TRIUMPH OF THE TORIES.

SEVERAL OF MR. GLADSTONE'S MINISTERS DEFEATED.

Chagrin of the G. O. M. at the Result—Joy of the Conservatives—Several of the Large Cities Unexpectedly Somersault.

LONDON, Nov. 26.—Up to midnight yesterday 58 tories, 50 liberals and 5 Parnellites had been elected. T. P. O'Connor has defeated the tory candidate in the Scotland division of Liverpool by a majority of 1231. The tory candidate has defeated Mr. Childers in Pontefract. Ashmead Bartlett (conservative) is elected in Sheffield. The net gains so far are liberals 2, tories 17. Yesterday's voting was a decisive of the liberals. If conservative successes continue in the same ratio, which is now considered probable, the conservative majority in parliament will outweigh the combined liberal and Parnellite vote.

The Tory Gain 20.

LONDON, Nov. 26.—Later reports make the net tory gain 20. The liberals have carried a number of new seats, but in no instance did they oust a tory from an old conservative seat, whereas the conservative successes were chiefly obtained in former liberal divisions.

The Situation.

LONDON, Nov. 26.—At the Reform, Devonshire and National liberal clubs the defeat of the liberal party is admitted, but the liberals rely upon successes in the urban and county divisions to modify the result.

The Pall Mall Gazette appeals to the liberals, whether radical or whig, who have not yet voted to unite, in order to prevent "the unmixed evil of tory ascendancy, so complete as to overpower all opposition." "Scotland," the Gazette adds, "remains true to liberalism." The Irish vote gave powerful assistance to the conservatives in the borough of Lancashire.

The Standard warns the liberals not to endanger the unity of the empire by any further attempt to reduce the conservative majority.

The News attributes the defeat of the liberals to the church and Parnell vote, but says there is no need to despair if the whigs and radicals maintain an active unity. Portsmouth has elected the two liberal candidates.

Up to Last Night.

LONDON, Nov. 26.—The totals thus far are as follows: Liberals, 91; conservatives, 90; nationalists, 6; liberal gain, 6; tory gain 57.

In West Bristol Sir M. Hicks-Beach, conservative, and in East Edinburgh G. J. Goschen, liberal, have been elected. In Bolton, J. K. Cross, an under-secretary in Mr. Gladstone's administration, was defeated. In Portsmouth, Sir H. D. Wolf, conservative, was defeated, being at the bottom of the poll.

Of the three greatest electorates voting yesterday Liverpool returned eight conservatives and one nationalist; Leeds three conservatives and two liberals, Mr. Herbert Gladstone and Sir Lyon Playfair, and Sheffield three conservatives and two liberals. The conservative majorities were mostly large, while the majorities of the liberals were small. Lord Randolph Churchill carried Paddington by a vote of 3731 against 1025 for his opponents.

The Tories Jubilant.

LONDON, Nov. 26.—The defeat of Mr. Gladstone's ministers, Hugh Childers and Mr. Lefevre, and of two of his undersecretaries, Messrs. Hayter and Holmes, adds to the conservative triumph. The tory reaction is still unchecked, and the enthusiasm of the conservatives is unbounded and contagious. Great crowds gather in the neighborhood of the bulletin boards and cheer the announcement of sweeping tory successes. The conservatives have carried five of the six Manchester divisions.

The returns up to 1 o'clock this morning show that 105 liberals, 105 tories and 10 Parnellites have been elected. The liberal gains so far are six seats and the tory gain twenty-nine seats.

Mr. Gladstone is fearfully chagrined over the result and has abandoned all hope of more than the barest liberal majority at the best. He has arranged to leave Scotland on Saturday.

A Riot at Nottingham.

NOTTINGHAM, Nov. 26.—Serious riot occurred here to-day. Several serious conflicts took place between the mob and the police, in which 47 persons were injured. The troops were called out to suppress the disturbance. The wounded were taken to the hospital.

A despatch from Belgrade says King Milan denies that he will abdicate.

Advices from Sofia say the Servians today sent a second flag of truce to the Bulgarians proposing an armistice. The Bulgarians refused to entertain the propositions until the conditions named yesterday should be complied with. The onward march of the Bulgarian troops continues.

TRAINS BY TELPHERAGE.

The Utilization of Electricity as a Motive Power.

From the London Times.

Telpherage is the name which has been given to a system of automatically transporting goods by the agency of electricity as the motive power, which system was the invention of the late Prof. Fleeming Jenkin. Dying in June last, however, the professor did not live to see his ingenious ideas carried out on a practical scale. He had begun the construction of a telpher line on the estate of Lord Hampden, Glynde, near Lewes; but his plans had to be perfected by Prof. Perry, his successor, as the engineer to the telpherage company. This line has been completed, and was formally opened on Saturday last by Lady Hampden, who electrically started a loaded train on the line. A special train conveyed a large number of visitors from Victoria station to Glynde. The line is a double one, nearly a mile in length, and is composed of two sets of steel rods, three-quarters of an inch in diameter, supported on wooden posts of T shape, and about 18 feet high. The wires are supported one on either end of the cross piece of the T, which is eight feet long. The carriers or skips, as they are technically termed, are iron, trough-shaped buckets, each holding nearly one-third of the number passed from Trinity at an examination where students competed from the various medical institutions of the world.

Secretary Phillips read letters of regret at inability to attend from Lord Lansdowne, Lieut.-Gov. Robinson, Attorney-General Mowat, Hon. G. W. Allan, Principal Grant, Goldwin Smith, Bishop Sullivan.

KING ALFONSO'S DEATH.

SAID TO BE THE RESULT OF DISSIPATION.

Activity of the Carlists—A Queen at Five O'clock—Excitement Throughout the Country—A Petard Exploded at Madrid.

PARIS, Nov. 26.—A telegram from Madrid says Princess Mercedes, the 5-year-old daughter of Alfonso, will be queen under the regency of her mother, Christina. Senor Sagasta will form a new cabinet. The streets are crowded with people eagerly discussing the situation. The city is tranquil. The body of Alfonso has been embalmed. It has been decided not to proclaim a state of siege here.

Large forces of military and police are being quartered throughout the country, as a precaution against Carlist uprisings. The Empress Eugenie has wired a message of condolence to Queen Isabella.

Cardinal Benavides heard King Alfonso's confession at 1.30 a.m. on Wednesday, and administered to him the last sacraments in the presence of Queen Christina, ex-Queen Isabella and other members of the royal family, and several members of the household. His king begged to see his daughters, who were in Madrid at the time. They were telegraphed for, but arrived too late to see their father alive. The king died in the arms of Queen Christina. All present were profoundly affected. The cardinal and the ex-queen wept, and the infanta Isabel fainted. Queen Christina subsequently covered the body with her hands, and for a long time refused to leave the chamber.

Grief in Havana.

HAVANA, Nov. 26.—The announcement of King Alfonso's death was received here and throughout the island with every demonstration of sorrow. Business, which was almost at a standstill upon the first report of his serious illness, was completely suspended when the news of his death was received. Signs of mourning are everywhere visible.

Dissipation the Cause of Death.

BAYONNE, Nov. 26.—Letters received from Madrid attribute the death of King Alfonso to various causes. One attributes his death to pulmonary phthisis, another to tuberculosis of the intestines, and another to general anaemia and long failing health. It is stated that in the midst of his condition a severe depression the king painted his cheeks to give him an artificial appearance of health, and he constantly indulged in disregarding the requests of his physicians that he should remain at his hunting seat at El Pardo, declaring that there were political reasons for his presence at the capital.

Yesterday 14 reports of smallpox cases were made to the health department and 8 new cases verified. This morning there are 23 patients in St. Roch's, 154 in St. Camille and 45 in St. Saviour's hospitals. The Grand Trunk railway and the Canadian Pacific railway have signified their desire to co-operate with the board of health in quarantining stations on their lines where smallpox exists and where the rules of the central board are not complied with.

THE BETTER THE DAY THE BETTER THE DEED.

From the Montreal Gazette.

The Mail is unjust towards Mr. J. D. Edgar in his speech. We can assure our Toronto contemporary that Mr. Edgar has been here solely to test the quality of gas, indeed to arrest the crime, but to correct how men are cannot bear to be deriving in Sunday carried that he has been devoting a long time to the subject. Inspired with our Montreal air and spending many a Sunday afternoon in the good Edgar home on Sundays in the pew.
