Yonge street.

shortage of about \$600. Previous to this the London Guarantee and Acsident company of London, Eng., had insured Geddes to both the railroad companies to the extent of \$1800, and a claim was accordingly made upon it for the amount of his several deficiencies. A warrant was issued for his arrest, and when the officer went to execute it he found that Geddes had skipped to parts unknown. The case was placed in the hands of the most experienced detectives in Canada, but they could not find him. After waiting a reasonable length of time, the company finally sent their special agent, E. K. Monroe, to the United States to try and find him, as they believed he had crossed the berder. Mr. Monroe placed the matter in the hands of the Mooney & Boland detective agency, and after considerable search it was ascertained, that Geddes was a station agent on the Chicago, and made occasional visits to the city. An operative was left for the purpose of watching Geddes, while the papers were being preparad for his arrest, so that the officers would know where to place their hands upon him as soon as the documents were ready. An order was granted yesterday by John I. Bennett, master in chancery, and yesterday morning the operative telegraphed the detective agency that Geddes had an engagement at a certain point in Chicago, and would be there about 10 o'clock in the morning. Jack Dempsey having been acquitted by the Staten Island authorities on a charge of prize fighting, Georgie Fulljames, who has been staten Island atthiothes on a charge of pice fighting, Georgie Fulljames, who has been sojourning among us pending Dempsey's trial, left for New York last night with an easy conscience. Since Fulljames arrived here there has been a good deal of talk in certain quarters about a meeting with bare knuckles or kid gloves between him and Harry Gilmore. Fulljames did not come to Toronto to arrange a match with Gilmore, but to escape arrest on a charge of prize-fighting with Jack Dempsey. The warrant is still hanging over his head, but as Dempsey was acquitted it is not likely he will be molested.

Those who seem to know assert that Fulljames and Gilmore will meet, although a match has not really been arranged. The negotiations appear to be carried on with great secrecy. There has been a great deal of club, bar-room, street-corner and newspaper talk over the relative merits of these two young gentlemen. In fact there has been more talk than anything else, and if there is any "business" in them they should quit this cheap commodity and—make a match.
