## BY-LAW NO. 3, 1907 OF TOWNSHIP OF WARWICK.

A By-law to provide for drainage work in the Township of Warwick in the County of Lambton, and for borrowing on the credit of the municipality the sum of \$503.00 for completing the same. Provisionally adopted the 18th day of March, 1907.

Whereas the majority in number of the resident and non resident owners (exclusive of farmers' sons not actual owners, as shown by the last revised assessment roll), of the property hereinafter set forth to be benefited by drainage work, have petitioned the Council of the Township of Warwick, to have the drain known as the McGillivray drain, (being in the fourth and fifth concessions, S. E. R., from lot 5 to lot 7 inclusive), repaired under The Ditches and Watercourses Act. The drain to be known as the Sison Local Drain.

And, whereas thereupon the said Council has procured an examination, to be made by C. A. Jones, being a person competent for such purpose, of the said area proposed to be drained and the means suggested for the drainage thereof, and of other lands and roads liable to assessment under the Municipal Drainage Act, and has also procured plans, specifications, and estimates of the drainage work to be made by the said C. A. Jones and an assessment to be made by him of the lands and roads to be benefited by such drainage work, and of other lands and roads liable for contribution thereto, stating as nearly as he can the proportion of benefit, outlet liability and injurious liability which in his opinion will be derived or incurred in consequence of such drainage work by every road and lot or portion of lot, the said assessment so made being the assessment hereinafter by this by-law enacted to be assessed and levied upon the road and lots or parts of lots hereinafter in that behalf specially set forth and described, and the report of the said C. A. Jones in respect thereof, and of the said drainage work being as follows:

Petrolia, Dec. 15th, 1906.  
GENTLEMEN:—In compliance with instructions received from your Honorable Body I have made an examination of the drain hereafter known as the Sison Drain situated on the southerly portion of lot 5 and w. 1/2 lot 6, con. 5, the northerly portion of lot 6, con. 6, S. E. R. and the 6-7 sideroad south of the Blind Line between cons. 5, 6, S. E. R., of your township. Following is the description of its location: commencing at its head on the easterly side of the 6-7 sideroad 2 rods north of the Blind Line between cons. 5 and 6, then southerly along the easterly side of the said 6-7 sideroad, thence westerly parallel with said Blind Line to the line between the three quarters and westerly one quarter of lot 6, thence northerly along the last mentioned line about 40 rods to the said Blind Line, thence in a north-westerly direction across the w. 1/2 of lot 6 and the greater portion of lot 5, con. 5, S. E. R.

It is now an open drain constructed under the Ditches & Watercourses Act and the parties interested have petitioned your Honorable Body to have it put under the Municipal Drainage Act with the request that if the engineer deems it advisable, it be made a tile drain or partly tile and partly open. In this respect I concur with their views and would recommend that a tile be laid beneath the bottom of the present drain following its exact course for the upper 250 rods, below which point the present drain becomes so crooked that I would recommend a somewhat straighter course for the tile by cutting off some of the shorter bends or turns and making them more gradual curves, which will leave the drain in this portion as well as that of the upper 250 rods to carry off freer water.

This proposed work of tiling though a little expensive will do away to a very great extent, if not altogether with the necessity of continually repairing the open drain.

I would also recommend extending the drain about 40 rods below the present end of the work, thus providing a more desirable and efficient outlet for the tile. This will carry the work down to a point about twenty rods below the line between the 6-7 and w. 1/2 of lot 6, con. 5.

I have chained, staked and levelled the drain in stations of 2 chains or 8 rods each for the upper 250 rods and 1 chain or 4 rods each for the lower 50 rods, the total length being 300 rods or 90 chains. Stake "o" is at the head of the drain on the 6-7 sideroad and each stake is numbered the distance it is in chains or chains and links from stake "o". Stake 106 and 701 is where it turns west across the S. E. road and lot 6, stake 34 is where it turns north along the centre of the w. 1/2 of lot 6, stake 203 is where the tiling ends and stake 90 is where the open drain ends on the w. 1/2 of lot 5.

I would recommend that a 6 inch tile be laid along the sideroad from stake 0 to 16x70 a 7 inch tile, from 16x70 to 34 and an 8 inch tile, the remainder of the distance to stake 805, the open drain below this will be 2 1/2 ft. bottom width with sides sloped 1 bar to 1 vert.

I have also prepared plan, profile, estimate of cost specification of work and schedule of assessment on the lands affected, all of which I herewith submit.

**ESTIMATE OF COST.**

76 ft. 6 inch tile at \$30 per 1000 ft. 0 to 10x70	\$21.30
Teaming same at \$1.50 per 1000 ft.	2.50
Digging trench, laying and covering tile 43 rods at 30c. per rod.	12.90
150 ft. 7 inch tile at \$20 per 1000 ft. 10x70 to 34	3.00
Teaming same at \$1.50 per 1000 ft.	4.50
Digging trench, laying and covering tile 61 rods at 40c. per rod.	24.60
Teaming same at \$1.50 per 1000 ft. 34 to 44	3.30
Digging trench, laying and covering tile 30 rods at 40c. per rod.	12.00
Teaming same at \$1.50 per 1000 ft. 44 to 50	7.50
Digging trench, laying and covering tile 40 rods at 40c. per rod.	16.00
Teaming same at \$1.50 per 1000 ft. 50 to 55	7.50
Digging trench, laying and covering tile 22 rods at 40c. per rod.	8.80
Teaming same at \$1.50 per 1000 ft. 55 to 60	7.50
Digging trench, laying tile and covering same, 147 rods at 40c. per rod.	58.80
Furnishing and placing box at mouth of tile	2.00
Digging open drain 805 rods at 17c. at \$1.35	22.50
Teaming same at \$1.50 per 1000 ft.	13.50
Publishing by-law \$1.00	1.00
Registering same \$2.00	2.00
Township Clerk's fees	6.00
Letting and inspecting work	15.00
Survey, asst. on same, plan, profile, specification, estimate of cost and assessment	36.00
<b>Total estimated cost of work</b>	<b>\$503.00</b>

**SCHEDULE OF ASSESSMENT.**

<b>Municipality for 6-7 sideroad</b>				<b>40.00</b>	
<b>Total asmt lands and road</b>				<b>\$503.00</b>	

**SPECIFICATION OF WORK.**

The contractor is to furnish all material required and all labor necessary for the completion of the work.

The trench for the tile is to be dug with a perfectly even grade in the bottom and to follow the centre of the present open drain from stake 0 to stake 805, and from stake 805 it is to follow the line of stakes to be dug on the numbered side thereof and about 6 ft. therefrom. The commissioner will set up stakes or pickets for the centre line of the trench making as gradual curves as possible in all cases and the contractor will follow these stakes or pickets for the line of the trench. Where any abrupt turn occurs the ends of the tile shall be dovetailed a little by sawing them in order to make a closer joint more particularly at stake 10x70 and at stake 34. The tile are to be evenly and neatly laid with close joints and in perfectly straight lines excepting where bends occur. No tile to be covered up until it is inspected by the commissioner. It is then to be covered to a uniform depth of 1 foot, where it is in the bottom of the present drain and to the full level of the natural ground, where it is not in the bottom of present drain. The earth on filling over the tile to be tramped with a medium weight pounder.

The tile are to be of the best quality of agricultural tile and of the size shown and figured on profile. Build a box at the mouth of the tile for an outlet, into which the tile will empty, to be 10 feet long and 10 inches square inside made of 2 inch pine or cedar, to have a plank over the end where the tile enters with a circular hole in same, the exact size of the 8 inch tile which will be inserted into it about 4 inches and then plugged perfectly tightly. The trench for this box to be made 2 inches deeper than that for the tile so that the bottom of the inside of the box will be level with the trench for the tile. This box to be thoroughly anchored in its position to the satisfaction of the commissioner.

The open drain from the mouth of the tile to stake 0 to be dug to the depths shown on profile, 2 1/2 ft. wide in bottom, side slopes 1 bar to 1 vert., with an even grade in bottom throughout. The earth is all to be cast in the low ground and none of it is to be taken from the 6-7 side of the drain. The depths or cuts in all cases are from the ground beside the stake on the numbered side thereof and to govern in preference to those in red, which represent approximately the depth of the tile or open drain as the case may be below the present bottom. Should any error appear in the figured depth at any stake, the grade of the bottom is still to be made to conform with that shown on profile.

All the work to be done, and material furnished to the entire satisfaction of the commissioner in charge of the work.

I have the honor to remain,  
Your obedient servant,  
C. A. JONES, O. L. R. & C. E.

And whereas the said Council are of the opinion that the drainage of the area described is desirable, Therefore the said Municipal Council of the said Township of Warwick, pursuant to the provisions of the Municipal Drainage Act enacts as follows:

1. The said report, plans, specifications, as estimates and estimates are hereby adopted and the drainage work therein indicated and set forth shall be made and constructed in accordance therewith.

2. The Reeve of the said Municipality may borrow on the credit of the corporation of the said Township of Warwick the sum of \$503.00, being the funds necessary for the work and may issue debentures of the corporation in that amount in sums of not less than \$50.00 each and payable within 4 years from the date thereof, with interest at the rate of 4 per cent. per annum, that to say in 4 equal annual payments such debentures to be payable at the Treasurer's office, Warwick, and to have attached to them coupons for payment of interest.

3. For paying the sum of \$281.50 the amount charged against the said lands for benefit and the sum of \$181.50 amount charged against the said lands for outlet liability, apart from roads belonging to or controlled by the Municipality and for covering interest thereon for four years at the rate of 4 per cent. per annum the following total special rates of one and above all other rates shall be assessed, levied and collected (in the same manner as other taxes and rates are levied and collected) upon and from the undermentioned lots and parts of lots and the amount of the said special rates and interest against each lot or part of lot, respectively shall be divided into 4 equal parts and one such part shall be assessed, levied and collected as aforesaid, in each year for 4 years after the final passing of this by-law, during which the said debentures have to run.

Con. S. E. R.	Lot or part of Lot	Acres	Benefit	Outlet Liability	Total	Yearly Payment

4th. For paying the sum of \$40.00 the amount assessed against the said roads of the Municipality and for covering interest thereon for 5 years at the rate of 4 per centum per annum, a special rate on the dollar sufficient to produce the required yearly amount therefor shall over and above all other rates be levied and collected, (in the same manner and at the same time as other taxes are levied and collected) upon and from the whole rateable property in the said Township of Warwick in each year for 4 years after the final passing of this By-law during which the said debentures have to run.

5th. This By-law shall be published once in every week for four consecutive weeks in the GUIDE-ADVOCATE newspaper, published in the village of Watford, and shall come into force upon and after the final passing thereof, and may be cited as the Sison Local Drain By-law.

—Reeve —Clerk

**NOTICE.**

I, Nathaniel Herbert, Clerk of the Township of Warwick, in the County of Lambton, do hereby certify the foregoing to be a true copy of a By-law provisionally adopted by the Council of the said Township of Warwick on the 18th day of March, and a Court of Revision will be held on the same at one o'clock p. m., on Monday, the 6th day of May, in the Town Hall, Watford Village.

And take notice that anyone intending to apply to have the said By-law or any part thereof quashed must not later than ten days after the final passing thereof serve notice in writing upon the Reeve and the Clerk of the Municipality of his intention to make application for that purpose to the High Court at Toronto during the six weeks next ensuing the final passing of the By-law.

NATHANIEL HERBERT, Clerk.

Crawford, son of Mr. Jos. Moloy, met with a rather bad accident Friday last at Mr. H. Catt's, his grandfather, of the 4th con. He was riding a broncho when the animal threw him, breaking his arm and dislocating his elbow.

ITCH, Mange, Pruritic Scratches and every form of contagious Itch on human or animal cured in 30 minutes by Wolford's Sanitary Lotion. It never fails. Sold by T. B. Taylor & Sons.

Last Thursday Wm. Nesbit, Indian Agent, and Chief Jacobs, of Sarnia, spent last Thursday and Friday taking the annual census of Kettle Point and Stony Point reserves. They found 94 Indians. Other figures will be given later.

**Headache Causes and a Cure**

Blood pressure or congestion—a rushing of blood to the frontal region is the direct cause for all Headaches. To cure instantly and positively, this pressure must be relieved and the blood sent to its proper channels. Dr. Shoop's Twenty Minute Headache Cure never fails—it puts into circulation congested blood which presses and irritates the nerves. In handy tablet form—pleasant to take. Send for all particulars. **You Men and Women who have Irritated Bladders try "Bu-Ju" on a Guarantee.**

Doctors call it Cystitis. Whatever the name, it is due to weak Kidneys. The blood is bringing impurities to these organs faster than they can filter it out. This is often deposited in the Bladder; irritates the membrane so much that it cannot retain the urine. Instead of passing urine four or five times a day, it is passed twenty to thirty times. The urine is hot and scalding, and burns like fire.

My! what relief the first few "Bu-Ju" Pills give! They are like ice water to a parched throat. They neutralize uric acid, soothe the delicate lining of the bladder, and take away the burning pain. They strengthen the weakness—heat the Kidneys—stop that frequent desire to urinate, which is such an annoying feature of Cystitis. One man told us that "Bu-Ju" gave him the first uninterrupted night's sleep he had enjoyed in fifteen years.

**Bu-Ju**  
The Gentle Kidney Pill

Bu-Ju is sold by druggists all over Canada. If yours should not have them, send to us and we will see that you are promptly supplied.
