

The Weekly Monitor.

WEDNESDAY, OCTOBER 24th, 1888.

Widespread and serious destruction is reported in North Dakota, owing to the severe frosts which prevailed in August, destroying the wheat crop, and also the corn and other crops.

The New England Harvested in its report of the United States potato crop says: "There will be a fair average crop in New England, and there is not a full crop at the west. But it is doing much damage to the late crops. The price of the potato in New England is very short."

A special correspondent of the New York Sun recently paid a visit to the Dominion for the purpose of attempting to gauge the public opinion in regard to the annexation of the Dominion.

Of annexation we cannot say, after viewing the whole body of opinion, that any perceptible fraction of the Canadian people at present contemplate the possibility."

Manitoba is not over her troubles about the railways to the American border yet. The Canadian Pacific Company have built a spur across the Portage Line, where it crosses the South Western Railway, and admit that it was for the purpose of preventing the Manitoba Government from building across their line. Trouble is expected, and serious trouble at that.

Ottawa, Oct. 21. The department of militia to-day received telegrams from Winnipeg, stating that the militia had been called out there at the request of three magistrates. The purpose for which the force was required was not stated, but it is supposed that the Manitoba government have undertaken to force a crossing of the Canadian Pacific railway at that point, and that a conflict has ensued.

The latest from Winnipeg is that the school of industry has been called out to prevent the local government from crossing the Canadian Pacific Company's property. It is expected that an attempt will be made to cross the track by the Manitoba authorities to-night, and troops have been despatched to the scene of the expected conflict.

The Spectator may consider it a vile insinuation for us to state what we consider to be borne out by the facts. We cannot help it. When our contemporary refused to modify a misleading and overdrawn statement, upon being brought to its notice, we should like to know what other construction can be put upon its action under the circumstances?

Dr. McKenzie, the English physician, who was in attendance on the late Emperor of Germany during his illness, makes serious charge of malpractice against certain of the German doctors. Dr. McKenzie is publishing a book giving an account of his experiences in connection with his charge. The German Government turns against their accuser of being open to the same charge of malpractice. This looks serious. When the man who is supposed to occupy the very highest place in medical science, commences to accuse one another of not knowing what they are doing, it rather shakes faith in the efficacy of medical treatment generally.

German ram must be quiet sort of stuff. It was attempted to send the dead body of a gonia, preserved in the honor from Africa to Liverpool, G. B. Upon opening the case, all the hair and skin of the remains were found to be covered with a vitriol, and advanced decomposition had taken place generally. German sends over five million millions of 100 per cent to Africa. If it is not better quality than that mentioned above, the poor unfortunate blacks must be killed off by disease. Germany beats the world in its exports of liquor to the dark continent. The combined exports of the other nations do not reach much over a million.

A lot of Texas ponies have just been brought to St. John.

What is the matter with Montreal? Nine cases of elephant were recently reported to the police of that city within a fortnight.

Murdoch & Neily has added to their stock a line of Glassware, Lamp especially, which were imported from the glass and offered at a small advance.

Hay is selling here at \$18 per ton most of the wild meadow hay depended upon by our farmers to winter young stock upon, has, owing to the excessive wet season, been spoiled. -Gold Hunter

C. V. R. R. - There are about 60 men at work on the Bedford between Canning and Kingsport. Mr. Wm. Sutherland, and contractor for the water works here is the director of the work. -Western Chronicle

The Princesses' Broom' handsome three story building is just approaching completion. They propose keeping a first-class drug store, and will be under the charge of a thoroughly experienced druggist.

A CENTENARY. - James Sabean, of Port Lorne, in this County, attained his 100th birthday on Saturday last. He is yet hale and hearty, goes around out doors and possesses good faculties. He lives with his son, Jeremiah Sabean.

The trial of Mrs. Doyle, for being an accessory after the fact to the murder of Peter Doyle, was commenced in Halifax Supreme Court last week. The Attorney General conducts the case for the crown, and Sidney Motion and C. S. Hartington for the defence. The case has not yet been concluded.

Ons Ochsards. - The Asson says: Mr. C. R. H. Starr has secured splendid views of some of King's county's best orchards. We had the privilege of inspecting them a few days since. One is a picture of the orchard of Messrs. X. Z. Chipman and J. C. Johnson, of this place. He also has fine views of his own orchard, the orchards of John Starr and E. W. Starr and others. They are to be reproduced in English and American Illustrated papers, and will be a great factor in bringing our splendid facilities for fruit raising before the public.

Local and Other Matter.

The roads in the Dalhousie district are said to be the worst on record.

8000 immigrants are reported to have settled in Manitoba, and are now engaged in the White Earth Paradise Oil, for sale at Shipley's.

R. P. MacNeil has been appointed local assessor for Ward No. 1, in place of Robert Moore.

The American four masted Schr. Andrew Adams 771 tons, A. Adams, Master, arrived in port Thursday morning. She will load dimension spruce lumber for Buenos Ayres, South America. She is consigned to Messrs. Pickett and Mills. This is probably the first 4 masted schooner ever inside the Gut. -The Schr. Cumberland, Webber, Master, also arrived in port on Thursday morning. She will load spruce lumber for Cuba. Also consigned to Pickett & Mills. -Spectator.

It is gratifying to see the satisfactory prices our early apples are obtaining in the English market, and we trust the late season will do even better.

Any person having property to dispose of will do well to call at S. Fitzlandolph's Provision Store where the highest cash price is paid.

Holders of Maritime Bank bills will be glad to learn that a 50 per cent. dividend has been declared on the estate of the late S. Fitzlandolph, now of Kansas City, brother of the bride, gave her away. The bride and groom are now in friends here, and many and sincere were the congratulations and good wishes showered upon them at the ceremony. They drove from the church to the train, and took their departure on the 10 o'clock train. Mr. Fitzlandolph will permanently reside in the latter place. Mr. Neily having been in business there for a number of years, and a number of friends accompanied the happy couple to Annapolis. The Mourner extends his heartfelt congratulations.

There were two boys caught in the vicinity of Torbrook, recently, one by Mr. E. Wheeler and the other by Melbourne Footman and Edward Vidito. There are more in the vicinity and it is to be hoped that they will all be caught.

The Summerside Journal, P. E. I., has recently enlarged to 40 columns and is now one of the largest weekly papers published in the province outside of the capital.

The Journal is an excellent paper and deserves the success it has achieved.

J. W. Beckwith wants an excellent pair of good Dried Apples.

Having just returned from a two week's visit to New York, where I learned new ideas in cutting and styles generally, I am better prepared to give my customers perfect satisfaction in fit and styles than ever before. Call and be convinced.

Released from Prison. - Frank Bowle, convicted and sentenced to life imprisonment in 1885, as accessory to the murder of Donald McDonald, of Tracadie, Antigonish county, has been released from Dorchester penitentiary. He returned home last week.

Our householders are laying in their winter supply of black diamonds, two coal vessels having been here within the week. The last arrival is the A. T. Capt. Mundy, from Sydney, C. B., and her cargo was for Capt. H. F. Mundy, who has for a number of years supplied this town with this fuel satisfactorily and well.

Mr. W. A. Calne has paid several calls lately. He has been nearly completed in the manufacture of the forthcoming work on the genealogies and biographies of families in this County, and expecting to have it soon be in the hands of his printers. He has received a large number of subscriptions. For the present his address is at Paradise.

The Tail Friend in Minas Geraes. - Our highly esteemed and much respected citizen, Mr. Joseph Craig, had the tail of his oil man clipped very short last Sunday evening. The knowing ones say it is the Scott Act again, so Joseph is willing to be a martyr to the cause. -Ore.

Unlucky, for beating to death a woman whose last words were "don't hit me, Tom, I love you so!" gets an amended sentence of 15 years. One Parley, at Westport, shot a bigger and stronger man, who was always ill-treating him, and at once sentenced to death. We should like to have that Toronto jury at our absolute disposal for a couple of hours!

Critic. -The Halifax Herald says: A writ was issued in the supreme court yesterday against the Nova Scotia Victoria and Atlantic Central railway company for \$10,000, at the suit of James William Vickers for work done, and printing the prospectus and advertising in the English papers offering for subscription the mortgage bonds of said company. H. W. C. Book is solicitor of plaintiff.

Pasagosa. -The Western Chronicle learns from an authentic source that Mr. J. B. Barnaby, (we know him, and now we regret to say that he is no longer with us) has received an offer from Springfield, Ohio, to become organist and choir master of a church there at a salary of a thousand dollars per year. This only for Sundays while he has the other six days of the week to himself. Mr. Barnaby is debating whether he shall accept the offer or not as he has been intending to resume his studies this winter in Boston.

By a telegram received from Mr. Banks, the editor of this paper, we learn the sad news of the death of his daughter Miss at St. John, yesterday morning. Mr. Banks was bringing her home from New York, whether he went for that purpose last Saturday. She was suffering from consumption, but an all-wise Providence has ordered it otherwise. Her remains will be brought here for interment. Funeral will likely take place on Tuesday. -The Gold Hunter.

We tender our sincere sympathy to our brother journalists and his family in their bereavement.

The storm on Wednesday night and Thursday morning last was severe in other portions of the Province we are by our exchanges. The storm in Yarmouth was of short duration, but the thunder and lightning are described as terrific. The spire of the Temple Baptist Church was struck and wrecked, and a house occupied by a family named Gammon was also struck and slightly damaged. At Hopedale, Pictou Co., a town owned by R. R. Grant was struck, the electric light entering at the highest peak of the gable, passing down into the stable, and killing a boy and two horses and setting the barn on fire. The structure was, however, saved by prompt measures. Two boys were burned into the hay about 15 inches in diameter, for a distance of some four or five feet.

The storm here was not noticeably felt.

The St. John Globe, of the 17th inst., gives the following notice of Messrs. Peck & Fursman's company, who play Uncle Tom's Cabin, in Bridgetown, on the 21st inst.:

Uncle Tom's Cabin. -Neither Januarius nor any of the other great performers that have come to St. John in recent years, had an audience one-fourth the size of that in the Institute last evening when Peck & Fursman's company played "Uncle Tom's Cabin." The house was packed in every part, and the performance was heartily enjoyed by all - even by those who had to stand for over two hours. The company is a good one, and the characters were all excellently personated - better than usual indeed. The scenery was first class, and everything else as good as possible. To-night the company will play in the Institute again.

The other St. John papers give equally complimentary and much more lengthy notices. This is evidently one of the best shows that has ever come to this town, and we hope it will be well patronized.

Local and Other Matter.

The Spectator says that J. M. Owen, Esq., barrister of Annapolis, is away on a visit, and that rumor says he will not return alone.

A terrible railway accident is reported from Italy, caused by a landslide. The dead and wounded run up into the hundreds.

Mr. Munro, having completed his engagements in Annapolis County, has taken personal charge of his book and stationary business here. -Anker Gazette.

The American four masted Schr. Andrew Adams 771 tons, A. Adams, Master, arrived in port Thursday morning. She will load dimension spruce lumber for Buenos Ayres, South America. She is consigned to Messrs. Pickett and Mills. This is probably the first 4 masted schooner ever inside the Gut. -The Schr. Cumberland, Webber, Master, also arrived in port on Thursday morning. She will load spruce lumber for Cuba. Also consigned to Pickett & Mills. -Spectator.
