### SANCTUARY FOR WILD BUFFALO

Boundaries of a New Game Preserve in Northern Alberta Dedicated.

Ottawa, Ont.—Boundaries of a new wild game preserve in Northern Alberta dedicated in perpetuity as the wilderness home of two herds of 1,500 wild wood buffalo, have just been announced by the Dominion government.

The entire habitat of the two herds has been enclosed in the sanctuary. It is heavily timbered and includes several mountain ranges, lakes and rivers. The area of the new park is 10,500 square miles. Throughout the park cabins have been built for wardens which will facilitate an efficient patrol service the year round.

Existence of these wild herds in the Great Slave Lake country has been vaguely known for years, but their numbers were never estimated above 250 until a year ago when a government survey party saw the herds and by rough count figured the total as 1,500 animals. The only other known herd of wild buffalo in the world is in the remote fastnesses of Yellowstone park and numbers not more than 100 animals.

With the largest number of wild buffalo, Canada boasts also the largest buffalo herd in the government park at Wainwright, the largest game preserve under fence in the world. The Wainwright herd now numbers more than 8,000. Two thousand bulls in the Wainwright range will be slaughtered this fall as of no value to herd propagation and to conserve pastures. Their meat will be marketed in the United States and Canada and a large part of it made into pemmican for distribution among Arctic trading and fur posts.

(It has been suggested that a pair of buffalo might be had from the government for a suitable sanctuary park in Nova Scotia.)

A LUCKY EDITOR

Although several of our Provincial contemporaries are reporting the finding of strawberry blossoms in their respective neighborhoods, and also that several ripe berries have been brought to our office during the past week, we may mention the fact that we had the luxury of a full box of those excellent berries for dinner on Sunday. We have been regalling ourselves with the delicious berries for several weeks.—Yarmouth Herald.
