

THE Locked- Wire Fence Company

INGERSOLL,
ONT.

The accompanying cut represents five panels of fence and gate of the **LOCKED WIRE FENCE**, which is now built with improved corrugated hardened steel stays and Hessemer steel clamps—a combination which is proof against the most unruly stock or designing men. The crimp in the wire, in combination with steel clamps, when locked acts as a spring adjusting the fence to heat or cold.

**Perfectly Safe.
Stronger,
Better,
and Cheaper**

than any other fence, and without doubt the best fence on the American continent.

All persons having wire fences erected in the past should use the stays and steel clamps of the **Locked Wire Fence Co.** on them. The crimp consumes all the slack, makes the fence tight and adds over 100 per cent to its value, at a very small cost.

We desire to inform the farmers and public generally that we are prepared to supply the material or erect this fence throughout the Dominion of Canada.

Recollect, we are the only firm that is furnishing the genuine material in the form of the corrugated hardened steel stays and Hessemer steel clamps.

70 ST. GABRIEL ST., MONTREAL.

It is not Paradise,

But

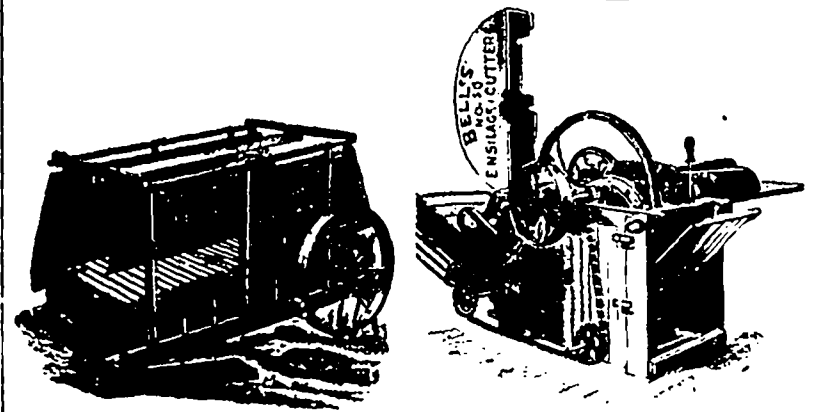

If you have some cash to spare and are willing to work financial independence cannot be more easily secured than by buying a few acres of irrigated land in Salt River Valley.

This valley is in Southern Arizona, and is noted for its fine semi-tropical fruit and superior climate. Horticulturists say that greater profits can be realized here from oranges and grapes than in Florida or California. Physicians assert that the warm, dry, bracing climate cures all healing qualities Italy's balmy air. The great blizzard of 1894 did not blight the tenderest leaf in this protected spot.

To get there, take Santa Fe Route to Phoenix, A. T., via Prescott and the new line, S. F. & P. R. Ry., Address F. T. Hendry, 64 Griswold Street, Detroit, Mich. for illustrated folder. They surely tell the story of a remarkable country. Actual results are given on circulars or letters.

**It is the
Salt River Valley.**

We will be there again!

"In our opinion, the complete outfit is just about perfection."

That is what Messrs. Rice, Rathborne, Farlaum, Milne, Yule, Cameron, Routledge, Miller, McColl, Bowman, Cockburn, Ellis, and Clemons said about it. They are all stock exhibitors, and ought to know, for they saw it at actual work last fall at the stock barns, Toronto Exhibition.

We have been granted the same privilege again, and shall be pleased to cut feed for our old friends and many new ones.

B. BELL & SONS - St. George, Ont.

SUCCESSFUL FARMERS

**Freeman's High-Grade
Bone Fertilizers**

They produce large crops of wheat of superior quality.

Try our Fertilizer for Fall Wheat, which is especially manufactured for that class of crop. TERMS EASY PRICES LOW.

"Having used your Sure-Growth Fertilizer for the past three seasons, it is with pleasure I recommend its use to others. I commenced with one ton in the first season, and two years ago purchased from you two tons, and last season two and one half tons. Always used it on fall wheat at the rate of about two hundred pounds per acre, and am fully convinced I had at least one third larger yield and finer sample than where no fertilizer was used."

Thanking you for your prompt delivery, I remain,

(Signed) RICHARD SELDON, Township Clerk, North Oxford.

The W. A. FREEMAN CO., Ltd., - Hamilton, Ont.

Central Prison Binder Twine.

Pure
Manilla

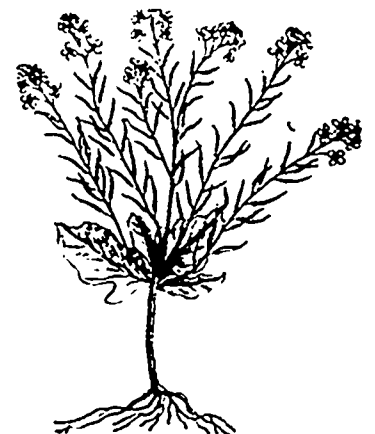

Each bale (12 bails) weighs 50 lbs., net weight of Twine, yielding 600 to 650 feet per pound. It will bind more grain for less money than any other Twine in the market.

Price 7½ cents

freight paid to nearest station, in lot of not less than 100 pounds. Cash to accompany order. Special price for car lots. Correspondence solicited.

JOHN HALLAM, - Toronto.

PROPRIETOR.

EVERY farmer should at once begin to deal with the pest above delineated if it is found on his farm. It is very common on some farms, and is rapidly spreading into parts where lately it was unknown. How to deal with it effectually without losing a crop, and at the same time with benefit to the soil in which it is found, is a *very* interesting and important question. Professor Shaw's valuable book on "Weeds" will tell you—not only how to deal with this pest, but with every other pest. It is a book that is bound to improve your crops. Send for it. Only 15 cents. Neatly bound and illustrated and sent postpaid. Address

THE BRYANT PRESS, 20 Bay St., Toronto.
