**NOTE AND COMMENT**

Now we'll see what the provincial fuel controller can do to prevent price extortion.

M. Clemenceau warns the United States that he will attend none of their banquets. He can get no French wine there.

About the saddest plight we can imagine these days is to have a blowout and a minister riding in a car.—Simcoe Reformer.

The first carefully prepared advertisement was the Rainbow, announcing that the flood was over. It was printed in colors.

The difference between an evil person and a flapper is that the evil flees when no man persueth and the flapper stands her ground.

Alberta is said to have many millions tons of coal. If we had a few tons of it in our bin it would give us more satisfaction than owning twice the amount in the Rockies.

County Councils have now received the same power as the Provincial Minister of Public Works, to appropriate land for the purpose of opening up, altering or widening county or provincial county roads.

The London Advertiser will change hands on October 1st, having been purchased by Wilberforce Hermon, owner of the Border City Star and other newspapers. Changes are predicted in the most unexpected executive positions.

Church union is no doubt very desirable, but the outlook for its consummation does not seem to have improved much recently. This was one of the burning questions it was predicted the war would help to settle, but the prophecy remains unfulfilled.

Some of the Doukhobors are traveling around in British Columbia without a hanged thing on them, and people are shocked. The only chance for the Douks to get away with that form of parading is to invade the art galleries.

Vancouver Province:—The German Government has ordered the withdrawal of postage stamps bearing symbols of the old regime. The mail-clad figure of Germania has been pierced in so many places that she is now only a tattered remnant of her former haughty self.

If the Justice Department of Quebec believes the Abbe Delorme to be insane, and therefore incapable of standing trial for murder, it should lock him up securely where he will not be able to make a nuisance of himself by writing letters about the failure of justice in his case.

Barely does this newspaper go in for style predictions, observes the Kansas City Star, but it seems likely that, unless the anthracite miners get to digging coal pretty soon, there's going to be an awful rage in old-fashioned flannel night-gowns along about the last of November.

Guelph Herald: The glorious months of September and October are upon us and from a climatic standpoint autumn is invariably Canada's crowning glory. The bright sunshine and crisp air stimulates the average Canadian to be proud that the hot summer days are over and the beautiful days of autumn are upon us.

Woodstock Sentinel-Review:—Some esteemed contemporaries are hurrahing for the old box-stove, the buck-saw and the woodpile. Yes, but where are they? In Ontario we have allowed ourselves to contract the anthracite habit, and it would mean a painful wrench to break away from it. The coal men, however, are doing their best to cure us of the habit. Perhaps in time they will succeed. But the box-stove has probably gone to join the candle-mold and the hand-loom.

Waterford's third pool room will be opened on Saturday by Mr. H.R. Colver who will have two pool tables and a snooker table. The room is above the newly fitted-up confectionery store and ice cream parlor and is modern in every way. Many people object to pool rooms but the main objection can only be what the name implies. In each of our three pool rooms there are lady attendants who serve ice cream and soft drinks when desired and are an assurance of the elimination of any semblance of rough house or vulgarness.—Waterford Star.

Saskatoon Star:—Obviously the lessons of the Dardanelles rankles in the mind of strategists. The strait is relatively unimportant so long as Russia is blockaded. If the only aim is to preserve the neutrality of the zone it does not seem that Canadian troops will be needed. If the allies are planning a war of aggression against the Mohammedan world, Canada might well wait until the 1,000,000 unemployed men in Great Britain are absorbed into military service before launching her own men against a front 6,000 miles away. Canada is ready to bear her share of the empire's burdens, but that does not mean that she is willing to provide a Cook's tour for shiploads of ardent militarists every time a strategic point at the ends of the earth is threatened.

**A CONCESSION TO HOME INVESTORS**

In offering to renew the five and a-half per cent. Canadian Government bonds maturing December 1st at the same rate of interest as is carried by the maturing bonds, and allowing a bonus of one month's interest, the Minister of Finance is making a material concession to the Canadian investor, as this rate is higher than was paid on the recent Canadian loan in New York. The high class of the security, which is the very best that can be offered in Canada, and the liberal rate of interest should lead to large investment in these Dominion bonds. Attention is directed to the official advertisement giving details.

**PALE AND SICKLY GIRLS AND BOYS**

Need All the Strength That Rich, Red Blood Can Give Them.  
 Youth is the time to lay the foundation for health. Every girl and every boy should have plenty of pure, red blood and strong nerves. With thin, impure blood they start life with a handicap too great to win success and happiness. Rich, red blood means health, full growth, strong nerves, a clear brain and good digestion. In a word pure blood is the foundation of health.

The signs of weak, watery blood are unmistakable. The pale, irritable girl or boy, who has no appetite or ambition, is always tired out, short of breath and does not grow strong, is a victim of anaemia—the greatest enemy of youth. There is just one thing to do for these girls and boys—build up the blood with Dr. Williams' Pink Pills. You can't afford to experiment with other remedies, for there must be no guess work in the treatment of anaemia. Dr. Williams' Pink Pills act directly on the blood, giving it the elements it lacks, thus developing strong, healthy girls and boys. Mrs. R. Kinch, Hepworth, Ont., tells as follows what these pills did for her daughter:—"I think it a duty to let others know the benefit which Dr. Williams' Pink Pills have been to my daughter, and I hope this may be the means of inducing some other sufferer to try them. She was weak, nervous and badly run down. She took medicine from the doctor but got no benefit, and finally she was not able to walk to school. I was advised to give her Dr. Williams' Pink Pills, which I did, and after taking them for a time she was restored to perfect health. I cannot speak too highly of these pills."

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

**A Prime Dressing for Wounds.**—In some factories and workshops carbolic acid is kept for use in cauterizing wounds and cuts sustained by the workmen. Far better to keep on hand a bottle of Dr. Thomas' Electric Oil. It is just as quick in action and does not scar the skin or burn the flesh. m

**Keep Money Working**

You wouldn't keep a strong, healthy horse in the stable "eating its head off" and doing no work. That wouldn't be profitable.

Then why keep surplus money idle about the house when it could be earning interest in a Sterling Bank Savings Account. In addition to being absolutely safe and profitable, it gives you the benefit of Sterling Bank Service in financial matters as well.

Bonds of the new issue will be sent to the banks for delivery immediately after the receipt of the surrendered bonds.
